

The Daily Astorian. ASTORIA, OREGON. WEDNESDAY, DECEMBER 23, 1885

But eight days more of '85. 'Twas a quiet old year and a dull one in Astoria.

There are about 600 cases salmon on the O. R. & N. dock. It is thought that there are not over 7,500 cases left on the river.

During '85 thus far, fire losses in Portland have aggregated \$55,400. The fire losses in Astoria are also, fortunately, very light.

The Albany people have about raised the \$40,000 that the Oregon Pacific asked as an inducement to build from Corvallis to that place.

This weather is in pleasant contrast to that of one year ago when hail, snow, sleet and wind came like an echo of the Christmas climes of eastern longitude.

Invitations are out for the masquerade ball to be given by Cushing Cornet band on New Year's eve. No effort will be spared to make the entertainment a success.

The city council can hardly be blamed for the present unsafe condition of a portion of Chenamus street since the property owners remonstrated against its repair.

The Carrie B. Lake came in yesterday and came alongside Foard & Stokes' slip. She had about 1,600 pounds, mostly groupers, rock cod, flounders and sole, all of which found ready sale.

The stars and stripes were waving over the Odd Fellow's building yesterday in honor of the fourteenth anniversary of the instituting of Beaver Lodge No. 35, I. O. F., one of the oldest and largest Lodges in the northwest.

The Yakima Signal thinks, "when the N. P. gets a switchback over the Cascades, and a daily pullback from Pasco, and a haul somewhere along the line, the territory will no longer be out bias, as it were. The Sound people will not have to go to Oregon to reach the greater part of their domain, like a hog crawling through a hollow log under a fence corner, only to find himself in the same lot at the other end."

The city council last night repealed the ordinance requiring saloon keepers to give five days' notice by advertising their intention of applying for a license. In this they did right. The ordinance was ridiculous and unnecessary. Besides the usufruct worked differently from what was expected; then again the deadends went into other channels than the intended one. Taken altogether—or separately—the council have done nobly.

Jas. McInnis, aged 28, died of typhoid fever at the hospital yesterday afternoon. He had been logging for some time at Westport where friends of his reside and also at Knappa. The funeral will be at the latter place to-morrow afternoon. The boat will leave Wilson & Fisher's dock between eight and nine to-morrow morning arriving at Knappa at eleven. Deceased leaves an aged mother and a wife and three children of which he was the sole support.

In making preparations for Christmas and selecting gifts do not forget that the sweet promptings of charity are among the main impulses that suggest action at this time. Your own well fed, warmly clothed little ones would probably get along just as well with one present less and a little in the way of remembrance toward your neighbor's little folks just as deserving, just as appreciative as your own of the good things that Christmas brings will do much toward making your Christmas a merry one. A good dinner, a simple toy, a little bunch of knick-knacks furnished those who could appreciate them just as well as their more fortunate fellow mortals would be in order.

The stringing of the electric wires goes on, those engaged in putting them up having reached the roadway to upper town. The wire is of heavy copper coated with asbestos and when in place looks like gray cotton twine. It is the thickest and heaviest ever in Astoria. The wires assume a net like appearance now. Over the crossing in front of Aug. Danielson's are stretched sixteen wires. Ten of the electric lamps were in operation at the West Shore mills yesterday evening and burned to the entire satisfaction of the testers. There has been some delay in the shipment of the lamps from San Francisco. Mr. Trolinger hopes to have those on hand up and giving light by Christmas eve.

THE ASTORIAN respectfully and in a proper and becoming spirit of humility inquires what becomes of the San Francisco papers. In the last two weeks but one or two San Francisco papers have been received at this office. Last evening the Post of the 1st inst., three weeks from San Francisco, arrived. In the old days the newspaper mail bag was usually reserved for the bad place in the road and only flung out as a last resort when the stage was in danger of being stuck and nothing else was handy to fill up the hole in the road. But no such excuse exists now. What can the matter be? Of course no one takes them out on the way to read them. It would be a libel to even hint at such a thing.

- Dried Fruits, Peaches (halves) 10 lbs \$1.00, Pitted Plums 10 lbs 1.00, Zante Currants 12 lbs 1.00, Prunes 12 lbs 1.00, J. O. BOZORTH, Pres.

OVER THE WIRES.

AN UNFORTUNATE COMMUNITY. WILKESBARRE, Penna., Dec. 22.—The mining village of Nanticoke is in a state of abject despair and agony. Another enormous cave occurred in the coal mines last night and all attempt to rescue the imprisoned miners has been abandoned as the men could not be reached in less than a month. As the immense mass of soil slid down the scenes of suffering were horrible; many women relatives of them men are prostrated and will probably die.

ALL RESIGNED. PORTLAND, Dec. 22.—The entire police force of this city resigned today. Since the last session of the legislature appointing a board of commissioners it is believed that the force held their positions unlawfully as none but the board can appoint. There is no doubt that all will be re-appointed.

ILLNESS OF SENATOR MILLER. WASHINGTON, Dec. 22.—Senator Jno. F. Miller of California is much worse and fears are felt as to his recovery.

OFF WITH HIS HEAD. SAN FRANCISCO, Dec. 22.—It is believed here that special agent Spaulding the author of the incorrect Chinese report will be dismissed.

THE MURDEROUS APACHE. EL PASO, Dec. 22.—Six citizens were killed here in a recent Indian attack on the whites.

DECLARE THEMSELVES. SALT LAKE, Dec. 22.—The ministers of this city have had a meeting and send a warning to eastern people not to believe slanders started by prominent citizens here including themselves.

KEPT THE HOLIDAY. INDIANAPOLIS, Dec. 22.—Onderberg and his wife, two Poles, were found today suffocated by gas from a gas burner stove. It was a holy day with their faith and neither one of them would lift a hand to turn the damper. He is dead; she may recover.

CHOLERA IN VENICE. VENEZIA, Dec. 22.—The cholera has broken out here: there are fifty cases already; twelve deaths. Many are fleeing from the city.

A SPANISH CONSPIRACY. MADRID, Dec. 22.—A conspiracy has been discovered here to set aside the regency and establish a republic. The government is very reticent regarding the matter.

MAY CURE THEM. PARIS, Dec. 22.—To-day M. Pasteur treated the children who arrived yesterday from Newark, New Jersey, for hydrophobia, by introducing virus into their systems well under the skin. He is satisfied of favorable results: no bad symptoms have manifested so far.

Boiled Down. Irish Orangemen protest against home rule in Ireland.—Republican senators are daily receiving hundreds of letters, making complaints against men who have been appointed by the president. A majority of the documents come from Democrats.—The bill introduced in the house by Morrow, of California, amendatory of the Chinese restriction act, forbids entry of Chinese laborers for a period of twenty years. It provides for identification, by photography, of Chinese laborers who are entitled to return to this country, provides additional safeguards against illegal entry of Chinese, and limits the number of Chinese passengers to one for every fifty tons of a vessel's burden.—A bill has been introduced in the house to organize the "Indian territory" and a public land strip into the territory, to be known as the territory of Oklahoma, and to provide temporary government therefor.—Senator Edmunds has reported from the senate judiciary committee a binding polygamy bill designed to cripple and ultimately destroy Mormonism.

List of Jurors. The following named persons were drawn yesterday to serve as jurors at the coming session of the circuit court. W. E. Joplin, M. Foard, A. W. Gates, L. C. Kinney, H. Benson, W. M. COMMON COUNCIL PROCEEDINGS.

The last session of the city council for the year 1885 was held last evening, Mayor Hume in the chair; present Councilmen Bergman, Cleveland, Gratke and Trencard. J. C. Trullinger, mayor elect, was invited to a seat inside the bar.

A petition from property owners asking for street repairs, corner Main and 8th streets was referred to street committee.

A remonstrance against the improvement of Chenamus street from Olney to Benton street was granted.

The matter of payment of taxes of L. W. Case was discussed, no definite conclusion being arrived at.

A communication was read from the city auditor and clerk directing attention to the fact that the contract for lighting the streets of the city expires on the 31st inst., and that the late legislature, at its last session, had passed a law setting liquor licenses at \$300 per year. On motion the auditor and clerk was instructed to advertise for bids for lighting the streets of the city for 1886.

The committee to whom was referred the question of passing an ordinance repealing section 2 of ordinance 577, reported favorably: report adopted.

An ordinance appropriating \$250 for the benefit of Astoria Engine Co. No. 1 was passed under suspension of the rules.

A GOOD BILL. Senator Dolph sends senate bill No. 64 which he introduced in that body on the 8th inst. It is a "bill to prevent the obstruction of navigable waters, and to protect public works against trespass or injury." The bill is an excellent one and among other provisions is intended to prevent to "cast, throw, empty, or unladen, either from or out of any ship, vessel, lighter, barge, boat, or other craft, or from the shore, pier, wharf, or mills of any kind whatever, any ballast, slate, gravel, earth, rubbish, wreck, filth, slabs, edgings, sawdust, or other mill waste of any kind, into any port, road, roadstead, harbor, haven, navigable river, or other waters of the United States for the improvement of which congress has already made, or may hereafter make, appropriations, or to deposit, or place, or cause, suffer, or procure to be deposited or placed, any ballast, stone, slate, gravel, earth, rubbish, wreck, filth, slabs, edgings, sawdust or other mill-waste in any place or situation or shore where the same shall be liable to be washed into any navigable waters, either by ordinary or high tides, or by storms or floods, or otherwise."

A Celebration in Arizona. An Arizona paper remarks: "Those well-known Indian braves Goo-Up-Charley and Short Pants have been arrested for drunkenness again. This makes the ninth or tenth time, and a movement is on foot among the habitues of Al Blodgett's saloon to celebrate the occurrence of their hundredth arrest, which cannot be far distant. A souvenir programme will be issued, the Montezuma will be thrown open to the boys and several well known desperate Grossers will be shot on sight. We will be there ourselves and will do all we can to add to the interest of the occasion."

HERMANN IN CONGRESS.

WASHINGTON, Dec. 21.—Congressman Hermann, of Oregon, is showing a deal of sagacity as a politician. Single-handed he has nearly brought the entire California delegation to recommend him for a place on the committee on rivers and harbors. California members selected places on the committees that they wanted, and then recommended each other for the respective places. Hermann, of Oregon, was ignored in this little plan.

He desired to be put on the committee on rivers and harbors, and told Carlisle that it was the only committee upon which he could be of any service to his constituents. Carlisle replied that he could put him on almost any other committee, but Hermann would not change. He still replied that it was the only committee on which he could be useful.

Congressman Markham had selected that committee, and was recommended by the entire California delegation. Hermann set about to offset this solid array, and secured recommendations from delegates from Washington territory, Idaho, Montana and Dakota, which with Oregon comprise about one sixth of the territory of the whole country. With this extensive territorial backing he came to the California delegation and asked them to withdraw Markham and support him. His argument was cogent enough to convince several of them, and the matter is now being considered. It is not at all improbable that the California delegation will withdraw Markham and unite for Hermann for the place on the committee on rivers and harbors.

A Startling Discovery. Physicians are often startled by remarkable discoveries. The fact that Dr. King's New Discovery for Consumption and all Throat and Lung diseases is daily curing patients that they have given up to die, is startling them to realize their sense of duty, and examine into the merits of this wonderful discovery; resulting in hundreds of our best Physicians using it in their practice. A Presentiment Saves a Steamboat.

Captain Colson, of the steamer Wide West after going home Saturday evening became possessed with a feeling of uneasiness and a presentiment of something unpleasant about to happen. He could not be content and finally started down to the dock to see if anything was wrong with his boat. He found that she had settled down in the water and examination showed several feet of water in the hold. It was concluded that something was wrong in the pump well and as none of the crew would go down to make an examination, Capt. Colson went down into the hold and swam around until he had found the leak and stopped it. It was very fortunate that he came down when he did for if the leak had been left alone another hour the boat would have sunk.—Oregonian, 22.
