

The Daily Astorian.

ASTORIA, OREGON:

WEDNESDAY MARCH 10, 1889

Taxes are not coming in very fast at the sheriff's office. They will be delinquent on the 1st of next month.

Geo. W. Wood has some Wyan-dotte and Brown Leghorn hen's eggs for sale; both kinds being among the best breeds of poultry.

The Tom Morris went to West-port yesterday; the Gleamer went to Portland; the Improvement is run-ning up Lewis and Clarke's.

All kinds of freight without dis-crimination as to class is now being carried from San Francisco to Chic-go for 37 1/2 cents per 100 lbs.

Lent begins to-day, this date being forty-six days prior to the first full moon after the vernal equinox, that being the date fixed upon for Ash Wednesday by the Council of Trent.

A meeting of the school directors of district No. One was held yester-day, at which nothing was done. The matter has been referred to State Su-perintendent McElroy for his advice and opinion.

Talking about funny things, how is it that for a trade dollar with 420 grains of silver in it you can only get 85 cents, while for an ordinary silver dollar with 412 1/2 grains of silver in it you can get 100 cents?

Lenten services in Grace church will be held every week day except Saturday on Mondays, Tuesdays, Wednesdays and Thursdays at 4 p. m.; on Fridays at 10 a. m. To-day the service will be at 10 a. m.

The funeral of the late David Kel-man will take place at noon to-day, at which time the Clara Parker will leave Main street wharf for Clatsop cemetery. The funeral will be under the direction of Astor Lodge No. 6, K. of P.

Prohibitionists claim that they will poll 3,000 votes for their ticket next June. They will hold a state con-vention at Salem on the 31st in which 140 delegates will be entitled to seats. They will nominate a full state ticket. Prominent Democrats in Roseburg are said to be backing the movement.

Registration books and receipts are being sent to the various precincts. Four years ago in one precinct of this county there were five voters—just enough to fill the required offices and make the polling legal. The election in that precinct that year cost \$55—\$11 a vote. There are a few more in that precinct now.

Jno. McCann is busy with a force of men on the A. B. Field, inside of the Main street wharf. The vessel is being built up about three feet, and having a new deck put in, which im-provement will add much to the car-rying capacity of the vessel. It is the intention of the owners to put her on the Tillamook route about the 1st of next month.

Major Blakeney returned yester-day from Ft. Canby where he has been making official inquiry regard-ing the loss of the Carrie B. Lake on the beach last January. The facts elicited confirm the theory already advanced as the cause of the disaster. The testimony will be forwarded to Supt. Kimball. Major Blakeney will return to San Francisco on Thurs-day's steamer.

While in Portland last Monday Mayor Trullinger bought a 30-horse power engine and boiler to use in furnishing the motive power for the electric light dynamo. It will be down to-morrow. He will at once put up a new building 25x50, west of his business office in which the entire plant will be placed, and will put the electric light dynamo, engine, boiler and all necessary appurtenances therein by April 1st. The light is in every respect satisfactory and with the new machinery it is confidently expected will be adequate in every respect.

The business has grown so bold that the police could no longer refrain from arresting her. It has caused a great sensation in high circles. Many prominent names it is claimed can be identified with the business. Very strong evidence exists against the woman.

A FAMOUS LAND CASE SETTLED.

The contest of G. S. Fields against Henry Black, which involves 160 acres of improved land in Wheelston Hollow, Columbia county, has been brought before the U. S. land office, here and in Washington, for about four years, and is at last settled. The local land office decided for Fields; the commissioner decided for Black; the secretary of the interior, the judge of last resort, now overrules the commissioner, and decides for Fields. The land is well improved and said to be worth about \$4,000. Fields is the jumper. During the pendency of the contest, Fields has twice had Black indicted by grand juries for alleged perjury in testi-mony given in this contest and twice have juries acquitted him of the charge.

The ground given by the secretary for his decision against Black is failure of residence. He says: "Black fails to show good faith in his residence. The register and receiver as-erted this and your office admitted it. His own testimony is that he was there 'off and on.' His pretended residence on his homestead was a mere pretext."

During the recent trial of Black for perjury, Fields was notified by so-called vigilantes that he must leave the country or suffer the conse-quences. Last week Fields met the man who served this notice, and pounded him. Fields was, in conse-quence, arrested and fined \$50. He was poor and his friends clubbed to-gether and paid the fine.—Golden-dale Tribune.

A Mineral Cabinet.

A mineral cabinet has been built in the St. Charles hotel, to the left of the main entrance, by Mr. C. W. Knowles, the proprietor. The min-ing men who are constantly the guests of this popular hostelry will fill the cabinet with specimens from Pine Creek, Coeur d'Alene, Kootenai, Colville, southern Oregon, and in fact from all the mines in the north-west. The cabinet is the only one kept in a hotel on the Pacific coast, outside of Butte, Montana. Mr. Knowles' object is to have it for the inspection of mining men who come here to invest, and give them an insight into the wealth of the different mineral regions in the northwest.—Portland News, 6.

The petitions of C. Francisovitch, John Erickson and L. Krapp for li-quor licenses, were, on motion, grant-ed. The petition of Geo. Gorlier for a liquor license was laid over till the next meeting to inquire into the statement that his saloon had been running without a license since his license expired last November.

Dr. Page, health officer, stated that he had examined into the report re-garding the existence of trichina and found that it did exist; that the prop-ortion was about one hog in 50, and that the credit of the discovery was due to Dr. A. C. Kinney, and that some precaution should be taken to pre-vent the spread of the disease.

Dr. Kinney being called for stated that thorough cooking would render the trichina innocuous. He diagnosed the rise and progress of the disease and gave a lucid account of the na-ture of the matter. As a preventative he suggested the avoidance of eating any pork not thoroughly cooked.

A vote of thanks was tendered Dr. Kinney and further discussion of the matter was postponed.

The following petition was read: To the common council: Your peti-tioner, Geo. W. Hume, holder of bond No. 201, for \$5,000 desires to have your honorable body make such provisions that the officers of the city will feel at liberty to honor the cou-pons as they become due and shall be presented, and that the treasurer pay them.

The following are extracts from the rules and instructions by which judges and clerks of elections are to be governed, taken from the precinct register books. In case of the sick-ness or absence from the precinct or polling place of any qualified elector, during the time the said judges are sitting to register voters, such elector may apply to the chairman of the said board of judges and on making satisfactory proof that the said ap-plicant was sick or necessarily absent from the said precinct during the time the said board was sitting to register voters, the chairman of said judges may register in his pos-session, and issue to him the certifi-cate provided for; and said chairman shall immediately notify the county clerk of the said registration, giving him a copy of the same, and the clerk shall enter the same in the county register. If said applicant shall be disqualified, the application shall be rejected and his name entered on the list of rejected applicants.

The registration of voters com-mences on the first Monday in April and continues for three days.

In all incorporated cities and towns in this state, no person shall approach or stand within one hundred feet of the polls, when opened for receiving votes, except the elector desiring to vote, and but one elector shall be per-mitted to approach the polls within one hundred feet, at the same time.

The Messrs. Gilchrist have a fine lot of logs at their mill, says the Olympia Partisan, and are cutting a lot of lumber, three or four car loads per week, which are shipped from their mill south. On Friday of last week the United States marshal of Idaho seized all the cut timber in Beaver canyon, Ida-ho. There are six or more sawmills in that locality and the amount of lumber is probably 10,000,000 feet or over. The cause of the seizure is, that the timber was cut from govern-ment lands without paying stump-age, and was being shipped out of the territory for a market—to Mont-ana, Utah and Wyoming. This is construed to be a violation of the laws governing the public use of tim-ber on public lands.

"It is surprising," said a Wisconsin man, "what poor sticks will get into camps nowadays and pass themselves off as foremen. There is one up on a tributary of the Black, who conclud-ed to have two sets of meals, so the teamsters and skidway men break-fast at 4 o'clock, and the skidders at 5; the teamsters dine at 10, and the skidders at 11. The teamsters get into camp at 4 in the afternoon, and the exertion of waiting until 6 is so great that they have supper at 5. A foreman with any sense would either get his men out at 5 in the morning, if he is going to work twelve hours, or would have an extra trip tacked on. This same foreman complains that the teamsters wake him up when they get out to feed in the morning."—Northwestern Lumberman.
