A PROHIBITION ADDRESS.

Rev. J. W. Webb, pastor of the Christian church of Portland, delivered an address at the M. E. church last evening that was listened to with attention by a large audience. The exercises began with some music by the choir after which Jno. P. Dickin-son introduced the lecturer.

The selection of his successor must be made from four officers, of which He entered at once into his subject by asking, "What are you going to do about it?" By "it" he meant the liquor traffic. He held that the only effectual means of combatting it was by and through total abstin the part of the individual and prohibition on the part of the state and nation: that for this purpose organization was of prime importance and appealed to his hearers to aid in the work by resuscitating the Lodge of Good Templars and manifesting an active interest in the work. He held that high license or license of any kind but dallied with the matter, that nothing but entire prohibition would reach the root of the matter, and in tones of eloquence cited to the memories of his hearers numerous instances of the destroying

EDITOR EVENING POST: In a very interesting article by General Pope, entitled "The Second Battle of Bull Run," published in the January number of the *Century*, he The meeting was called to order by object of the meeting. The minutes of the last annual meeting were read says that he never published an order, or wrote a letter, or made a re-

mark that his "headquarters would be in the saddle;" that "it is a fanciful story, on which a good deal of cheap wit has been expended—a ven-erable joke, which he first heard when a cadet at West Point, and it was then told of that gallant soldier and gentleman, General W. J. Worth."

This expression, which was made the subject of so much ridicule during Pope's campaign in Virginia, and, as he thus strongly asserts, without foundation, was in old army circles on the Pacific coast, known to have been used by General Wool when he was commanding the military departments of California and Oregon, some years before the ontbreak of the civil

war. The writer of this communication can personally youch for the correctness of the assertion, as he was an officer of volunteers and on the staff of Governor Stevens, of Washington territory, and saw the official document in which the expression was used. As governor he was ex-officio superintendent of Indian affairs of his territory, and he particularly desired to stop the forages of the Blackfeet in the Bitter Root valley, which was then a portion at 3.30 to the minute. It was not be-lieved that Mr. Stephens would die of Washington territory. He hast-ened back from the treaty ground as soon as he heard of the Indian war; but found on arrival at Olympia that there was general dissatisfaction before the paper was put on the press among the people against placing the volunteer force that it was deemed necessary to raise-the few companies at the army posts being insufficient to meet the emergency-under the "A force of proof-readers sat with the proof before them, every contingent command of General Wool; they re-
