

The Daily Astorian. ASTORIA, OREGON: TUESDAY, JANUARY 19, 1887.

Our annual cold snap. Who's going to be elected police judge.

The clock in front of the Crystal Palace is in operation again and is a great public convenience.

The British bark Raglan Castle cleared for Queenstown yesterday, carrying 60,146 bus. wheat, worth \$47,000.

Tickets for the Washington birthday ball of the Western Amateur band can be had from any of the members.

Complaint is made by legislators that they cannot hear what is said in the house, and much confusion and mistakes are occasioned thereby.

The Umattilla came in on Sunday. The Oregon sailed. The Contingent Ford, Orient, Tam O'Shanter and Spirit of the Morning sailed yesterday.

Frank Fabre is putting a French range in his establishment, and fitting up the building adjoining with private rooms for oysters, suppers, parties, etc.

The remains of Peter Gunderson received interment at Clatsop cemetery yesterday. The case of Emma Friskorn yesterday occupied the attention of the grand jury.

There will be an entertainment given in Liberty Hall on Thursday evening, the 20th inst., for the benefit of the Presbyterian Sunday school. An excellent programme will be given.

A condensed showing of the importance of the salmon industry appeared on the 13th. The omission of one item made it incomplete. It appears in its correct form in another column this morning.

If that schooner Parallel had only been wrecked at the Columbia gate instead of the Golden Gate, what a delight it would have been to the Tacoma Ledger. The champion lie would have had a truthful parallel.

They are trying to disbar a Portland attorney for not returning borrowed books. If every non returner of borrowed books was punished some way the list of the unpunished would be bright and small by contrast.

The Tacoma Telegraph is dead. It took dispatches and paid for them, but couldn't stand the expense and quit. The proprietors may run a patent inside weekly; it doesn't cost one-twentieth as much as it does to run a daily, but the w. p. i. gives the town it is published in a black eye.

Sherman Bros. have a fine new express wagon that is a good specimen of home manufacture. Geo. A. Stinson built it, wood work, iron work, etc., complete. B. F. Allen did the varnishing, gilding, painting, etc., and the wagon is a beauty, and will compare favorably with any similar build east or elsewhere.

Look out for charter amendments. Our venerable and beloved municipal organic law is liable to be amended by the legislature any day now. There is one amendment on the way there now, and goodness only knows how many more will get there before the legislature is limited to forty days and forty nights.

On returning from public office, Treasurer Hirsch turned over to Mr. Webb, his successor, the large sum of \$382,483.42 in the general fund. Is not this large sum of money, asks the Mercury, in itself a sufficient argument in favor of a lower rate of state taxation. In the four years that this sum has been accumulating, the state has built a costly insane asylum and expended other large sums of money in public improvements; and yet the treasury is full of money and the motto is "rake her!"

Thus soliloquizes the Welcome: What fools these mortals be! A stranger comes here with a snap racket of advertising character; borrows a lot of old cuts that have become eyesores with age to the Portland's public, writes up a merchant's store, charges him from \$25 to \$50, throws his trash on the town, cleans up about \$5,000 for a month's work, and then disappears as mysteriously as he came, taking the money away as completely as a circus. Such advertising in a good paper would be worth infinitely more to our merchants than five issues in such a fly-by-night affair, to say nothing of the very important item of the money being kept at home.

Special Meeting. There will be a special meeting of the Woman's Relief Corps at two o'clock this afternoon.

By order of the president, MRS. HATTIE E. COOPER, MRS. ALLIE M. DAVIDSON, Secretary.

Meeting Notice. The members of the Scandinavian Benevolent Society are hereby notified to meet this Tuesday evening at Castle Hall, business of importance to be transacted, and a full attendance is required. By order President, AUG. DANIELSON, Sec'y.

Lowest Cash Price. Coal Oil at \$2.35 a case, at D. L. BECK & SONS.

General News Notes From the East.

SALEM, Jan. 17.—The Columbia river improvement committee leaving The Dalles yesterday morning and arriving at the locks at 11:30 A. M., Capt. Young in charge, who proceeded with the committee to make a thorough examination of the works and from present indications it will take about two years to complete them, provided all the money that can be used can be secured from the general government; that the locks had been constructed on a much larger scale than the position with regard to the river upon which they are placed is capable of being navigated, viz: when completed they will admit at extreme low water, a vessel drawing eight feet of water, which cannot ascend, the river being too shoal below that point, and also at points above, without first being dredged. All returned here by train to-day, and your correspondent thinks from expressions that he has heard them make that they are well pleased and would willingly pay the expense themselves for the information gained should brother legislators object on account of expense to the state.

ASPHYXIATED. TROY, New York, Jan. 17.—Last night a police officer was told by a restaurant keeper that he and his family had been stupefied from the effects, as he predicted, of gas which entered his apartments from the gas company building near by. The gas was shut off and an examination of the houses of the neighborhood made. In one room of the tenement house three persons, Wm. Gillilan, Ida Bennett and Caroline Bennett were found dead, sitting about the room, as they had been conversing when the gas overcame them. The bodies were taken to the undertaker's room and the coroner notified. Other families in the neighborhood were aroused and ordered by the police to leave their houses. A leak in the pipes which run through the district was probably the cause of the accident, the gas being odorless.

"SAILED FOR ASTORIA."

Bot Wrecked and Wreaking Ruin At the Golden Gate.

SAN FRANCISCO, Jan. 16.—The schooner Parallel, which sailed for Astoria Thursday, was last night observed by John Hyslop, keeper of the sighting station at Point Lobos, drifting apparently abandoned with all sails set and lights burning. She drifted into a cove five hundred yards above the Cliff House and struck the rocks under a heavy surf. The life saving service was summoned, but found no one on the vessel. They built a bonfire and remained in watch in case the wrecked crew should come ashore later. About 12:30 there was a terrific explosion which scattered fragments of the vessel for half a mile about, wrecking the nearest buildings and breaking every pane of glass for a thousand yards. The northern end and balconies of the Cliff House were wrecked, and the doors and windows were blown in and the building badly injured every way. The Cliff House cottage was demolished and the inmates cut and bruised. Adolph Sntro's fine conservatory, on the heights above the cove, was destroyed, and all the glass in his residence was broken.

The sighting station was badly injured by pieces of debris, which also damaged buildings nearly half a mile distant. John Wilson and Horace Smith of the life saving crew, who were standing on a bluff 250 yards away, were picked up bodily and flung against the cliff, which was shaken down, and they rolled with it to the beach badly injured. The loss to the buildings is near forty thousand dollars.

The vessel was loaded with merchandise and had 1,500 boxes giant powder No. 2 on board. The explosion shook the city like a sharp earthquake. Very few knew of the explosion until this morning, then crowds flocked to the scene and the roads were taxed to their utmost capacity. The explosion was felt as far as San Jose.

The captain and crew of the wrecked schooner came to the city to-day from Point Bonita lighthouse, where they landed last night. Their story is that they started Thursday morning, and after the tug left them off Black Point they anchored on account of the fog. After one attempt to get out they stayed until Saturday afternoon, and then started out from the heads, but became becalmed a mile off the Cliff house and drifted.

When they saw a wreck inevitable they hastily abandoned the vessel, knowing the dangerous nature of the cargo, leaving their clothes and everything but what they had on. They consisted of Captain Miller, the mate, steward and four sailors.

The Oregon Bar Pilots. The pilots of the pilot schooner Gov. Moody have issued a statement for the twelve months ending October 28th, 1886, being the first year's work since the schooner went into service. In that time she piloted in twenty-eight vessels, the pilotage on which was \$2,980, of which \$367.25 went to the state. They piloted on thirteen vessels, the pilotage on which was \$1,134.50, of which \$238 went to the state. The yearly expenses of the schooner are given as follows:

Table with 2 columns: Item and Amount. Includes Insurance for one year, Maintenance of a crew one year, Provisions of crew for the year, Repairs and other expenses.

Total \$3,285

The total receipts for the year were \$4,114; the state received \$605.25.

Where Mrs. Grandiose Had the Best of It. "My dear, look down below," said Grandiose, as he stood on the bridge, with his wife, and gazed at a panting tug hauling a long line of barges; "such is life—the tug is like a man, working and toiling, while the barges, like women are—"I know," interrupted Mrs. G., acridly. "the tug does all the blowing, and the barges bear all the burden."

Gov. Moody Pardoned Him. J. Dubois, who was sent up for seven years from Astoria for stealing \$12, for tools from the High school and was sentenced to seven years in the penitentiary was pardoned by Governor Moody on Monday, he having served three years.—Portland Democrat.

Unnecessary Misery. Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

PERSONAL.

Mayor Trullinger went to Salem yesterday morning. Geo. Johnson is on his way back from Washington, D. C.

Miss May Trenchard, who has been seriously ill, is convalescent. Prof. Francis is in the city and will remain till Friday. He is stopping at the Parker House.

Miss Helen Dickinson has temporary charge of Miss Trenchard's school room this week. Capt. Steve Babbidge is keeping house at Yaquina. Harry Lord and wife are also housekeeping at the O. P. terminus.

Free Trade. The reduction of internal revenue and the taking off revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.

Had to Beat Her Way Down. The steamer Mischief arrived from Astoria on Thursday. She left Astoria December 30th and after one day out her boiler gave out and she was forced to beat down, experiencing rough weather all the way. Capt. Winaut blames no one for the accident and says his engineers done all they could.—Yaquina Mail, 11.

Good Results in Every Case. D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery.
