The Daily Astorian.

ASTORIA, OREGON:

THURSDAY.....MARCH 25, 1886

H. Ekstrom has received a new stock of watches and clocks which he offers at low prices. See adv't.

The 5th, 6th and 7th days of April are the days to register in your voting precinct, and don't you forget it.

The *Jennie Wand* sailed for San Francisco yesterday: the *Melancthon* arrived in and went to Knappton.

There will be skating at the rink to-morrow afternoon, for ladies only; there will be no charge. Skating as usual this evening.

Anyone wanting to buy a good established business, well located, would do well to note the advertisement in another column.

Astoria Lodge No. 40, I. O. G. T. will resume their meetings and all members are requested to attend at their lodge room this evening.

Rates of fares east are again on the up grade. Parties contemplating a trip east this spring will hardly find the fares lower than at present.

Geo. T. Myers tells the Seattle *Post-Intelligencer* that under the circumstances he thinks of transferring his cannery plant from the Sound to the lower Columbia.

The honorable board of Oregon pilot commissioners meet to-day. But one of the board now resides in this city, which is contrary to the law in such case made and provided.

James Tatton sold his steamer the *Gen. Custer* to Messrs. R. E. Jackson and Fred. Ferrell yesterday, for $1,200. Her new owners will run her on the Young's river route.

Mrs. Malcolm advertises a choice stock of millinery, ladies' wear, etc., at very low figures. She will have an opening of spring millinery, etc., on Tuesday and Wednesday, the 30th and 31st inst.

Chehalis county voted on the question of locating the county seat on the 16th, with the following result: Cosmopolis, 348; Lower Montesano, 90; Montesano, 676; total, 1,114: majority for Montesano, 238.

From San Francisco comes a report of an advance in the price of twine. This cannot affect matters on the Columbia much, as the greater part of the necessary material was contracted for two months ago.

All through the interior is reported trouble of various kinds. In Astoria everything points to a prosperous season. The Astoria method of dealing with complications is commended to other communities. It is entirely satisfactory to this.

Another explosion under a Chinese wash house in Portland last Tuesday night occasions considerable comment in that city. The presumption is that those attacks are the work of sneaks who it is hard to say are friends or enemies of the anti-coolie movement. In any event they bring discredit upon the cause.

Industries at Seattle and vicinity are represented to be in an excited, disorganized and unsatisfactory condition. Five of the seven coal mines have been shut up for three weeks past by strikes, and another, it is expected, will close if the owners do not yield to the miners. The seamen are striking for an advance of $5 a month, demanding $35 in the coastwise trade, and 'longshoremen are calling for $4 and $5 a day. Trouble is threatened by the latter at Tacoma, and the mayor has issued a proclamation, warning the rioters to desist.

Some time ago suit was brought by State Treasurer Hirsch in behalf of the state of Oregon against Multnomah county to recover delinquent state taxes amounting to $6,000. It was alleged the counties should pay the state their full apportionment whether the full amount was collected or not. The state circuit court decided this to be the case, and the county authorities took an appeal. The supreme court has affirmed the judgment of the lower court, except as to interest, and taxed the costs against the appellants. This may be looked upon as a test case and applies to Clatsop county as well. It may law but it doesn't look fair to make the county responsible for all delinquent taxes.

PERSONAL.

E. C. Crow, of Knappa, is in the city.

Judge Moore, of St. Helens, is registered at the Occident.

C. A. McGuire came over from Clatsop yesterday afternoon.

Mrs. F. C. Reed starts for Strong, Me., this morning and expects to be gone about six months visiting relatives and friends.

A Characteristic Nevada Yarn.

Zeigler, of the meat market on South C street, killed a steer the other day whose teeth were completely encrusted with gold and silver bullion. The animal came from a ranch on the Carson river, and the precious metal on the enamel of the teeth doubtless accumulated from drinking the water of the river, which is impregnated with the tailings from the mills reducing the Comstock ores.—*Virginia Enterprise, 15.*

THIS AND OTHER LANDS.

Riots and Labor Troubles in Both Hemispheres.

QUIET REIGNS IN WARSAW.

PORTLAND, Mar. 24.—As yet there are no arrests in connection with the blowing up of the wash house last night, and no clue. There is not any great excitement. To-day is the day set for the Chinese to depart. The town has been extremely quiet all day, and there are little fears of any action being taken. The Chinamen are walking the streets and following their regular avocations as usual. There is said to be some uneasiness among them, however, and strong precautions have been quietly taken to prevent any lawless movement.

HE TOOK NO RETURN CERTIFICATE.

This morning a Chinaman working on the bow of the ship *Gov. Goodwin* lost his balance and fell. He struck the anchor, which resulted fatally.

RIOTOUS STRIKERS.

ATCHISON, Mar. 24.—The Missouri Pacific attempted to start a freight train to-day. About a mile out of town a number of strikers boarded the train, killed the engine and brought the train back. The city marshal made a second attempt with the sheriff and a posse of policemen aboard, which met with the same result. All but two engines of the Missouri Pacific are disabled.

ANOTHER RIOT.

ST. LOUIS, Mar. 24.—A freight train of fifteen cars was made up this morning and started. At Seventeenth street it encountered a mob who ordered the engineer and fireman off. The order was promptly complied with. The mob became so dense that 150 police tried to clear the streets. They were compelled to use their clubs. The mob in turn threw rocks, and many were hurt on both sides. The crowd finally dispersed and the trains got out of the city.

BAD BELGIC BLOOD.

BRUSSELS, Mar. 24.—A fearful state of affairs exists here. The strike is becoming universal. The men now demand an increase of pay and a decrease of hours. They even stop people in the streets and demand money. Many windows have been demolished. A pamphlet is diligently circulating teaching the general distribution of wealth.

DEAD.

WASHINGTON, Mar. 24.—Ex-Justice Ward Hull died this morning.

BETTER.

Secretary Manning is considerably better to-day.

Chicago's California and Oregon Trade.

CHICAGO, March 23.—A Chicago firm that deals extensively in California salmon, fruit and other products, has taken advantage of the cut in rates to send to California some thirty carloads of tin plate to be used by canneries there. Usually this plate comes in sailing vessels from Liverpool around Cape Horn to the Pacific coast. A big warehouse firm said that they had shipped more iron of every description to the west—California and Oregon—since March 1 than ever before. In fact their business had doubled. From March 1 to March 20 the rate on iron had been cut about 60 per cent., and while California and Oregon merchants were taking advantage of this there was also a better feeling in trade, and this matter was one of the reasons for the great increase in the western trade. Manufacturers of iron pipe and machinery used in mines are having a great trade with California and Oregon, and in fact the iron trade with the far west has been the best in every department and branch, due in the main, of course, to the great reduction in rates.

Not Let.

The contract for carrying the mail three times a week between Port Townsend and Sehome has not yet been let. Morgan & Hastings put in the lowest bid, about $11,000 per annum, but the department considered the bid too high, and has not as yet awarded the contract, although the award will probably be made in a short time. If they receive the contract, Morgan & Hastings will buy a steamer suitable to perform the service. They have three steamers under consideration—the *Gen. Canby* and *Edith* of Astoria, and the *Fleetwood* of Portland, either of which would do with some alterations and repairs.—*Seattle Post-Intelligencer, 21.*

To Housekeepers.

Attention is called to our advertisment in another column giving a partial list of the goods to be found in our stock. We aim to carry the best assortment to be found in Astoria, and cash or short time buyers will find it to their advantage to make their purchases from us. Goods delivered free of charge to any part of the city.

D. L. BECK & SONS.

Parties wishing spars or piling of any size or length can be supplied by leaving orders with J. H. D. Gray.

Cheese 10 cents per Pound.

Fine Clatsop Cheese at Carnahan & Co.'s reduced to 10 cts per pound. Guaranteed to be of the very best.

Ladies, there is a lot of Painting material at the Crystal Palace which you can have at your own price.

Attention Ladies.

Don't buy your Children's School Hats until Eaton & Carnahan receive theirs. They have on the way 300 doz., not last years styles, but the latest styles. They will sell them cheaper than any house in town, and during their opening which will surpass anything of the kind ever held in Astoria, they will give away school hats to anyone buying one dollar's worth and upwards.

For Rent,

TELEGRAPHIC SPARKS.

Secretary Manning is suffering from an attack of vertigo.

French troops have been routed by the Hovas in Madgascar with great loss.

Geo. Hearst has been appointed U. S. senator by Gov. Stoneman, to succeed Senator Miller, deceased.

Pasteur has failed to save one Russian who went to him in Paris to prevent hydrophobia, having been bitten by a mad wolf.

Gen. Crook started from Fort Bowie on the 23rd for San Bernardino to receive the surrender of Geronimo and his band of Apache followers.

The emperor of Japan has sent $500 to New York, as a contribution to the Grant monument fund, in token of the high estimation in which he holds the memory of the illustrious deceased.

The St. Louis Knights of Labor say they will accept no terms from the company unless offered them as members of the Knights of Labor. A member of the executive committee said: "The worst is yet to come. I dread it, but there is no help for it. If we were to submit now and return to work without being recognized as Knights it would be defeat, not only for us, but also for the labor unions, trades assemblies, and for every labor organization in the country. We will wait three or four days in hopes that some way towards a settlement may be opened, and then if the situation remains unchanged every freight train on every road running out of St. Louis and Chicago will be stopped."

At San Francisco railroad men who are in a position to know just how the fight stands at present, state that affairs are so mixed that it is impossible to tell how the rival roads stand in relation to each other. It is probable that the war will have to go on until the contending parties are able to see more clearly than they do now where they stand. The protest has already been so long and so stubborn, and losses are thought to be so large, that a feeling of anxiety is beginning to creep into the breasts of railroad employes concerning their tenure of office, or their salaries, in view of the economy which will have to be practiced by the roads after the war has closed. Never in railroad history has such a war of competition been waged, and no contending railroads have ever shown determination and staying powers as have the roads engaged in the present fight, and in the face of the most terrible slaughter of rates that has ever been known. When the end will come no man pretends to know.

ENGLISH SALMON NOTES.

The salmon lying in Liverpool, offered in Mr. W. E. Aylwin's sale, failed to rouse competition. Some few offers at the auction of 21s per case were refused, and the bulk was taken in. Some have since changed hands, but if the hungry buyers of Liverpool are still eager there is yet opportunity for them to buy before salmon is all gone into consumption. We desire to contradict a statement made elsewhere last week (apparently with the desire of depressing values), to the effect that last season's pack is unsatisfactory in quality. As far as we can ascertain, the exact opposite is the case.—*London Grocers' Gazette.*

The most prominent feature of this trade during the present week has been the extensive public sale that was held on Monday last, which, whatever else it did or did not illustrate, was remarkable for one thing, viz.: a want of animation in the market, and a confirmation of the rather gloomy reports already published with reference to the state of business privately. Whether it was owing to the coldness of the temperature, and consequent backwardness of spring, to an unconquerable shyness on the part of buyers there assembled to "bid up," or to the absence of other leading purchasers who are opposed to the practice of selling canned goods by auction, we cannot precisely say; certain it is that scarcely any demand appeared, and the bulk of parcels offered had to be withdrawn. It is, however, satisfactory to observe that there were several inquiries after the sale, and within the past few days some important lines have been taken at tolerably full rates, so that out of a total of 8,350 cases about one-half have been taken, as under: 4,250 cases Columbia river salmon (each containing 48 1-lb tins), brands, "I. X. L.," "Point Adams," "Hapgood" and "American Flag," talls at 21s 6d@21s 9d per case.—*London Grocer.*

Simple and Easy.

The tariff, my son? Oh, it's a simple thing, if you'll only give it about five minutes study. There is a great deal of talk made over it, but so there is always much talk about everything. The true principle of protection and free trade, for they must ever go together, is this: Whatever you should have to buy should be admitted entirely free of any duty, away down to bottom prices; and whatever you have to sell should be protected away up to 120 in the shade. All men of all parties are agreed to that. "Then why do they wrangle and quarrel so loudly about tariff reform?" Oh, that's another matter. That is because they are not agreed on what to buy and sell.

Proper Treatment for Coughs.

That the reader may fully understand what constitutes a good Cough and Lung Syrup, we will say that Tar and Wild Cherry is the base of the best remedies yet discovered. PILOTAGE AND LIGHTS.

The total amount of pilotage dues for Victoria and Esquimalt district received during the past fiscal year was $9,294, of which sum $1,972.25 was received from British and $7,321 from foreign vessels.

The lighthouse on Sea Bird point, Discovery island, Haro straits, which cost $2,300, is completed and the light will shortly be put in operation.

The cost of maintaining the lights in the province for the year was $15,457.76, and the expenditure for construction was $1,617.01.

The lighthouse erected at a cost of $3,000 during the year on Georgina point, the northernmost point of Mayne island, shows a fixed white light. The light is elevated 55 feet above high water mark, and should be visible 12 miles. The illuminating apparatus is dioptric of the sixth order. The building is of wood, and consists of a square tower, 42 feet high from the ground to the lantern vane, with keeper's dwelling attached. This light besides serving as a coast light for the Strait of Georgia, indicates the eastern entrance to Active pass, or Plumper pass, as set down on the American charts.—*Victoria Post.*
