

The Daily Astorian.

ASTORIA, OREGON: TUESDAY, NOVEMBER 19, 1885

BLAINE says "there is no gratitude in politics. Politics means only ambition and success." Jas. G. has a great head.

THE celebration of the opening of the through railway line of the Atchison, Topeka and Santa Fe system to the Pacific ocean, was appropriately celebrated at San Diego, Cal., yesterday.

IN the little war between the Servians and the Bulgarians, the latter are getting decidedly the worst of it. They hope to drag in some of the leading European powers and make the war general.

CINCINNATI is said to be rapidly losing its trade on account of the political corruption that reigns there. Some large houses have already removed to other cities, and others will do so within the next few months.

A SINGULAR fate threatens the city of Mexico. The great lakes close by are yearly rising and unless drained will shortly submerge the capital. The only recourse is to tunnel a drain through the mountains at an expense of \$4,000,000. This it is now proposed to do.

THEBAW, of Burmah, is at war with the English. Of course there can be but one result: he will be conquered and his dominions, with their 5,000,000 people, annexed to British possessions in farther India.

Whatever may be said of English rule, it will certainly be a benefit to the Burmese, and an improvement upon the former state of affairs.

A LETTER received by a prominent real estate dealer in Seattle, from a friend now at Port Moody, states that the whole peninsula bordering on Coal Harbor will be laid out in 25-foot town lots. The erection of government works contemplated there will be at once entered upon. Vancouver, Granville and Port Moody are swarming with people.

THE public committee appointed to investigate the expulsion of Chinese from Tacoma on November 3d, submitted their report on the 17th. It demonstrates the fact that not a single Chinaman suffered bodily injury nor was any of their property destroyed. The correctness of the report is attested by twenty-one of the leading citizens, representing the banking, commercial, legal and other interests of the city and county.

THE Edmunds law has already succeeded in so scaring the three presidents of the Mormon church, Taylor, Cannon and Smith, that they are hiding to prevent arrest. Some fifty bishops and apostles have been suddenly called away, thirty or forty more are under indictment, and nearly as many more are in prison playing the part of martyrs. This shows to those in authority that the law means business and proposes to put a stop to polygamy by punishing the most influential.

THE commissioners of immigration for the state of New York have reported to the secretary of the treasury that during the year ended June 30th there arrived at the port of New York from foreign ports 356,906 passengers, of which number 204,013 came as steerage passengers and were landed at Castle Garden, where they were examined by the commissioners. The most of these were destined to Illinois, New York, Ohio, Pennsylvania, Iowa, Michigan, Minnesota and Wisconsin. During the year there were returned to the country whence they came, 1,183 emigrants, of which number 51 were insane, 32 were idiots, 2 were blind, 9 were deaf and dumb, 21 were cripples, 478 were disabled by sickness, 77 by reason of old age, and 435 were without visible means of support.

The amount of the emigrant fund collected under the act of August 3, 1882, was \$142,310, and the expenses of the commission amounted to \$140,031. The commissioners recommend that the act of congress to regulate immigration be amended so as to provide for adequate penalties for all violations of the law.

On the Indian question Gen. Sheridan says: "I would recommend that each family be given and located on 320 acres now provided for them by law. In case of actual settlement the government should then condemn all the balance of each reservation at \$1.25 per acre, and with the proceeds purchase government bonds to be held in trust by the interior department, only giving to the Indians each year the interest on the bonds for their support. Let this money then be distributed the same as the money appropriated each year by congress. This, then, would be more money than is appropriated by congress, and would take the question for the annual appropriations for Indians out of congress." Gen. Sheridan adds: "I cannot agree with Gen. Miles in his ideas regarding Indian territory, or his confidence in the ability of the Indian to make himself self-supporting in so short a time. All our experience heretofore does not warrant such confidence, and such opinions should be regarded as individual rather than representative of the army. The permanent control of the Indians is not desired by the army at large."
