A Three-Armed Man.

As the Garrison train stopped at Stuart, a most singular-looking man was seen descending the steps of the smoking-car, upon the side facing the little town. The man was apparently about thirty-five years of age, stood five feet ten inches in height, was powerfully built, and would probably weigh somewhere near 180 pounds. He had on a well-worn drab-colored business suit, heavy shoes, a light-colored slouch hat, and sported a full beard of a reddish cast.

Deep-set dark blue eyes, a prominent nose and chin, square jaws, and a head covered with closely cropped brown hair, surmounted unusually broad shoulders, flanked by a pair of as muscular arms as one could find in a crowd of a thousand men. But the most singular thing about the man is the appearance of a third arm, which, starting out from between the lower points of the shoulder-blades, extends outward at least three feet from the body. The arm is of extraordinary size and strength, has an easy working elbow, and ends with a hand of unusual proportions, provided with a thumb and four fingers. When not in use it is carried over the right shoulder, the hand resting over the pit of the stomach.

Jumping from the lower step to the ground with the ease and grace of a well-trained athlete, the singular-looking stranger went to the baggage-car, from whence the baggagemaster first shoved out a huge trunk, weighing at least 150 pounds, then a well-filled valise, and lastly, a huge roll of blankets and furs. Taking the trunk by the back hand, the valise in the right, and the blankets in the left hand, this freak of nature made his way to the nearest saloon across the street. Of course, he was the observed of all observers, and many were the remarks and speculations indulged in concerning his singular physical structure.

The stranger said his name was Orloff Kamanski, and that he was born of poor but respectable parents, on the banks of the Yukon River, in Alaska, 1,500 miles above its mouth. He received a common school education in his native village. When he arrived at man's estate, he had a desire to see more of the world.

While he was talking, Mr. Kamanski rested his natural hands upon either knee, and with his back arm over his shoulder, fanned his face vigorously. Our informant, noticing the ease with which he handled the odd member, ventured to inquire if it discommoded him in any way.

"Oh, no," said the gentleman. "On the contrary, I find it is a great convenience. In the first place, it is the strongest limb I have. When I am eating I use a fan in my extra hand and keep the flies from my food. I can carry two buckets of water and at the same time mop the sweat from my brow, or blow my nose. I can drive six horses and at the same time hang on the seat behind. I use that arm and hand in a thousand different ways, sir."

"Are three-armed men common ni your country?" inquired the listener.

"They are not uncommon, sir," replied Kamanski. "I know a great many on the upper Yukon, with three arms, among them several females. The extra hand comes in good play with the ladies, especially in combing and dressing their back hair, and in buttoning their dresses and other things. A lady with three arms is very much sought after by the Yukon beaux, and they can generally have their pick among the wealthiest dudes of the land. That extra arm and hand are very handy about a house.

"A lady possessing them can cook a meal of victuals and set the table at the same time. She can sweep the floor and carry the baby, too, without inconvenience. But beware how you offend one of them. That back hand then becomes a terrible weapon of destruction. I once saw three boot-jacks, a poker, and a broom thrown at a man at once. I wouldn't part with my third arm, but I would never marry a woman with one."—[Butte (M. T.) Inter-Mountain.

Cure For Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some effection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, Bleeding and Itching Piles yield at once to the application of Dr. Bosanko's Pile remedy, which acts directly upon the parts affected, absorbing the Tumors, allaying the intense itching, and effecting a permanent cure.
