JOB PRINTING. Neat, Quick And Cheap at The ASTORIAN JOB OFFICE. Great Loss of Cattle.

Reports from Montana give a deplorable account of the great among stock in that region. It is stated that the loss will be something like 75 per cent. and is spread over a wide region of country. Last fall was dry, and consequently the grass was short-almost a failure. Following this came a very severe winter, nearly arctic in its severity, which found the cattle in a very poor condition to weather the blast. Deep snows and cold, pitiless rain and sleet storms swept over the whole country, and the poor stock had no alternative left but to succumb. In many sections, especially those timbered, the snow reached a depth of twelve feet. Through this the cattle helplessly floundered, until overcome by hunger, weakness and cold they sank down and died-literally in heaps. Since the thaw came, and the vast masses of snow have commenced to disappear, the great losses to stock is beginning to be realized by raisers and ranchmen.

TRIED

CRUCIBLE

About twenty years ago I disc

sore on my cheek, and the doctors pron it cancer. I have tried a number of physicians but without receiving any permanent benefit Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a backing cough and spit blood continually. I had a severe pala in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.
