"GOT TO HIS COLLAR."

How a Northern California Sheriff Was Robbed.
The Crescent City, California, Record of January 1st contains the following account of a very bold robbery:
The boldest robbery that ever occurred in this city was perpetrated at the court house on Thursday evening, Sheriff Hughes being the person robbed. The sheriff, as tax collector, had been collecting quite a sum of money on the day mentioned, and was detained in his office until about 6 o'clock in the evening, at that time he being the only person in the court house. He had put about \$3,000 in his pocket, put on his oil-skin coat and buttoned it up. A sack of silver and gold that he had received from Smith river that day, amounting to about \$1,100 was in his hand, being too large to get in his pockets.
He blew out the lights in his office, which is some distance down the hall on the lower floor of the court house, and started toward the front door, which was a little open and through which shone in a little light. Arriving at the stairs leading to the upper story of the building from each side of the hall, he saw the glimpse of a man by the foot of the stairs on one side, and at the same instant his face was deluged by black pepper and he received a blow in his stomach from another person at the foot of the stairs on the opposite side of the hall.
This completely doubled him up, and at the same time the sack held in his hand was snatched. He fell to the floor, being completely at the mercy of the robbers, who made good their escape while he was in a half conscious condition, thinking, no doubt, that they had relieved him of all the receipts of the day. Sheriff Hughes then made his way to the treasurer's office with about \$3,000 that was left on his person, still weak and continually vomiting from the effects of the blow received and the dose of pepper.
The court house was immediately visited by under sheriff Enderst and special officer Fox and others, but no clue could be found to the parties who committed the deed. Suspicion points to certain persons, but no arrests have been made.

An Embarrassed Company.
Deputy United States Marshal, Chas. W. Frush, has returned from Empire City, Coos county, whither he went to serve papers on James Webster, secretary of the Southern Oregon Improvement company. It seems that William J. Roch and E. D. Mandrel, of the Boston Safe Deposit company hold 1,300 bonds of \$1,000 each belonging to the Southern Oregon Improvement company on which the interest has not been paid for some time past. Hence the suit against the company. The Southern Oregon Improvement company have the largest mill on the coast at Empire City, besides timber land in large quantities and a vast amount of other property. It is understood that the members of the company were unable to pull together and this is said to be the real cause for the financial embarrassment of the company. The mammoth mill has been shut down a good portion of the time since it was constructed on this account.—News.

Window glass was first made in the United States at Pittsburg in 1795, at which time James O'Hara and Major Isaac Craig established a factory there. In 1802 Gen. O'Hara made the first flint-glass. From that day to the present Pittsburg has been the center of this class of manufactures. Of window-glass factories proper in Pittsburg there are twenty-nine in operation in the city and suburbs, and one devoted to the making of plate glass. The total product of these twenty-nine furnaces, with their 276 pots, has an annual value of \$3,000,000.

There is money in wood pulp, judging from the demand. One mill in Brunswick has hard work to keep ahead of its orders, running night and day, and pulp made there has gone to Boston and returned in the shape of newspapers within forty-eight hours.

Ranchmen in the hills of Dakota are making preparations for farming next summer on a much more extensive scale than they have heretofore, and should the season be propitious the crops will distance present expectations.

The making of wooden shoes is still carried on at Clymer, N. Y., a town which was settled by Hollanders, and who still cling to the customs of the fatherland.

J. W. Conn.

During the year 1886, American mills have produced 1,350,000 tons of steel rails, valued at \$40,000,000. The prospect for 1887 is said to be better.

Acker's Blood Elixir is the only Blood Remedy guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilitic Poisoning. It purifies the whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it.
J. W. Conn.

Another effort is to be made to have the coal operators and miners of the United States adopt a general scale of wages and prices.

A Clear Complexion.
How can you expect a clear complexion when the blood is full of impurities and the stomach clogged? The blood becomes impure because the liver does not act properly and work off the poison from the system, and the certain results are blotches, pimples and eruptions. Purify the blood with Simmons Liver Regulator, and regulate the liver, stomach and bowels, and then the skin will become clear.
—For Dyspepsia and Liver Complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by W. E. Dement.
