

The Daily Astorian.

ASTORIA, OREGON: THURSDAY, FEBRUARY 11, 1886

Skating at the rink this evening. The Idaho sailed for Alaska yesterday afternoon.

Human nature seems to be a good deal alike, whether in Seattle or London.

There will be a social party at the residence of A. Knapp, at Knappa, next Friday evening.

The ladies of the Presbyterian church will have a social at the residence of Mrs. Badollet to-morrow evening. A general invitation is extended.

An anti-Chinese congress will be held in Portland next Saturday. Messrs. Stockton, Cleveland and Ross will represent the local assembly Knights of Labor of this city.

On Tuesday the senate passed a bill appropriating \$350,000 for new public buildings at Portland. Wonder if the Villard hotel foundation will figure in subsequent transactions.

President Cleveland issued a proclamation Tuesday night admonishing the rioters at Seattle or other points within Washington territory to disperse by six o'clock the following afternoon.

A committee of ladies have volunteered to provide, some evening next week, an entertainment or social to aid the members of the Y. M. C. A. to liquidate the expense incurred in fitting up the gymnasium.

The sudden death of Gen. Hancock makes a vacancy on the army register in an unexpected way. Gen. O. O. Howard comes next in line of promotion, and then Gen. Terry, though the president in his appointments is not restricted to seniority.

Two boys and a man named Wilson were before Justice Goodell yesterday on a charge of being concerned in the larceny of a watch from Christian's blacksmith shop last Tuesday. Mack Twombly recovered the watch that evening. Wilson will appear for preliminary examination at three o'clock this afternoon.

The San Francisco papers have learned that from 75,000 to 100,000 cases of salmon (fishes) have been placed at \$1.12 1/2 for favorite brands, to \$1 1/2 dozen for good standard fish. Among the packs mentioned as sold are Jno. A. Devlin's, the Fisherman's, Ocean Canning Company, a portion of Pillar Rock and others.

The apparatus formerly used in the Astoria gymnasium has been purchased by the Astoria Y. M. C. A., and is now in position at the new hall of the association. On Saturday evening next the gymnasium will be in complete running order, and any one desirous of availing himself of its privileges will find the rooms open at that evening and the secretary ready to enroll his name as a member. The fee for membership is one dollar a quarter.

Within a short time, says the San Francisco Chronicle, 4,000 additional troops will be quartered at the Presidio. This is in accordance with orders issued by the secretary of war for the concentration of the main body of troops in the division of the Pacific at that point. The order will bring troops here which are now scattered about in small posts in Idaho, Washington territory, Nevada, Oregon and in this state. The department has decided that economy will be subserved in concentrating a large number of troops here rather than in maintaining a great number of small and scattered posts.

The next attraction will be Prof. Wm. Cary, the great skater, who will appear at Ross' opera house in his skating specialties next Saturday evening. The occasion is in the nature of a benefit to the Cushing Post Band and for that reason, apart from the fine performance, merits the generous patronage of all who appreciate what the band has done, and their efforts in the way of organization and culture. Willie Warren will assist during the evening. The performance will close with a social dance. The band will be there in force, and a pleasant evening may be assured all who attend. No more than the usual price of admission to the rink and for the use of skates will be charged.

Capt. A. D. Wass returned from Oakland on the last steamer.

C. H. Eberle, representing McKenney's business directory and gazetteer, is in the city.

L. L. McArthur was nominated for U. S. district attorney for Oregon by the president on the 9th inst.

Capt. J. H. D. Gray has moved his business office to his new building at the foot of Benton street.

F. D. Winton returned from Salem yesterday afternoon where he had been arguing a case before the supreme court.

Dr. O. B. Estes left on the Idaho yesterday for Port Townsend as medical attendant on a young lady passenger, sister of the young man who died as the vessel reached here last Tuesday. He will return on Sunday.

Chinese Fear Trouble in Portland. Continued Row in London—Minor Items of Interest.

PORTLAND, Feb. 10.—Prominent Chinese residents of this city have telegraphed to the Chinese minister at Washington and also to Consul Bee at San Francisco, that they fear a riot here, and ask for protection.

It is stated here to-day that the Chinamen at Albion and East Portland are preparing to depart.

Up to the latest advices all was quiet at Seattle.

WASHINGTON NOTES. WASHINGTON, D. C., Feb. 10.—Senator Dolph thinks that the bill providing for the admission of Washington territory as a state will pass notwithstanding the Seattle affair.

According to Sparks, commissioner of the general land office, in the apportionment for surveys Oregon gets \$12,000; Washington territory, \$23,000. The latter will not be allowed unless a new territorial surveyor general is appointed.

TO BE BURIED AT NORRISTOWN. NEW YORK, Feb. 10.—It is positively stated that Gen. Hancock will be buried at Norristown, Penn., the home of his childhood. The funeral will probably be on Friday.

The Hempstead club stables burned at Hunter's Point this morning. Twenty-four valuable horses were burned, the loss in horseflesh alone being over \$30,000.

CHINESE SMALL POX. SAN FRANCISCO, February 10.—The steamer Belgic arrived from Hong Kong to-day with a case of small pox on board. The steamer has been quarantined.

FATAL FIRE. JAMESTOWN, N. Y., Feb. 10.—The residence of Mr. Heyner was destroyed by fire last night, and he and his wife were burned to death. They were each aged about sixty years.

IN THE SOUTH TOO. ATLANTA, Ga., Feb. 10.—A riot is reported in Clayton county, in which three men, two of whom were brothers, are reported killed.

OLYMPIANS ON DECK. OLYMPIA, W. T., Feb. 10.—One hundred and twenty citizens were sworn in as a home guard to-day. The prisoners Hertz, Bayles and Goodman were examined before Justice Keady and held in bail in the sum of \$2,000 each to appear at the next term of court.

LONDON MOB SMASHING THINGS. LONDON, Feb. 10.—An immense mob formed at Dept. Ford this morning, and came marching toward the city smashing in the house fronts on their line of march. They were believed to be en route to Trafalgar square to repeat their previous performances and police were placed on the bridges to prevent the mob from reaching their destination. Many of the small shops have already been sacked. The immense establishment of Tarn & Co., although guarded by police was overrun, sacked and badly wrecked. All the shops are being closed and barricaded.

It is announced that a mammoth labor congress will meet at Hyde Park on Saturday.

Shut Down. Owing to the extremely low price of coal in San Francisco, and the differences between the coal miners and the mine owners, which apparently cannot be adjusted, orders were received by Mr. Milner yesterday to shut the Newcastle and Coal Creek mines down indefinitely. This is a very unpleasant piece of news to be expected by those who have kept posted as to the condition of affairs at Newcastle. The closing down of these mines will throw hundreds of men out of employment in the county, and tend to make things harder and more scarce.—Seattle Post-Intelligencer, 7.

Relieve your Mothers, Wives and Sisters by a timely purchase of Dr. Bosanko's Cough and Lung Syrup, best known remedy for Coughs, Colds, Croup and Bronchial affections. IN SEATTLE.

SEATTLE, Feb. 9.—Another day of gloom and anxiety has ended with no material change in the situation. Although the gravest apprehension has been felt throughout the day, no collision has taken place. The militia still hold the city and strict martial law is enforced. The streets have been thronged all day, the city being filled with strangers.

A feeling of the most intense bitterness prevails on all sides, and the situation could not well be more grave. The governor's first call on the president for troops was made Sunday, and it was expected that the answer would be prompt. It was understood that troops from Vancouver would arrive this morning, but it now transpires they have not yet received orders, and have not left Vancouver. The militia have been on duty continuously since Sunday morning, and are utterly worn out. No words can express the anxiety of the citizens for the presence of federal troops. Appeal after appeal has been sent to the president, and many senators and other prominent men have been telegraphed to urge him to take action.

The Chinese question does not now seem to figure, but has been lost sight of in the bitterness engendered by yesterday's conflict. While there is no doubt that the Home Guards are not to be fired on, and that they acted in self defense, the bitterest imprecations are heard against them.

The authorities are determined, and ready for any emergency. The citizens are generally responding to the call for volunteers, and many have been enrolled. The cadet corps of the territorial university were sworn into the service of the territory this evening, and are now quartered with the militia.

This afternoon the authorities took charge of all fire-arms and ammunition to be found in stores in the city, and removed them to the court house. This was done to preclude any attempt being made to seize them.

Charles Stewart, one of the men injured in yesterday's conflict, died to-day. His death had the effect of increasing the bitter feeling. There is talk of making his funeral the occasion of a grand demonstration.

QUEER SIGNS. The following are a few of the signs painted on the walls of a Portland restaurant: The mightiest of sea monsters is a Russian ram being built at a cost of \$25,000, but steak and coffee is only 15 cents.

A Long Island constable went to attach a skating rink, but finding the proprietor absent, he put on a pair of rollers to while away the time and succeeded in breaking his leg, but hard-boiled eggs 10 cents.

The total number of troops furnished by all the states for the Union army during the late war was 2,859,132, but ham and eggs with coffee, reduced to 25 cents.

Jay Gould is now the richest man in America. He is estimated at \$125,000,000, and is only 49 years old. Pork and beans 10 cents.

It is easier to see small faults than large virtues. Buttered toast 5 cents. The chains of habit are too small to be felt until they are too strong to be broken. Try fresh salmon 10 cents.

A tree at Tampa, Fla., yielded 11,648 oranges, which is said to be the largest number ever known to be taken from one tree. Take fresh Columbia smelt at 10 cents.

CAUTION COUNSELED.

The first movement of the anti-Chinese agitators, having the semblance of resistance to the legal authorities, was met by a prompt discharge of fire-arms and the killing and wounding of several men. In London on the same day a mob of fifty thousand strong raged through the streets for twelve hours without a single life paying the penalty of their excesses.

The police and constabulary of the entire city were in service resisting and arresting the rioters, but under no provocation on either side was life taken. At Seattle the first offensive movement on the part of a few of the people gathered to witness the escort of the Chinese from the ship to their quarters by the Home Guards, seems to have been accepted as provocation enough to warrant indiscriminate shooting into the crowd. Ordinarily, under such circumstances, some warning is regarded essential before resorting to the shedding of blood. This warning is usually given by first discharging blank cartridges and then reloading the guns with ball in the presence of the mob. No warning, whatever, seems to have been given at Seattle.

The Home Guards acted as if they had been specially organized to shoot down anti-Chinese agitators at the first opportunity to do so, and keep within the pale of the law. There is no evidence so far as the reports indicate that any of the Home Guards were in danger of serious bodily harm. The only charitable construction to be placed on their hasty action is that they became nervous and unduly excited, and failed to exercise the coolness absolutely essential under such circumstances to avoid doing harm and intensifying rather than allaying popular disorder. This at least is the view that many dispassionate people will take of the transaction in the light of the reports sent by telegraph.

But this is only an additional reason why the workingmen, and members of the anti-oolie law and order associations, should exercise the greatest caution and self-restraint.

They have legal and peaceful remedies within their reach that will prove more effective than bullets or bayonets. The anti-Chinese movement is in one sense a social movement. It is for the protection of American labor and American homes from a foreign invasion more destructive to their peace and prosperity than if the foe came with arms in their hands intent on war. The workingmen may make it a social question in every sense. Through their organizations they may compel every portion of the community to choose between American and Chinese laborers—between American homes and Chinese lodging houses—between Caucasian enlightenment and Asiatic civilization of the most debased and servile character. To accomplish this result, they have only to advance in the line they have already selected.

They have, so far, the right of choice in this country, but upon the manner in which they exercise the right will depend its duration. They can say, without being shot down, that they will have nothing whatever to do with those who take sides against them in favor of the Chinese, socially or financially. This is a simple formula, but a strictly legal one, and if generally adopted and enforced, will prove more powerful than spasmodic uprisings, ending in greater disorder if not disaster.—Yesterday's News.
