General Farm Notes.

Gilt-edge butter cannot be pro-
duced unless the udder and teats
of the cow and the hands of the
milkers are washed before milking
the cow. The milk must then be
removed from the stable as quickly
as possible, as it will absorb odors
as soon as it becomes cool.

Weight alone is not the only
mode of regulating the price. Quality
is becoming the prime factor
in profit, and farmers will soon
learn that it is more profitable to
grow only first class produce than
to raise large amounts of that
which is inferior and slow of sale.

The value of farm implements
and machinery in the United
States in 1886 was \$406,520,055,
employed on 4,008,907 farms, val-
ued at the enormous sum of \$10,
197,096,776. The value of all the
farm productions in 1879, sold,
consumed and on hand, was \$2,
212,540,927.

The best churning temperatures
are between 57 and 60 degrees in
winter. All who churn should use
a thermometer, as no guess work
will answer. A thermometer is an
indispensable article in the dairy
at all times.

While it does not pay as a rule,
to be at the expense of cooking
food for stock, says the *National
Stockman*, it does pay to cook
food for young pigs. Potatoes
can be used to advantage, and a
good, warm mess will do more to
make the pigs grow than anything
else.

A Frenchman states that the
American breeders are changing the
character of the Norman
Percheron horse by seeking to in-
crease its size and by paying no
attention to other qualities. He is
reported as saying that the origi-
nal "Perch" horse weighed only
1,300 or 1,400 pounds.

Somebody estimates the number
of goats in the world at 50,000,000.
If properly managed goats pay a
handsome profit, as they subsist
on scanty herbage, and are seldom
afflicted with diseases. In Ger-
many and England they are used
in the dairy, the flesh is highly es-
teemed, while the skins command
a ready sale at all times.

A perfect strainer, says the
American Dairyman, is made of
three thicknesses of fine bolting
cloth in a tin frame, like the hoops
of a hair sieve. It should be so
constructed that the three cloths
can be taken off and cleansed sep-
arately. Fine dust that will pass
through one thickness of cloth
or wire gauze will be arrested
when two or three are laid to-
gether, and not a hair will go
through.

Alfred Rose, of Penn Yan, N.
Y., claims to have raised at the
rate of 1,000 bushels of potatoes
to the acre by his system of
trench-planting, in which he drops
his seed potatoes cut in two eyes,
on the bottom of a furrow eight
inches deep. The seed is covered
at the first about two inches, but
when the plants are nicely started
the dirt is drawn to them by de-
grees during their growth till at
last the trench is entirely filled.

The question frequently comes
up, What kind of sheep will pay
the best? This depends upon the
location and the purpose for which
they are grown. If a farmer
wishes to raise sheep in large
flocks, principally for the wool, he
will select those that have merino
blood; but if situated near a good
market for lambs, and where he
can keep only a small number, he
will probably find the heavier
mutton breeds more profitable.

The farm is not a complete in-
stitution where the woman takes
no interest in the poultry, the ani-
mals, the dairy, or anything else
outdoors. We will not be under-
stood as advising that woman slave
in the dairy or in the garden or in
the field, but where families are
poor and the woman cannot
preach, or practice medicine or
law, we would advise the making
of gilt edge butter that is as profit-
able as preaching, or teaching, or
practising law or medicine. — *Wiz-
son*.

A Trap.

A trap has been set by the
"goldbugs," to catch the friends
of silver, that looks fair and favor-
able on its face, but it is full of
danger. It is a scheme to deposit
silver bullion as security for na-
tional bank notes. The reasons
why it will not do to allow the na-
tional banks to deposit silver bull-
ion as a security for their notes
are many. We will state only
two: First, the banks would be
sist—and the law would be passed
to accommodate them—that they
should deposit the bullion at the
market rate for the same in Lon-
don, and not at its value in 412-
grain silver dollars. This would have
the effect of degrading silver dollars
in the eyes of all the world, and
increase the clamor against them
at home. This, again, would en-
able the "goldbugs" to get a bill
passed to stop the coinage of sil-
ver, and this is the object for which
the silver bullion trap is set.

This would a great and irrepara-
ble injury be done to the cause
of bi-metalism. By this trick the
gold standard would at once be
fully established and the wheels
of the nation's progress be set
back for many years. Both gold
and silver as bullion, are a com-
modity—coined, they are money—
and this distinction is of vital im-
portance in considering the money
question. As a commodity they
may be of unequal value, but as
money they are equal.

HEADACHE AND DYSPEPSIA.

No. 512 WEST 5TH ST., N. Y.,
June 29, 1885.

I have been a martyr to bilious
headache and dyspepsia. Any indis-
cretion in diet, over-fatigue, or cold,
brings on a fit of indigestion, to be
followed by a headache lasting two
or three days at a time. I think I
must have tried over twenty differ-
ent remedies, which were recom-
mended as certain cures by loving
friends, but it was no use. Like the
Irishman, I got no better very fast.
At last I thought I would take a
simple course of purgation with BRAND-
RETT'S PILLS. For the first week I
took two Pills every night, then one
Pill for thirty nights; in that time I
gained three pounds in weight, and
never have had a ache or a pain
since.
WILLIAM E. ROCKWELL.

Scarlet Fever and Diphtheria

Are spread by contagion, by the transfer
of living matter. These particles come
from the skin, the membranous lining
of the mouth, nose, and throat, and
from the intestines and urinary organs.
Disinfect promptly and thoroughly with
Darby's Prophylactic Fluid, the great
germ destroyer.

Prof. H. T. Lupton, of the Vanderbilt
University, Tenn., says: "As a disin-
fectant and detergent Darby's Propyl-
actic Fluid is superior to any prepara-
tion with which I am acquainted."

Ex-Secretary Chandler is an avowed candidate for the next sena- torial seat to be filled from New Hampshire. Ex-Senator Rollins is also in the field.

Acker's Blood Elixir is the
guaranteed. It is a positive cure for
Ulcers, Eruptions, or Syphilitic Pois-
onings. It purifies the whole system,
and banishes all rheumatic and Neu-
ralgic pains. We guarantee it.
J. W. Conn.

There are symptoms that within
the present year Iowa will develop
a presidential boom for either Sena-
tor Allison or Judge Miller.

Can't Sleep Nights, is
the complaint of thousands suffering from
Asthma, Consumption, Coughs, etc.
Did you ever try Acker's English Rem-
edy? It is the best preparation known
for all Lung Troubles, sold on a posi-
tive guarantee at 10c., 50c.
J. W. Conn.

Congressman Lanham, of Texas,
represents the largest district.
Several eastern states could be
packed away in one corner.

PATRONIZE HOME INDUSTRY
There is no occasion for the most fastid-
ious of our citizens to send to Portland or
San Francisco for
Custom Made Clothes
As they can get Better Fits, Better Work-
manship, and for
Less Money
By Leaving their Orders with MEANY. He
has just received a large stock of Goods from
the East. Fine Business Suits from \$35.
Call and See Him and Satisfy Yourself.
P. J. MEANY,
MERCHANT TAILOR.

How's Your Liver?

Is the Oriental salutation,
knowing that good health
cannot exist without a
healthy Liver. When the
Liver is torpid the Bow-
els are sluggish and con-
stipated, the food lies
in the stomach undig-
ested, poisoning the
blood; frequent headache
ensues; a feeling of lassit-
ude, despondency and
nervousness indicate how
the whole system is de-
ranged. Simmons Liver
Regulator has been the
means of restoring more
people to health and
happiness by giving them
a healthy Liver than any
agency known on earth.
It acts with extraor-
dinary power and efficacy.

NEVER BEEN DISAPPOINTED.
As a general family remedy for Dyspepsia,
Torpid Liver, Constipation, etc. I hardly
ever use anything else, and have never
been disappointed in the effect produced;
it seems to be almost a perfect cure for all
diseases of the Stomach and Bowels.
W. J. McLELLAN, Macon, Ga.
J. H. ZEILIN & CO., Philadelphia, Pa.
Price \$1.00.

Look Here Boys.

If you want a neat fitting Suit of Clothes,
