CHICAGO, Feb. 26 .- The Times special from Fargo says: "It is learned from a reliable source that three of the great railroad building firms have combined and taken a contract to build for the St. Paul. Minneapolis & Manitoba railway 700 miles of road between Mouse river, in northern Dakota, to Great Falls, in Montana. From Great Falls the road continues south as far the Montana Central. The construction is to be pushed as few lines have been. Fifty thousand men, if they can be had, will be put on as soon as spring opens. It is claimed that this line will be in operation before next fall from St. Paul to Helena, and will have branches to all leading Montana points, competing with the North-ern Pacific. It will have an advantage of the latter grades, none exceeding forty feet to the mile. It will also be operated at much less expense, as it runs through a More level country and is not troubled with snow blockades. The line will be so much straighter than the Northern Pacific that its haul from St. Paul to Helena will be but little longer. It goes north of the bad lands and will have a prairie country for nearly the en-tire distance. If this road operates in connection with the Canadian Pacific it will be a formidable competitor of the Northern Pacific Patronize Home Industry! for not only Montana business but that of the Pacific coast.

Cure For Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some effection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant.
