

The Daily Astorian. ASTORIA, OREGON: SUNDAY, FEBRUARY 6, 1887. Hay is \$20 a ton at Ilwaco.

The Mazanilla returned yesterday afternoon. There is to be a masquerade ball at Ilwaco next Friday night.

About half the Astoria delegation to Salem returned yesterday. Several went down to Fort Stevens yesterday to enjoy the fine skating there.

The malefactors and femalefactors in the state penitentiary are said to be uncomfortably crowded. The Journal reports that the far-away buoy at Gray's harbor has gone ashore near Peterson's Point.

There is no news of the Dawn. The Mazanilla will go out to-day to make further search for the boat.

The State came in in good season yesterday; the Columbia sails at daybreak. The Idaho sails for Alaska to-day.

The Telephone will come down as usual this afternoon and will leave for Portland at six o'clock to-morrow morning.

Services at the Methodist church to-day at 11 a. m. and 7 p. m. Subject for evening service, "The Witness of the Spirit."

There will be no service in St. Mary's Roman Catholic church to-day, as Rev. L. Dieleman, the pastor, is suffering from a heavy cold.

L. H. Rhoades, of Bay Center, bought the wreck of the Jessie Nickerson last Monday, for \$32, and the 90 M feet of lumber in her hold, for \$210.

Preaching in the Norwegian language in the Swedish Lutheran church, upper Astoria, to-day at 10:30 a. m., and in the English language at 7:30 p. m.

The British bark Endora cleared yesterday for Hong Kong, with 18,861 bbls flour, worth \$63,517, the first full cargo of a kind from the Columbia river to the Flowery Kingdom.

C. B. Allen, A. McLellan and Wm. A. Carruthers, have bought the Venture, for \$1,000 and will fit her up for a cruise to Alaska for seal. They propose starting about April 1st.

Capt. Babbidge, of the Reed, reports encountering considerable ice yesterday as far down as Walker's Island. He will put some sheathing on to-day, and will start on time to-morrow morning.

The light wind moderated in keenness yesterday and on the sunny side of the street the snow and ice thawed. The thermometer during the day averaged 30 degrees, with indications of softer weather before long.

According to the advertisements in metropolitan journals, it would be high praise to compare any man or woman to a piano, for those articles of domestic harmony are always described as being "grand, upright and square."

Whoever else is discommoded, there is one class that thoroughly enjoy the snow, and that is the children; their bright, laughing faces are seen everywhere out doors, and the annual visit of the ice king is to them a season of enjoyment.

Frank Fabre has finished a handsome addition to his restaurant and has now some newly fitted private rooms for the convenience of patrons. He has also put in a new French range and is prepared to place a good meal on the table any hour of the day or night.

At a meeting of the board of foremen in the council room last evening, it was, on motion, decided that the fire department give an entertainment, consisting of a ball, on the 11th of next April, and that the president of the board appoint a committee to consult with the band in regard to music.

The Dolphin came in at half past eight last night with about two tons of skate, sole, rock cod, codfish, flounders, etc., and a big lot of crabs. The usual fishing grounds off McKenzie heads were found unproductive and the schooner went well to the north, making two good hauls yesterday afternoon.

Severe Hansted died at his residence at Alderbrook, yesterday, of cancer of the stomach. Deceased was a native of Copenhagen and in the 29th year of his age. The funeral will be at noon next Tuesday. The interment will be at Clatsop. The Electric will leave the Eagle cannery at that hour.

The Thompson Opera Co., will appear at Ross' opera house next Thursday and Friday, presenting the "M. Macaire" the first night and "Macaire" the second night. They advertise to present the opera with the same careful fidelity and detail that have made this company so successful in other communities. The box sheet will be open at the Crystal Palace at ten to-morrow.

At a meeting of the board of fire delegates, A. F. D., held in the council room last evening, after some discussion regarding the respective duties and jurisdiction of the board of delegates and board of firemen, it was decided that the board rescind all former action taken by the board regarding the proposed entertainment in aid of the tournament fund, and the board adjourned.

The Day's Doings in Europe and America. A General Synopsis of Eastern and European News.

ROME, Feb. 5.—The debate on the credit of five million of francs asked for by the government for the sending of reinforcements to the Sudan was resumed in the chamber of deputies to-day. Signor Boudinard moved that the house pass to the order of the day, whereupon Premier De Brotes announced that if the motion was adopted the government would resign; the motion was rejected by a vote of 215 to 181, and the credit bill was afterwards passed by a secret ballot, the vote being 317 to 12.

BERCHER'S OPINION. NEW YORK, Feb. 5.—In the course of a reply to a toast at the annual banquet of the Amherst college alumni association last night, Henry Ward Beecher said: "This abomination the Knights of Labor is the result of this infernal idea of paternity of government. Because a few men in New Jersey think their employers have wronged them, all this nation is called upon to suffer on the order of this paternal government, of the Knights of Labor. This is from the want of intelligence."

FREED OUT; TITLES AND ALL. CEDAR RAPIDS, Iowa, Feb. 5.—M. McInster, of Mount Auburn, grand chief foreman of the Brotherhood of Railway Section Foremen of North America and section foreman of the Burlington, Cedar Rapids & Northern railroad, was discharged this morning for irregular habits and neglect of duty.

GOING BEHIND THE RETURNS. PHILADELPHIA, Feb. 5.—Some sensational evidence was presented before the New Jersey assembly election committee at Camden to-day, by the Republicans, to prove that the ballot box of Centre township was opened by the Democrats and enough votes changed from Haines to Turley to insure the election of the latter to the assembly on the recount.

PHILADELPHIA, Feb. 5.—The French ambassador to Berlin and Count Herbert Bismarck met yesterday and exchanged peaceful assurances. M. Herbetie is said to have asserted that there would be no movement of French troops without the consent of the council of state; while Count Herbert states that the 70,000 reserve troops would return to their homes as soon as they had been drilled, and that 23,000 more would be called out from drilling and dispatched to their homes and that there would be no more levies.

PARIS, Feb. 5.—The Journal de Debats has a telegram from St. Petersburg saying that the Emperor William's reply to the recent message from the czar stated that Germany has no intention of attacking France and that Prince Bismarck has sent a similar dispatch to M. DeGyer, the Russian minister of foreign affairs. The contents of both dispatches, the Journal correspondent says, were communicated to M. Laboulaye, the French ambassador, at St. Petersburg.

Important to Ladies. Read what Jeannie Winston, Portland's favorite prima donna, says of Wisdom's Robortine: PORTLAND, Dec. 22, 1886. To Mr. W. M. Wisdom:—The "Robortine" you so kindly sent me is excellent. It is the finest preparation I have ever used, and is a decided acquisition to a lady's toilet. Yours truly, JEANNIE WINSTON. The above is published in order to settle all doubts and disputes as to the existence of such an endorsement, and as evidence of the high esteem in which Wisdom's Robortine is held. This preparation has been before the public but a short time, yet the sale has been extraordinary. Wisdom's Robortine is for sale by all the leading druggists.

Henry F. Fulton, a missing Portland printer, is said by a sailor boarding keeper named Kelly, to have been shanghaied on board the Snow & Burgess. What the Snow & Burgess, or any other vessel wants of a printer is a matter of wonder. The master or the mate would have no more use for him than a load would have for a side saddle. The "galley" is the only term aboard he would recognize, though the ships galley and the galley in a printing office are two very different articles.

HOUSE BILL NO. 210.

The Pilot Bill Which Passed the House Yesterday. Following is the full text of the pilot bill which passed the house yesterday without a dissenting vote. It was introduced by John Kruse, of Clackamas, on the 29th ult:

A bill for an act to amend an act entitled an act to amend section 21 of an act entitled an act to provide for pilotage on the Columbia and Willamette rivers, approved November 25, 1885; and also to amend sections 3 and 28 of an act entitled an act to amend an act entitled an act to provide for pilotage on the Columbia and Willamette rivers, approved February 18, 1885.

Section 1. That section 21 of an act approved November 25, 1885, entitled "an act to amend section 21 of an act entitled an act to provide for pilotage on the Columbia and Willamette rivers, approved February 18, 1885," be amended so as to read as follows: Section 21. The board shall license such number of pilots for the bar and river pilot grounds, respectively, as it may consider best for the pilot service and the interest of commerce. The pilot schooner belonging to the state of Oregon shall be under the direction and control of the board of pilot commissioners, who shall establish rules and regulations for the use thereof; and said board shall be and is hereby empowered to insure said schooner for the full amount of the value of the same, and to equip and maintain said schooner in good seaworthy condition. And there is hereby appropriated out of any moneys in the treasury not otherwise appropriated the sum of fifteen hundred dollars annually for such insurance and maintenance. The president of the board shall act as agent, husband and managing owner of said pilot schooner on behalf of the state of Oregon; and in the event of such schooner being lost or disabled, it shall be the duty of said board to provide the pilots with an adequate vessel in which to ply their vocation as bar pilots, until such time as said board can conveniently purchase or construct a suitable pilot schooner to take the place of the schooner so lost or disabled, the amount of money so expended not to exceed the amount received on the policy of insurance. Said schooner shall be kept cruising at all times outside of Columbia river bar with bar pilots on board, unless prevented by tempestuous weather; and said schooner shall at all times, and at the expense of the pilots, carry such sufficient supply of provisions and water as may be necessary for the relief of vessels in distress; and such pilots must at all times promptly extend aid to all vessels in stress of weather, or in case of disaster; and if any such pilot or pilots fail to comply with any of the provisions of this section, it shall be good cause for suspension or removal provided, that this section shall not affect any claim for a salvage arising out of services involving extraordinary danger or risk.

Section 2. That sections 3 and 28 of an act entitled an act to amend an act entitled an act to provide for pilotage on the Columbia and Willamette rivers, approved February 18, 1885, be amended so as to read as follows: Section 3. Each of said commissioners shall be commissioned by the governor, and before entering upon the duties of his office shall take and subscribe an oath of office and file the same with the secretary of this state, to the effect, that he will support the constitution of the United States and of this state, and faithfully discharge the duties of the office of pilot commissioner according to the law and to the best of his ability. A person to be eligible to the office of pilot commissioner under this act shall be over twenty one years of age, must be a citizen of the United States and of this state, and two of said commissioners must have been engaged as master or mate on sea going vessels, or steamboats, for at least two years prior to their election as such commissioner, and two of said commissioners must be actual residents of Astoria, Clatsop county, Oregon.

Section 28. The compensation allowed for piloting a vessel upon or over the bar pilot grounds per foot of draft of said vessel, as follows: For piloting an inward or outward bound vessel to or from Astoria over the bar or from within the bar to the open sea, eight (\$8) dollars a foot for the first twelve feet, and ten (\$10) dollars for each additional foot; and from within the bar and below Sand Island, one-half that rate, and from above Sand Island one-quarter of the same.

Section 3. Inasmuch as the present law is burdensome to the bar pilots, this act shall be in force and take effect from and after its approval by the governor.

A Capital's Fortunate Discovery. Capt. Coleman, sch. Weymouth plying between Astoria and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Columbian household and on board the schooner.

B. A. Seaborg goes to Alaska on the Idaho to-day to look for a site for a cannery. If he finds what he wants he will build a cannery to put up 35,000 cases of salmon next summer.

Struck it Rich in San Diego. SAN FRANCISCO, Feb. 4.—Many marvelous stories are told here of the rapid acquisition of wealth at San Diego by land speculators. Among the strangest is one which concerns a former newspaper man of Portland. His Aladdin like rise in the world, told by a recent arrival from San Diego, is as follows: "A year ago last July I came down from Oregon on the steamer Oregon. Aboard of her was a man named Dalton. He had been a newspaper employe in Portland, but was leaving town, trying to get something better. Well, when we got to Astoria we found some creditors had telegraphed to have his baggage and himself stopped, on account of some bills which he could not pay. Of course, Dalton was 'in a box,' but he rushed around during the brief interval the steamer stopped there, and raised a few dollars, and compromised the matter, and went on. After the Oregon passed in from Golden Gate, and I when she was bearing the wharf, Dalton went to a friend and borrowed \$3. so as to get himself and baggage up town. He didn't have a cent. He went to the Lick House, and how he got away and paid his bills I don't know, but I do know that he got to San Diego, and is to-day worth not a cent less than \$100,000."

Dalton is now a member of the real estate firm of Morse, Whaley & Dalton, the largest firm in San Diego.

Free Trade. The reduction of internal revenue and the taking off revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.

Rule for Measuring Straight Logs. The Southern Lumberman says an experienced log and lumber inspector gives the following short and easily remembered rule for ascertaining the contents of a log by Doyle's rule when a copy of Scribner's book is not available: Square the diameter of the log after subtracting 4 inches from it, and the result will be the exact contents in cubic feet of a log 16 feet long. A log 8 feet long will be half this amount, 12 feet long, three-quarters, 11 feet long, seven-eighths, and so on.

Unnecessary Misery. Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.
