SIMMONS' GREAT UNFAILING SPECIFIC FOR LIVER REGULATOR DISEASE

REGULATOR DISEASE

SYMPTOMS: Bitter or bad taste in mouth; tongue coated white or covered with a brown fur; pain in the back, side, or stomach; loss of appetite; sometimes nausea and acid eructations; bowels alternately constipated and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick, yellow appearance of the skin and eyes; and high-colored, and, if allowed to stand, deposits a dry scum.

Water containing living fish and living vegetation is generally in a fit state for animals to drink.

If for butter select cows known to give milk rich in fat. Cows vary in this respect from less than two to five per cent. The average is about three per cent.

If you are troubled with white specks in butter stir the cream every morning before it is churned and the specks will not appear. So a good butter-maker says.

Eggs contain a large quantity of water in their composition and hence the hens should be provided with a liberal supply of water, which is just as necessary to egg production as the food, and often more so.

When calves are to be weaned and fed with skim milk the change should be gradual or else scours may be the result. Corn meal should gradually be added to the skimmed milk.

A hill of raspberry plants, after being trimmed in the spring, should have only three or four canes, about three and one-half feet high and nearly one inch in diameter at the base, each cane having a few side spurs about ten inches long.

In salting butter one ounce to the pound is the quantity generally used. Butter should be exposed as little as possible to the air from the time it is churned until packed tightly in tubs, fit for market. Care should be taken never to overwork butter, as the grain and texture should be preserved.

A farmer's wife in Indiana, who runs the vegetable garden on half an acre, not only kept a large table bountifully supplied, but sold last year more than \$100 worth of vegetables to the town folks a few miles away. This half acre was of more profit than any four acres which the husband cultivated. — [Manchester Union.]

The common foible of women who have been handsome, is to forget they are no longer so.

Another old landmark gone! Susan B. Anthony has gone to Europe. — [Yonkers Statesman.]

Cure For Piles. Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs.

At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, bleeding and Itching Piles yield at once to the application of Dr. Bosanko's Pile remedy, which acts directly upon the parts affected, absorbing the Tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address The Dr. Bosanko Medicine Co., Piqua, O. Sold by J. W. Conn.

The united ages of ex-Governor English, of Connecticut, and his new bride are over 104 years, and their united fortune is \$8,075,000. Of these the groom furnishes 74 years and \$8,000,000. He did not marry for money.

A Mystery. How the human system ever recovers from the bad effects of the nauseous medicines often literally poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The mischief done by bad medicine is scarcely less than that caused by disease. If, in any case, the patient is debilitated, constipated or rheumatic, would often be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest aid derivable from rational medication. This medicine is a searching and the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in their less bitter and less stimulating counterparts. It is often resorted to by the debilitated, dyspeptic and languid.

Counsel: "Your age?" Young lady (bashfully): "Oh I hardly like to tell you." Counsel: "Yet I must insist on knowing it. Pray tell me how old you were ten years ago?" Young lady (cheerfully): "Oh, 23!"

Cheer Up! Help is at Hand. "I'm afraid I shall have to be taken to a hospital or to the poor house. I've been sick so long that my husband, good and patient as he is, can't stand the worry and expense much longer." No, you won't dear wife and mother. See what Parker's Tonic will do for you. Plenty of women as badly off as you are, have been rescued almost from the grave by it. It will build you up, bring all ailments of the stomach, liver and kidneys, and is simple, pleasant and safe.

YOUNG MEN—READ THIS. THE VOLTAIC BELT CO., of Marshall, Mich., offer to send their celebrated ELECTRO-VOLTAIC BELT and other ELECTRIC APPLIANCES on trial for thirty days, to men (young or old) afflicted with nervous debility, loss of vitality and manhood, and all kindred troubles. Also for rheumatism, neuralgia, paralysis, and many other diseases. Complete restoration to health, vigor and manhood guaranteed. No risk is incurred as thirty days trial is allowed. Write them at once for illustrated pamphlet free.

W. E. DEMENT & CO. DRUGGISTS. ASTORIA, OREGON.

Carry in Stock, DRUGS, CHEMICALS, TOILET and FANCY ARTICLES. Prescriptions carefully Compounded.

Annual Meeting. THE ANNUAL MEETING OF THE P. L. & B. Association will be held in Liberty Hall at Astoria the evening of Saturday the 12th Feb'y., 1886, at 7 o'clock.

WM. L. McEWAN, Sec.

Some Pointed Suggestions.

It pays to keep one man in constant attendance on thirty head of fattening cattle.

It pays to feed meat to the hens two or three times a week, as it takes the place of insect food.

Good corn fodder is an excellent feed. It is loosening, cooling, and relieves constipation.

Water containing living fish and living vegetation is generally in a fit state for animals to drink.

If for butter select cows known to give milk rich in fat. Cows vary in this respect from less than two to five per cent. The average is about three per cent.

If you are troubled with white specks in butter stir the cream every morning before it is churned and the specks will not appear. So a good butter-maker says.
