

GREAT RIOT IN BELGIUM.

Another Railroad Strike at Kansas City. ANOTHER STRIKE. KANSAS CITY, Mar. 22.—This morning the general blowing of whistles announced the inauguration of another strike; that of having every union switchman in the city quit work. All freight business stopped. The Chicago & Alton officials made up a train by the help of non-union men, but the strikers boarded and stopped it before it got out of the city. A mass meeting will be held at noon. The switchmen made a general demand for an advance of wages a week ago, but it was refused. This is believed to be the cause.

IN BELGIUM TOO. LONDON, Mar. 22.—On Saturday there were anarchist riots in several places in Belgium. At Liege there was an open rupture between a thousand troops, which were massed for that purpose, and the anarchists, who were preparing to loot the town. The fight was severe. The troops finally charged with fixed bayonets which repulsed the mob. Six thousand regular troops are now on duty in the disturbed districts.

WASHINGTON, Mar. 22.—The supreme court rendered a decision in the Mackin-Gallagher case to-day, which says the crimes charged are infamous. In the meaning of the constitution defendants can only be held for trial by the indictment of the grand jury. This sends the case back to the lower court to be proceeded with by a grand jury indictment instead of by information. It will not affect the five years sentence of Mackin, which he is now serving for perjury.

CALL FOR BONDS. The secretary of the treasury today issued a call for ten million 3 per cent. bonds, loan of 1882.

EXORCISM EXODUS. WABSAW, Mar. 22.—The exodus of the Jews from Russia has reached extraordinary figures. During 1885 twenty thousand left for America alone.

What Do You Think of It, Anyhow.

A Malay gentleman regards the use of a fork at the table as dirty and disagreeable. You don't know into how many mouths it has been inserted. It may have been washed and scoured, but you don't know but some lazy servant has neglected his work. On the other hand, he says, "I know that my fingers are clean, because I wash them myself; and I am sure they have never been in any body's mouth but my own." We smile at the Malay's way of eating, but has he not a pretty fair chance to smile back?

They Don't Live—Only Exist.

The latest vital statistics compiled by the British register-general show that of all people clergymen are the longest lived. Next come farmers, stock raisers, school teachers and grocers, in the order named. Physicians are lumped with brewers, bankers, plumbers and painters, and die young. As for journalists, they don't figure at all, for the reason, we suppose, that they don't live—they exist.

How They Talk of Each Other.

The Tacoma News calls wildly upon the gun club to turn out and kill a huge cougar which is terrorizing the suburbs of the city. We can not blame the cougar. It is so quiet about the city that any ordinary cougar would mistake the place for the forest primeval.—Seattle Chronicle, 20.

COUNTY SCHOOL MATTERS.

From statistics gathered by County School Superintendent M. D. Wilson, it is learned that there are twenty-two school districts in the county, twenty-one of which have reported for the year ending March 1st, 1886. In the county there are 1,983 of school age—1,195 boys, 788 girls; of these 971 have attended school during the year, the average daily attendance being 704.

The fact that of 1,983 but 704 attend school is a noticeable feature. There are 32 teachers employed in the county, five men and twenty-seven women. Of these 30 hold first grade certificates. During the year schools have held an average session of five and three-sevenths months throughout the county. There are twenty school houses in the county, the estimated value of which is \$59,745; of this amount Astoria represents \$52,000. The estimated value of school furniture is \$2,790; of apparatus, \$460. The average amount paid men teachers is \$44 a month; women teachers, \$40.94.

There are only eight schools in the county furnished with an unbridged dictionary. The receipts during the year from all sources were \$17,514.77, which includes a balance of \$1,665.86 on hand on March 1st, 1885; the amount paid out during the year has been \$15,797.91, of which amount \$10,357.03 was paid out for teachers salaries.

A LUMBER MARKET.

By a recent order of the interior department, saw mills in Alaska are not permitted to cut logs and manufacture the same into lumber, except for the personal use of the proprietors of said mills. The order is based on the fact that there are no land laws in that territory, and no person can acquire ownership to real property. The only persons who have title to real estate are a few Russians who owned land in Sitka at the time of the transfer of the territory to the United States. Of course the transfer did not deprive them of the title to their land.

The effect of the order has been to close the five saw mills in Alaska. The largest was located at Wrangell and had a cutting capacity of about 20,000 feet a day; another was near Sitka, with a capacity of 8,000 a day. The five mills had a total capacity of about 50,000 feet a day when in full operation. There is at present considerable demand for lumber in Alaska, particularly at Juneau City, where a cargo of 500,000 feet would be snapped up in double-quick time at from \$25 to \$30 per thousand. There is a considerable influx of prospectors and miners into the country, which will cause an increased demand for lumber. The shipment of lumber there, at least for a time, would be exceedingly profitable. The sailing vessel, on her return trip, could put in at Glacier Bay and load with magnificent ice cut from one of the natural wonders of the earth—a great glacier breaking off by small degrees and falling into the sea. This ice could be cheaply cut and sold at handsome rates in the markets of Victoria, Seattle and Portland, where natural thick, pure ice is an unknown thing.—Seattle Chronicle, 19.

By the apportionment of representation adopted by the state central committee, the several counties will be entitled to send the following number of delegates: Baker..... 8 Lake..... 2 Benton..... 7 Lane..... 10 Clackamas..... 9 Linn..... 13 Clatsop..... 7 Marion..... 12 Columbia..... 2 Morrow..... 5 Coos..... 3 Multnomah..... 28 Crook..... 3 Polk..... 6 Curry..... 1 Tillamook..... 10 Douglas..... 9 Umatilla..... 10 Gilliam..... 3 Union..... 11 Grant..... 4 Washington..... 6 Jackson..... 2 Wheeler..... 2 Josephine..... 3 Yamhill..... 8 Klamath..... 1 Total..... 190

PAID FOR THE CHRONOMETER.

Here is a story about old Jacob Astor that shows how wretched parsimony and detestable meanness are sometimes rewarded: "One of Astor's best captains had made six voyages to China without a chronometer, but just before sailing on his seventh voyage he suggested to Mr. Astor that it would be safer to have one. 'Get one,' said the millionaire. The captain did so, and entered its cost on the account current. When Astor's eye fell upon the item, he drew his pen through it. The captain expostulated. 'Damn it, man,' said Astor, 'I told you to get one, but I did not say I would pay for it.' The old seaman left Mr. Astor's employment at once and went down town, and before night was in command of as fine a ship as ever floated. In three days he set sail. At the same time Astor's ship, under a new commander, also set sail. The voyage to Hong Kong was very close, but the Captain, who, as he used to say, had 'discharged John Jacob Astor,' by keeping his men at the braces, took advantage of every breath of wind and won by three days. The ship was loaded in the shortest possible time, and before Astor's vessel, which had arrived in the meantime, was half loaded, our captain weighed anchor, and with a full cargo of tea sailed for New York. He arrived in good time and hoisted out the cargo, which was sold at auction on the spot. The market was thereby overstocked, and when Astor's ship arrived, the price had fallen. Some time afterward, as the Captain was walking down Broadway, he met Mr. Astor. 'How much did that chronometer cost you?' the latter asked. 'Six hundred dollars,' 'Well,' said Astor, 'that was cheap, it cost me \$60,000.'
