

The Daily Astorian.

ASTORIA, OREGON:

SATURDAY, JANUARY 16, 1886

The members of the Coffee Club have concluded to disband the organization.

Mr. W. E. Warren will be assisted by Mr. Hines in the great bicycle riding at the rink this Saturday eve.

The O. R. & N. Co. sells round trip tickets, good on any of the company's boats to Portland and return, for \$2.50.

The State arrived in yesterday; the Oregon sailed; the Viola, Catherine Selden and Tam O'Shanter also crossed out.

Boss Bros. will have a dance at the rink to-night after the bicycle riding is over. Cushing Post band will furnish the music.

The sale of city property advertised for delinquent taxes by the chief of police will be continued by E. C. Holdren at two o'clock this afternoon.

The Canby minstrels advertise a fine performance at Liberty Hall next Thursday, the 21st; admission fifty cents, reserved seats, seventy-five cents.

Wm. B. Adair has opened a general agency for the transaction of real estate and money brokerage, insurance, etc. His office will be with Col. Spedden.

The registry law is receiving divers and sundry interpretations. It appears, however, to be the settled opinion that the proper days to register are the 5th, 6th and 7th of next April.

The first fire alarm of '86 in Astoria was sounded at 7:45 last evening, occasioned by the burning out of a chimney at the residence of Capt. J. G. Hustler. It cleared the chimney and gave the boys a little exercise.

This Saturday evening at the skating rink Wm. E. Warren will give an exhibition of fancy bicycle riding. Skating at the usual hour. Cushing Cornet band will play some fine music. Admission, twenty-five cents.

Articles of incorporation were filed on the 15th of January incorporating the Scandinavian Commercial Union, with principal office at Astoria. The incorporators are O. W. Pederson, John Enberg and H. E. Minard.

The residents of Deep river and vicinity will hold a meeting on the 30th inst., at the upper school house for the purpose of taking steps to secure a mail route and post office, for the benefit of Deep river and vicinity.

The Alumina cleared for Queens-town yesterday, with 12,979 bbls. flour, worth \$45,590; the Victoria Bay, with 63,138 bus. wheat, valued at \$51,090, and the Reglan Castle with 60,342 bus. wheat, worth \$36,256.

The air was cold yesterday and a chill breeze blew steadily from the east. It's a little late for a freeze up, that generally comes in during Christmas and New Year's, but we've got to have just so much of this kind of weather and might as well have it now as next month.

From Monday to Thursday of last week 850 persons made application to the superintendent of the labor bureau in Portland for employment of some kind. Of this number 350 were married men, 197 single women, and the remainder, single men. The majority of them were in destitute circumstances.

Specimens of the new registry blanks have been received. There is one blank to be filled out that reads funny. It is headed "Nationality." The natural supposition is that every name on the register is the name of an American citizen, and that he belongs to the American nation. The getters up of the blank probably intended to have a record of "where born," but made it as it appears.

A meeting of liquor men and others interested was held in the building next to the Telephone saloon last evening, to discuss the proposed enforcement of the \$300 retail liquor license law. John Hahn was chosen chairman, Wm. Loeb secretary and Wm. Book treasurer. The purpose of the meeting was stated and after some discussion and the procuring of legal opinion regarding the law, it was decided to draw up an agreement for signatures, and the meeting adjourned to meet again at the call of the chair.

Since the burial of Private Lemhan, of the Fourteenth Infantry, who was killed at Vancouver December 23d, by James Conner, it is rumored that the surgeons at the garrison positively assert that the wound was made by the ball entering the top of the head and coming out just below the left eyebrow, showing that the man was shot by Conner while stooping down, or when Conner was still on the stairs, thus contradicting Conner's statement that he shot Lemhan when they were facing each other on the floor. Conner was discharged by the justice of the peace, but there is now some talk of putting him on trial.

The grand jury last evening found an indictment against Jos. Dows, a colored being erect on two legs and wearing the outward form and semblance of a man, who is charged with attempted rape on the person of a 16-year old daughter of Mrs. Wallman last Tuesday evening. While the usual newspaper rule is to avoid mention or criticism of cases pending trial lest public opinion should be unjustly influenced, it may be said that in this special case it is believed that nothing but prompt arrest and legal procedure against the brute has saved him from summary punishment at the hands of indignant citizens.

CIRCUIT COURT.

Hon. Seneca Smith was on the bench yesterday; the first case was that of Geo. Flavel vs Jno. McCann, wherein judgment was given as stipulated in favor of plaintiff. The second case elicited more interest than any since the term began. It was the case of Alex. Grant, administrator of the estate of P. Grant, deceased, vs W. D. Baker et al. The suit was originally brought in court in January '84, plaintiff suing Messrs. Baker, Wright, Hahn, Taylor and Spexarth, who at the time deceased met his death were members of the city council, for damages, claimed by alleged defective condition of Squemoqua street resulting in his death. At the January '84 term, Judge Ben nett nominated plaintiff, and an appeal being taken to the supreme court that court ordered a new trial, which began yesterday. The following named jurors were impaneled to try the case: C. W. Shively, J. R. Wherry, John Warnstaff, W. B. Painter, A. Johns, R. J. Morrison, S. Kroger, Howell Lewis, John Thomas, Wm. Morey, E. P. Knapp, N. H. Weber. Some of the testimony for the plaintiff was heard yesterday; the trial will continue to-day.

The grand jury brought in four indictments, one of them being against Frank Clark who was arraigned upon the charge of burglary, and another against Jos. Cows, charged with attempt to rape; he will be arraigned this morning.

DECLARATION OF PRINCIPLES

Of the Knights of Labor of America.

The alarming development and aggressiveness of capitalists and corporations, unless checked, will inevitably lead to the pauperization and hopeless degradation of the toiling masses.

It is imperative, if we desire to enjoy the full blessings of life, that a check be placed upon unjust accumulation, and the power for evil of aggregated wealth.

This much desired object can be accomplished only by the united efforts of those who obey the divine injunction, "In the sweat of thy face shalt thou eat bread."

Therefore we have formed the order of Knights of Labor, for the purpose of organizing and directing the power of industrial masses, not as a political party, for it is more—in it are crystallized sentiments and measures for the benefit of the whole people, but it should be borne in mind, when exercising the right of suffrage, that most of the objects herein set forth can only be obtained through legislation, and that it is the duty of all to assist in nominating and supporting with their votes only such candidates as will pledge their support to those measures, regardless of party. But no one shall, however, be compelled to vote with the majority, and calling upon all who believe in securing "the greatest good to the greatest number," to join and assist us we declare to the world that our aims are:

I. To make industrial and moral worth, not wealth, the true standard of individual and national greatness.

II. To secure to the workers the full enjoyment of the wealth they create, sufficient leisure in which to develop their intellectual, moral and social faculties; all of the benefits, recreations and pleasures of association, in a word, to enable them to share in the gains and honors of advancing civilization.

In order to secure these results, we demand at the hands of the state:

III. The establishment of Bureaus of Labor Statistics, that we may arrive at a correct knowledge of the educational, moral and financial condition of the laboring masses.

IV. That the public lands, the heritage of the people, be reserved for actual settlers; not another acre for railroads or speculators, and that all lands now held for speculative purposes be taxed to their full value.

V. The abrogation of all laws that do not bear equally upon capital and labor, and the removal of unjust technicalities, delays and discriminations in the administration of justice.

VI. The adoption of measures providing for the health and safety of those engaged in mining, manufacturing and building industries, and for indemnification to those engaged therein for injuries received through lack of necessary safeguards.

VII. The recognition by incorporation of trades' unions, orders and other associations as may be organized by the working masses to improve their condition and protect their rights.

VIII. The enactment of laws to compel corporations to pay their employees weekly, in lawful money for the labor of the preceding week and giving mechanics and laborers a first lien upon the products of their labor to the extent of their full wages.

IX. The abolition of the contract system on national, state, and municipal works.

X. The enactment of laws providing for arbitration between employers and employed, and to enforce the decision of the arbitrators.

XI. The prohibition by law of the employment of children under 15 years of age in workshops, mines and factories.

XII. To prohibit the hiring out of convict labor.

XIII. That a graduated income tax be levied.

And we demand at the hands of congress:

XIV. The establishment of a national monetary system, in which a circulating medium in necessary quantity shall issue direct to the people without the intervention of banks, that all the national issue shall be full legal tender in payment of all debts, public and private; and that the government shall not guarantee or recognize any private banks, or create any banking corporations.

XV. That interest-bearing bonds, bills of credit or notes shall never be issued by the government, but that when need arises, the emergency shall be met by issue of legal tender, non-interest bearing money.

XVI. That the importation of foreign labor under contract be prohibited.

XVII. That in connection with the post office, the government shall organize financial exchanges, safe deposits and facilities for deposits for the savings of the people in small sums.

XVIII. That the government shall obtain possession, by purchase, under the right of eminent domain, of all telegraphs, telephones and railroads, and that hereafter no charter or license be issued to any corporation for the construction or operation of any means of transporting intelligence, passengers or freight.

And while making the foregoing demands upon the state and national government, we will endeavor to associate our own labors.

XIX. To establish co-operative institutions such as will tend to supersede the wage system, by the introduction of a co-operative industrial system.

XX. To secure for both sexes, equal pay for equal work.

XXI. To shorten the hours for labor by a general refusal to work for more than eight hours.

XXII. To persuade employers to agree to arbitrate all differences which may arise between them and their employees, in order that the bonds of sympathy between them may be strengthened and that strikes may be rendered unnecessary.

No person who either sells or makes his living, or any part of it, by the

sale of intoxicating drink, either as manufacturer, dealer or agent, or through any member of his family, can be admitted to membership in this Order, and no lawyer, banker, professional gambler or stock broker can be admitted.

It is one of the fundamental laws of the Order to exclude forever from the Order any person who derives an income from labor without rendering an equivalent, or who is engaged in any business that degrades the morals; all monopolists, whether land, transportation, currency or any other, and all who make oppressive laws in the interest of capital.

It is the duty of every member of the Order of the Knights of Labor, to assist in every honorable way, by voice and pen, by petition and vote every honest effort looking towards the amelioration of the condition of the wage slave, and the abolishment of the hours of labor; by opposition to child labor; by co-operation; by demanding the repeal of unjust laws; by demanding the abolishment of the convict contract system; by opposition to land, transportation, and currency monopoly; by opposition to all laws or systems of government that deprive labor of that just proportion of the profit of the thing produced that labor bears to the cost of production.

The rapid concentration of the wealth of the country into the hands of the few controlling legislation, and sapping the very foundation of free government, should direct special effort against every species of monopoly, especially that parent of all monopolies at which the last clause of the preamble is aimed, the national banking system under which the control of the volume of currency is in the hands of private corporations instead of with the people, where it belongs, agitation, education and organization are all necessary.

Among the natural rights that should be taught in every local Assembly of the Knights of Labor are man's inalienable inheritance to his share, for use of the soil; that the right to his life carries with it the right to the means of living, and that all statutes that obstruct or deny these rights, are wrong, unjust, and must give way. Every member who has the right to vote is a part of the government in the United States, and has a duty to perform, and the proper education necessary to intelligently exercise this right, free from corrupting influences, is another of the higher duties of a L. A. In short, any action that will advance the cause of humanity, lighten the burden of toil, or elevate the moral and social condition of mankind, whether incorporated in the constitution, or not, is the proper scope and field of operation of a local assembly.
