The Match Industry. A match is a small thing, but in the manufacture of matches one of the greatest cooperations in this country has grown up. It originated in a combination of the leading match manufacturers. The capital stock is somewhere in the vicinity of \$20,000,000 to \$25,000, 000. Last year a dividend of 8 per cent. was declared on this capitalization. The combination does not have entirely clear sail ing. It is obliged at times to put prices down to cost in order to drive competitors out of the business. Talking at the Hoffman House recently with John Robinson, the Chicago manager of the company, he said: "They have got matches down to a fine point n Michigan. They are selling three boxes-that is, 900 matches, for 2 cents. There was a little factory started at Grand Rapids. Matches were then selling at \$2.50 This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and can not be sold in competition with the multi-tude of low test, sh. rt weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO, 106 Wall-st., N. Y. a case. Then we took the initiative and dropped it to \$1. The retailers had stocked up at from \$1.25 to 1.75 which were thought bottom prices. Now they had to get rid of the matches at any sacrifice, and they began to cut. When they had slashed around to the dollar limit, one man, who had been losing trade by the drive on matches, put his down to three boxes for 2 cents. That is 96 cents a case, or 4 cents less than he can duplicate them for. The other dealers offered to buy out his entire stock, but he wouldn't sell. He saw his trade coming back with the sale of matches at that price." It struck me in this episode there was a photograph of American business life of startling vividness .- New York Letter to the Cincinnati Enquirer.

sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians. but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a backing cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to
