THE IMMIGRATION INTEREST.

Advice to Oregon on the Subject of Immigration.

SAN FRANCISCO, March 17.—This city and, in fact, the entire state is enjoying a boom, and is just at present somewhat overcrowded with visitors. Your correspondent thought that much of this surplus population was undoubtedly flowing into Oregon and Washington territory, and with the intention of getting information regarding the matter in order to telegraph it to the Oregonian, called on J. E. Shepherd, who, for many years back, had been acting as immigration agent of the Oregon state board of immigration. Great was my surprise when it was learned that virtually no means were being used to divert some of this profitable and desirable class of people toward the north. So important a dereliction on the part of some one was worth investigating, not so much for the purpose of attaching blame to any one as to remedy the matter. In order to get at the bottom of this condition of affairs Mr. Shepherd was asked to go into details leading up to the present condition of inertia on the part of Oregon regarding so vital a point relating to her advancements. He did so as follows:

Ten years ago I was placed in charge of Oregon immigration in this city by the state board of immigration and did all in my power by personal efforts to induce immigration by visiting new arrivals at hotels where they were stopping. In this I was very successful, but the board of immigration appeared to lose interest in the matter, and did not second my efforts as well as they might have done. About three years ago the Northern Pacific land department took the matter up and kept me supplied with pamphlets and other printed matter describing the attractions of Oregon and Washington territory, and this much facilitated my labors and good results followed. But even this aid fell away about six months ago, and now all I have with which to work upon the minds of immigrants is a small quantity of exhibits in an out of the way office at 596, Battery street, while agents who are in this city in the interest of interior counties of California have an unlimited amount of printed matter setting forth the merits of their localities, and offices in the part of the city that most new arrivals frequent. These disadvantages under which I have been laboring have almost entirely discouraged me, and my endeavors of late have mostly been in the interest of the Northern Pacific railroad company, by whom I am at present employed as their San Francisco passenger agent. If, however, I were furnished with a liberal supply of the right kind of printed matter about Oregon, I am satisfied that I could not only do better for the railroad, but also for the interests of the entire state. People who should take this matter in hand suppose, in all probability, that because I have been engaged in soliciting immigration for so long a period that I ought to make my tongue do service as a pamphlet; but this is impossible where hundreds of people must be told the same story as many times; I am quite satisfied that this deficiency was supplied me I could make my labors tell for Oregon in increased immigration. It is a small matter I ask, but yet no one apparently has sufficient interest in the matter to furnish it.

Mr. Shepherd stated further that he was principally engaged in trying to induce eastern excursionists now in this city, to return by the Northern Pacific route. In this he has been fairly successful. As many as fifteen to twenty now leave by each steamer every five days. This number he hopes to increase materially in two months, when he expects to secure about 30 per cent. of the excursionists who return east, for the Northern Pacific. There are also from fifty to sixty immigrants, that is, people who intend to settle in Oregon and Washington territory, go up by each steamer. He stated that with the facilities he now lacks, he could increase this class of passengers to 200 each steamer.—Oregonian, 18.

Bread Baked by Boiling.

A writer in a housekeeping journal says: "Bread can be boiled instead of baking it, and with far less heating of the range. Those who have tried the new method consider it to be quite satisfactory. It consists mainly in steaming the dough instead of cooking it in the oven. It is claimed that this is a great invention, as it saves the time and experience necessary to get the oven to the right heat for baking, which has always proved the great obstacle to baking at home. The utensils required are simply these: First, a tin mould, or camp kettle, in which the dough is placed after it has been mixed with the usual ingredients—water, yeast, sugar and salt—and secondly, a larger tin saucepan, into which the mold fits. The water in the outer saucepan is allowed to boil around the tin mold for two or three hours, the lids of both utensils being kept closely down, and at the end of that time the loaf may be turned out. It will be found firm, solid and pliable, with all the qualities of good bread."

Chehalis county has mail difficulties as well as other places. The sub-contractor on the route between Montesano and Olympia threw up the job the other day and skipped for parts unknown, leaving the mail without a carrier. Temporary service is now performed, Cheap contract is the cause.—Pacific Journal.

RELIEF FROM INDIGESTION.

221 SECOND AVENUE, NEW YORK, Jan. 9, 1886.
I deem it my pleasure to testify to the phenomenal effects of BRANDRETH'S PILLS, upon myself in eradicating from my system the most aggravated form of indigestion, the attacks of which were nearly as severe as spasms. After a costly medical treatment two boxes of BRANDRETH'S PILLS have put me in a better condition than I have been for many years.
FRANK W. GILLET.

One of the largest seines in the world is in use near Gloucester, N. J. It is a mile and a quarter long, and each year one-third of it has to be renewed, the work being done in Baltimore. It is used in catching shad, and at the opening of each season thousands of people gather to witness the haul. The first Delaware shtad was recently captured at Bayside, where it sold for 75 cents.

The reason Why Ackerman's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.
J. W. Conn.

In M. Eell's notes on Rev. H. H. Spalding, published in the Pacific, he states that in 1855, when the treaty was made at Walla Walla with the Cayuses and Nez Percés, it was found that about one-third of the 3,000 Nez Percés kept up regular family and public worship. They sang from the Nez Percé hymn book and read, in their own language, in Matthew.

The Wonderful Healing Properties of Darby's Prophylactic Fluid.
Wherever a preventing, healing, cleansing and deodorizing injection or wash is required use Darby's Prophylactic Fluid. Any inflamed surface, external or internal, treated with the Fluid will be quickly relieved. It has effected cures that had resisted the best medical skill.

Wardner, Idaho, has 80 saloons, 12 stores, 2 hotels and a dozen lodging houses.

Don't Trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Ackerman's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.
J. W. Conn.

Five dollars will be paid for logs on the Willapa the coming summer.

Bucklen's Arnica Salve.
THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by W. E. Dement & Co.
—"Hackmetack," a lasting and fragrant perfume. Price 25 and 50 cents, Sold by W. E. Dement.

TAKE SIMMONS LIVER REGULATOR
For all Diseases of the Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1834. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is so intoxicatingly beverage as to lead to intemperance; will promote digestion, dissipate headachae, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, it will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION.
I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. L. M. HINTON, M. D., Washington, Ark.
