CALIFORNIA WEATHER.

Floods and Freshets to the South of Us.

SAN PEDRO, Cal., Feb. 15.—A storm raged with great severity throughout Monday. Vessels at anchor off Deadman's Island were tossed about like chips. Two hauled in their anchors and went to sea during the night. Two others slipped anchors and were wrecked. The wrecks were complete, but fortunately no lives were lost. About 10 P. M. signals of distress were seen. Citizens repaired to the shore, but such a gale was blowing from the southeast and the rain was falling in torrents, so it would have been suicidal to have launched a boat. This morning men were seen clinging to the rigging of a ship that was foundered in thirty-five feet of water two or three hundred yards off Deadman's Island. She was the American ship *Kennebec*, of 1,000 tons burden, laden with coal from Liverpool. Her forecastle only is showing above the water. Captain Von Holmes, of the Pacific Coast Steamship company's steamer *Los Angeles*, ordered a boat lowered and soon rescued the men.

The other wreck is the barkentine *St. Louis*, from Coos bay, with a cargo of lumber. She slipped her anchor and drifted on a reef near Point Firman. The officers and crew succeeded in getting ashore. At daylight this morning she was pounding on the rocks apparently intact, but before noon she had gone to pieces and the shore is now strewn with her wreckage.

AT LOS ANGELES.

LOS ANGELES, Feb. 15.—A severe rain storm has prevailed for the last twenty-four hours. It came down in torrents, accompanied by heavy thunder and sharp lightning. The river rose rapidly and tore away approaches to East Los Angeles bridges. The bridges themselves were not seriously damaged. Part of the Downey bridge was carried away, also the approaches to the Southern Pacific and the First street bridge. The streets near the river are submerged, and the people are alarmed and have retreated to other parts of the city. All through trains on the Southern Pacific and California Southern railways are delayed. None have arrived or departed today. Many washouts are reported on the Southern Pacific between the Tehachapi mountains and Colton. None are very serious though.

A SNOW BLOCKADE.

SACRAMENTO, Feb. 15.—Reports from the northern and eastern parts of the state say last night's storm is still raging in nearly all localities. About Montague, at the upper end of the California and Oregon railway it is unabated. On the Central Pacific snow is falling heavily down as far as Newcastle, and the high wind has caused immense drifts, and the efforts of the company to keep the road open are fruitless. A snow plow was thrown off the track in Blue Canyon, and by the time it was replaced the snow had accumulated to a depth of four feet. A plow with four locomotives pushing it worked its way to China ranch and stuck, so it could neither advance nor retreat. A force of 250 shovellers are at work digging it out. The snow has stopped falling, and it is believed the track will be clear to-night. It is the worst blockade in several years. The overland train is expected through to-night. The river at this point is 17 feet 5 inches above low water mark.

A BROKEN LEVEE.

GRIMES, Colusa Co., Cal., Feb. 15.—The levee broke yesterday two miles below here, at Brown's old break and is nearly fifty feet wide. The water is rushing through another break opposite, 300 feet wide, and thousands of acres are inundated.

UPSET BY FLOODS.

MERCED, Feb. 15.—The Mariposa stage that left here yesterday morning, was upset in a swollen stream near Hornitos, and both horses were drowned. I. H. Patterson, the driver, was taken out nearly dead, but will recover. The passengers all escaped. All streams are swollen, most of them overflowing their banks.

FATAL SNOW SLIDE.

VISALIA, Cal., Feb. 15.—Three men were caught in a snow slide at the Mineral King mine on the 10th. One of them, George Smith, was carried down the mountain and buried in the snow, but the other two escaped with the loss of their blankets and the parks they were carrying.

Telegrams from the European capitals are still more warlike. Berlin dispatches assert that the German government has received positive advices of the continued concentration of French troops, in direct contradiction to instructions alleged to have been issued by Gen. Boulanger.

WASHINGTON, Feb. 15.

—One of the questions considered at to-day's cabinet meeting was in regard to the reimbursement of Chinese residents of Washington territory, for losses sustained during the riot in that territory last summer. It was decided to refer claims, amounting to \$4,167, to congress, with a recommendation for their payment.

VIENNA, Feb. 15.

—The government has introduced a bill in the reichsrath, appropriating twelve million florins for the equipment of the landwehr and the landstrum.

GET RID OF THAT BAD TASTE.

When you wake up in the morning with a bad taste in your mouth with your throat and tongue dry and a yellow coating on your teeth and gums, don't imagine it was all caused by what you ate the night before. Of course everybody does that and everybody "swears off" from again eating such food. The trouble is that your liver is clogged, your kidneys are overworked and your bowels are not doing their duty. Take from three to ten of BRANDRETT'S PILLS and note the sudden and wonderful change in your system.

Vienna dispatches state that the ministry of war has suddenly stopped work on French and Russian contracts for magazine rifles, revolvers and munitions of war. All the factories are now working exclusively on small arms and munitions for the Austrian government.

Diphtheria.

"I am living in a neighborhood surrounded with Diphtheria and was attacked with Ulcerated Sore Throat. I at once commenced to use Dr. Barry's Prophylactic Fluid, diluted about one half, as a gargle, when great clots of hard membrane and mucous came from my throat, and the attack passed off. I am satisfied of its efficacy as a preventive and cure for Diphtheria."—
