

The Daily Astorian. ASTORIA, OREGON: THURSDAY, MARCH 3, 1910

The Manzanilla is off this morning to put down the whistling buoy. The east wind blew keen yesterday and overcast and wraps were found comfortable.

The schooner Fannie Dutard is loaded at the Clatsop Mill Co.'s dock, and will go to sea to-day.

"A Landman" will send his name and address to this office his communication will receive attention.

At 10:30 this morning E. C. Holden will have a sale at his auction rooms, of sundry household effects, etc.

The books of the building and loan association are at Griffin & Reed's. Nine hundred and twenty-seven shares have been subscribed.

During February 14,929 cases salmon were shipped from the Columbia river. Of these 7,804 went east, 1,626 to San Francisco and 5,499 foreign.

The Columbia arrived in yesterday morning with a large number of passengers. She had 200 tons of Astoria freight. The Oregon sailed at one o'clock.

A. B. Hallock has bought the steam screw propeller Daphne and will take her with him on his return to Tillamook bay, on whose waters the vessel will hereafter ply.

The new schooner Pioneer is discharging boats, boiler, retorts and cannery outfit generally, at the Main street wharf, for Jos. Hume, who will operate the cannery formerly run by Sam'l Elmore.

The tug Columbia goes to Coos bay this morning in command of Capt. McGee, who she will tow till the new tug now building is in readiness. It is thought that the Columbia may return to the river next winter.

The British ship Pomona, 1,200, Robb master, 90 days from Sydney, arrived in yesterday. The Palmdale and Ballochmyle sailed. The British bark Glenmore, 725, Casey master, 88 days from Newcastle, arrived in late last evening.

There isn't much in the fur trade of Astoria to furnish an item at present. Still a little is doing. Beaver pelts come in and are quoted at \$3.50 per pound. Land otter skins sell at \$5 each; few sea otter skins and they are all the way from \$60 to \$125.

Every boat builder in town is busy. Several boats have been brought up from San Francisco. The present probabilities point to the usual number of boats in the river next month. Little is doing yet in the way of making cans, and it is said, many orders for tin plate have not yet been placed.

Martin Guffert fell dead on the deck of the Fannie Dutard at noon yesterday. He was first mate of the vessel and superintending her loading at the Clatsop Mill Co.'s dock. He had been at work right along and died in the most sudden manner of heart disease. He was a single man, a native of Denmark, aged 38 years. The funeral will take place this afternoon.

Following are the dates of proposed sailings of ocean steamers between this city and San Francisco during this month: From Astoria, State, Thursday, 10th; Oregon, Tuesday, 15th; Columbia, Sunday, 20th; State, Friday, 23th; Oregon, Wednesday, 30th; Columbia, Tuesday, April 5th. From San Francisco, State, Thursday, 3d; Oregon, Tuesday, 8th; Columbia, Sunday, 13th; State, Friday, 18th; Oregon, Wednesday, 23d; Columbia, Monday, 28th; State, Sunday, April 3d; Oregon, Friday, April 8th.

Messrs. Lotan and Ferguson yesterday inspected the Columbia, Gleaner, M. G. Haagen, Enterprise and Improvement. The communication made by Messrs. Church and Harmon to the San Francisco inspectors and received by them from the San Francisco inspectors, was read to Messrs. Church and Harmon, who affirmed its correctness. Messrs Lotan and Ferguson have no other official notification concerning the loss of the Dawn and have taken no other official cognizance of the matter.

The county court has redistricted the several road districts of the county. The boundaries of the new road districts as set by the court, are on the fourth page of this issue. It will be noticed that district No. 7 is somewhat extensive. It comprises what was formerly districts 5, 8, 10 and 15. It includes Astoria, Young's River, Smith's Point and the country round about to the south and is about as large as road districts usually get. The action of the court was in accord with a petition numerously signed in and out of the city, and if the experiment works satisfactorily may be permanent.

School teachers and others are interested in the educational law passed by the last legislature regarding the obtaining of teachers' certificates. Hereafter, in each county there shall be four quarterly public examinations per year, conducted by a board of examiners consisting of three persons—the school superintendent and two others named by him. Certificates of the first grade will be issued only to persons who have stood an examination in the usual number of studies before this board, and attain an average of not less than ninety per centum of all questions asked, and in no case shall a person receive a certificate of the first grade who shall fall below seventy per centum in any one branch. Certificates of the second grade will be issued to persons who obtain a general average of not less than eighty per cent, and who shall fall below sixty per cent in no one branch. Third grade certificates will be issued to persons who make a general average of not less than seventy per cent, and who fall below forty per cent in no one branch. First, second and third grade certificates are good for two years, one year, and six months, respectively.

The Manzanilla came in yesterday from Tillamook rock with the repair force which went out some time ago to repair the havoc wrought by the storms of last December. Messrs. Nathaniel Jones, A. E. Withers, Frank Surprenant, Myers, Johns and others were among the arrivals and they were not sorry to strike the terra planka of Astoria once more. It was right while the work was going on, but when they had finished up, which they did about ten days ago, it wasn't much fun for eight or ten able bodied men to sit up in the lighthouse tower when the storm rack came rolling up ragged and brown and the harbor bar was moaning. Some sang, others prayed, others played solitaire and told tales of former times; others read, and a few fished, a watch being set to look for delinquency in the guise of the Manzanilla. Nat. Jones brought back some fine mussels, and all of them have a fund of experience that would be big capital for the writer of a marine novel.

The care of the complexion has become an accomplishment that no lady of refined tastes can afford to ignore, and in leading society circles it claims as much thought as do the fashions. It is an acknowledged fact that the variations of our climate are very severe on the complexion, noticeable by a roughness and dryness of the skin, and to counteract this effect it becomes necessary to call in the aid of art. In the selection of this agent too much care cannot be exercised. It is well known to the chemist that many of the so-called "blooms," "balms," "creams," etc., contain lead and other poisonous substances, the long-continued use of which is dangerous. Wisdom's Robertine is guaranteed under a forfeiture of \$1,000, to be absolutely free from poisonous substances. If you have not yet tried it, do so at once, and be one of the hundreds who pronounce it the most delightful toilet article ever produced. Wisdom's Robertine is sold at fifty cents per bottle.

The Police Court. March 2nd. Larry Sullivan, fighting; found guilty; \$20.

What the "Bear" and "Cow" Will Do.

WASHINGTON, March 1.—The determination of the secretary of the treasury to protect the interests of the government in the seal fisheries of Alaska was promptly reinforced by the committee on appropriations, which has given him in the pending deficiency bill \$20,000, so that it can be rendered immediately available for the outfitting of the Bear and Corwin. This amount, in addition to the \$40,000 given in the sundry civil bill, will put these revenue marine cruisers on a good footing for the present season. These vessels will be in Behring's sea several weeks in advance of the sealing season, which opens about the 14th of June. They will not under the same orders that governed them last year.

The chief of the revenue marine service says that if the rumored release of the British sealing schooners was true he would have been promptly notified of such action. He has not been, however. The treaty stipulation which gives this country the sole jurisdiction of one part of Behring's sea, is the supreme law of the land, and it cannot be set aside except by the joint agreement of the senate and executive. In the meantime the laws of the government will continue to be carried out in full, so far as its interests at stake are concerned in Behring's sea.

The Bear will start up in advance of the Corwin. She will stop at Sitka and then at Uncheh, where a trader was murdered last summer; thence to Zodiak, and thence to Penaloshka, where she will call up for a new cruise about the seal islands. The treasury department has built a coalhouse at Penaloshka, where this fuel is now stored for the use of its cruisers. The Bear will be commanded by Captain Healey.

The Verdict Unanimous. W. D. Sall, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. E. Dement & Co.'s Drug Store.

The movement in Alaska fish, says the same paper, has also been large, aggregating upwards of \$125,000 cases—a portion of which is for export—on the basis of \$1.15@1.17 1/2 per dozen export.

The purchases for English account comprise some prominent outside river packs. One sale of Fraser river fish, 20,000 cases, has been made on the basis of \$1.17 1/2 per dozen, but the asking price is now advanced to \$1.25. The River's Inlet Cannery company has sold 15,000 cases at \$1.17 1/2 per dozen in Victoria.

The Gardner Packing Company of Umpqua river reports sale of 10,000 cases at \$1.15 per dozen f. o. b. The purchase of Columbia river fish for English and Australian account to date is estimated at \$160,000 cases, at prices ranging from \$1.25@1.29 per dozen, about 40,000 cases for domestic. It is reported that the buyer of the "Hanthorn" brand of fish has been offered \$1.32 1/2 for his purchase, which offer was declined. This indicates the condition of the market.

Canada has purchased about 25,000 cases British Columbia fish, and Australia about 15,000 cases, paying \$1.25 f. o. b. The transactions for English account to date aggregate about as follows, according to most careful estimates:

Cases	Terms
100,000 Columbia river salmon	\$1.25@1.26
30,000 Fraser	1.17@1.25
15,000 River's Inlet	1.17 1/2
25,000 Alaska	1.15@1.17 1/2

PERSONAL.

Dr. Aug. C. Kinney has returned from Portland and the Sound.

Dr. O. B. Estes yesterday received his commission from Governor Penoyer as health officer of the port.

Dr. W. D. Baker was yesterday summoned by telegraph to the bedside of his father, who is very ill at McMinnville.

C. T. Thomas was a passenger on yesterday's outgoing steamer. After a visit to San Francisco, it is his intention to go on a tour of investigation through Alaska.

Free Trade. The reduction of internal revenue and the taking off revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 7 1/2 cent size.

The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.

The Decision of The Court.

In the United States district court in the case of the Alcade, Gunderson libellant, judgment was given yesterday for plaintiff in the sum of \$29 and costs. Gunderson is a Washington territory pilot, and met the Alcade outside the harbor offered to tow her in. The captain refused to tow her and piloted his own vessel in. Gunderson sued to recover half pilotage under Washington territory laws. The court held that Washington territory had complete jurisdiction over the Columbia river and its entrance. Oregon's jurisdiction in the premises was also complete over the same waters. The court held that the law of Washington territory provided that if a pilot offered his services and the captain refused the same and piloted his own vessel in, that he could collect the half pilotage. If an Oregon pilot offered his services under like circumstances, then the Oregon law would govern the case. The defense set up a plea that the Washington territory pilots were not provided with a proper pilot boat, as the law directs. The court held that this did not cut a figure in the case, as the matter of providing a schooner was simply a question between the pilots and pilot commissioners of Washington territory.—News, 2.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.
