

The Daily Astorian.

ASTORIA, OREGON:
SUNDAY, APRIL 2, 1887.
Hansen & Co.'s "Nerve Food" is the newest thing in the market.

On Tuesday at ten a. m., E. C. Holden will sell a horse in front of his auction rooms.

Capt. Rehfeld is building a substantial steam saw at the foot of LaFayette street.

This is the 104th anniversary of the birth of Washington Irving, who wrote so charmingly of Astoria.

A. W. Berry has bought the steamer Union and will send her to the Cape Fox, Alaska, cannery on the 11th inst.

All evening services in the Presbyterian church will, in future, begin at half past seven o'clock.

Arndt & Ferchen have sold their steamer Daisy to Erik Johnson, the owner of two salmon seines near Woody Island.

Note the adv't of M. C. Crosby regarding the "Superior" stoves. The fire backs to these stoves are guaranteed for fifteen years.

Albert Sunderland, of Portland, has been appointed state dairy commissioner, vice W. W. Baker, whose term of office expired last week.

A. W. Berry is shipping cannery machinery and material to Cape Fox, Alaska; B. A. Seaborg is sending a similar outfit to Fort Wrangel, Alaska.

Rescue Hose Team will meet today at two o'clock to elect the officers for the ensuing year, and commence arrangements towards taking part in the forthcoming tournament to be held at Vancouver in June. By order of the captain.

Those incandescent gas lamps are fast winning their way to popular favor. They only need to be seen to be appreciated. G. W. Moen, superintendent of the Astoria Gaslight Co., is busy placing several more and they give universal satisfaction.

Yesterday the British ship Loch Ranza, and British bark Mobile Bay cleared for Queenstown; the former carries 55,255 bus. wheat, valued at \$44,780, and the latter 65,633 bus, valued at \$54,000. The British bark Bangafhire, 899, from Brisbane arrived in.

Geo. Wassgoner, of Corvallis, Benton county, has been appointed by Gov. Penneyer, as the Republican member of the newly created railroad commission. Ex-senator Jas. H. Slafer, of La Grande, is the Democratic member. They will appoint their clerk this week. The pay of each commissioner is \$2,500 a year; of the clerk, \$2,000 a year.

District attorney McBride tells the editor of the Astorian that Fred Vickers had been foully dealt with, and that it was competent for the county court to offer a reward for information leading to the discovery of his whereabouts, or the cause of his disappearance. Vickers accompanied Clominger at the time of the killing of Frank Pierce, and has not been seen since the preliminary examination in St. Helens. His testimony would have turned the scale either way and there is sufficient ground for belief that he was foully dealt with to justify the court in offering a reward.

At the rooms of the state board of immigration, says the Telegram, there is a constant inquiry for information relative to the Nehalem country, and particularly as to the means of getting over there at this season. Within the last month or so a good many new comers, and a number of people who have been living here for a year or so, have gone into that locality. A few try the road through Forest Grove, though most of them go by St. Helens, Westport and Clatskanie. There is a good deal of government land in that region, brush and timber land, but the soil is exceedingly rich and easily cultivated, once it is cleared for the plow. The prospect of a railroad between Astoria and Tillamook City has given that locality a boom.

There will be a meeting of the Columbia River Fishermen's Protective Union at Liberty Hall at 7:30 p. m., Tuesday, April 5th, 1887.

Geo. Johnson, Secretary. A. Sutton, President.

At Mrs. Malcolm's. The new and attractive display of Spring Millinery, Trimmed Hats, etc., will be ready for view to-morrow and Tuesday. There will be no regular "opening," being too busy, but ladies are invited to call and examine the latest styles.

Members of the Scandinavian Benevolent Society are hereby notified that the next regular meeting will be held April 12th, being the 2nd Tuesday in the month.

LATEST TELEGRAPHIC NEWS.

Total Destruction of Hotel Del Monte. Wire Whispers From All Parts of the World. PORTLAND, April 2.—E. W. James, who accidentally shot and killed Mrs. Newton at Albina, four weeks ago, was today sentenced to one year in the penitentiary.

DESTRUCTION OF A FINE HOTEL. MONTEREY, Cal., April 2.—The Hotel Del Monte at this place was discovered to be on fire at eleven o'clock last night. There was no means of getting it under control, and the entire structure with everything in it was consumed, except a very little furniture which was got out. It is thought that no lives were lost. It is not now known how the fire originated. There were 300 or more guests all of whom escaped, some only had on their night clothes, and huddled together on the grounds shivering with cold. The flames destroyed both buildings. Most of the guests were eastern people. They will probably put up at some of the other local hotels, and wherever they can find accommodations. Some of them lost everything.

MORE ABOUT THE FIRE. SAN FRANCISCO, April 2.—From information received this morning it is learned that about 200 of the guests at the Hotel Del Monte, at Monterey, which was totally destroyed by fire last night, will leave on the first train this morning for San Francisco.

IT WILL BE REBUILT. Chas. F. Crocker, the vice president of the Southern Pacific Railroad company, was seen at his residence early this morning. He stated the Hotel Del Monte cost \$350,000 and was not insured. It will probably be rebuilt as the investment had proved very profitable.

INCENDIARY. MONTEREY, April 2.—It is believed here that the fire was the work of an incendiary. The evidence can hardly be set aside in view of all the facts that have been reported to the Pacific Improvement company.

MANY NARROW ESCAPES. SAN FRANCISCO, April 2.—Many of the guests arrived to-day from the Monterey fire. They report many narrow escapes from death while the fire was raging.

AN ACCOUNT OF THE FIRE. MONTEREY, April 2.—Later: The fire in the Hotel Del Monte was discovered in the battery room. The alarm was given at once and the gas throughout the building cut off from the main tanks. The building had water pipes running all through it, and arranged in such a manner that in case of a fire the building must be flooded from top to bottom. No sooner was the fire discovered than the water was turned upon it but all efforts to save the building were in vain. The alarm was given in the town as soon as the fire was discovered, and ten minutes later the Monterey fire department was throwing two streams of water on the building but to no purpose.

FURTHER COMPLICATIONS. LONDON, April 2.—Great excitement has been created in France to-day by the act of Germany in expelling from the reichstag the member from Alsace and Lorraine, and forcing him over the frontier into France. The plucky member intends to return to Berlin through Belgium and demand his seat.

A WORTHY MEMORIAL. AMHERST, Mass., April 2.—The alumni association has taken steps to endow a professorship in the college in honor of Henry Ward Beecher, who graduated from that college in the class of 1834.

PAYING THEIR DEBTS. SAN FRANCISCO, April 2.—The Southern Pacific Railroad company paid five million dollars on the indebtedness of the company to the the government, under the provisions of the Thurman act yesterday.

OUT OF THE WORLD. A rough looking man, too drunk to give his name, committed suicide in the Chicago saloon on Third street last night by swallowing an ounce of chloral hydrate. He was taken to the receiving hospital, but failed to recover consciousness, and died the same night.

A MUGWUMP MINORITY. CAMBRIDGE, April 2.—At the debate at the Harvard union held last Thursday evening a large and enthusiastic body of students turned out to hear the question discussed.

"Resolved, That the best interests of the Republican party require in '88, the nomination of Jas. G. Blaine." The vote was on the merits of the question and resulted in favor of Blaine by a vote of 80 to 71.

SMALLPOX IN CALIFORNIA. SACRAMENTO, April 2.—Dr. Tyrrell, the secretary of the state board of health, received a telegram to-night which says the extent of the smallpox in the southern part of the state is as follows: Los Angeles, 15; Downey, 4; Pasadena, 1; Ballona, 1.

A DYING REPORTER'S SPECIAL.

Pathetic Story of a Railway Accident—Tony B's Last "Scoop."

It is not so many years ago that Tony B., the attacks of a central Iowa paper, now defunct, rode out from a southern Iowa city, one bright morning, perched daintily on the brake of a flat car that was attached to a "wild freight" and loaded with iron rails. He was like other reporters, made up of vices and virtues—only the first seen by the world, the latter best known by his intimate friends. He had been in newspaper work for about six years, was thoroughly capable, and scored more "scoops" than was ever recorded against him. This, in the eyes of the city editor, insured his entrance into paradise.

To make the story short, forty miles out from its starting point the "wild" freight, with a leap of madness and a terrible crash, went through a bridge, down sixty feet, and Tony sitting on the brake beam. It was over in an instant. Such things don't wait for time to catch up with them. When the conductor of the train (the only one uninjured) crawled out of the wreck, his eyes fell first on Tony, lying across the side of a dismantled box car, on his chest a heavy rail, his legs crushed, and dying. Beyond him lay a dead brakeman; the engineer was buried under his machine, and by a large boulder was the fireman with a broken back. Tony was conscious, and when the conductor reached him asked for paper and pen-cil. They were found in his pockets. Unable to write himself, he dictated this, angrily ordering the men who had come up to let him alone:

"C. C. —, Managing Editor Star, —, Iowa: Train through bridge at —. Was on board and am hurt. Will send full particulars at once. T. B."

A farmer was secured, who conveyed it to the nearest station. Then this boy, true to his duty and not flinching before death, suffering frightful agony, and while willing hands sought in vain to release him from his position, dictated a "special" of 1,500 words to his paper. What he suffered no one can ever know. It was with difficulty that he could breathe and every gasp cost him a wrench of agony. But he held death back down to the last few lines, "The killed were —" and so on, ending with the name of "Tony B., reporter." As he ended that his eyes filled with tears, and he looked up wistfully at the conductor, who had written the telegram for him, and who himself could not keep his tears back. "Tell my mother," said Tony, "that I did my duty; and, boys, rush that over the wires for me. It's a 'scoop.'" It went over the wires all right, and it was a "scoop," but before it was printed Tony was dead. —St. Paul Pioneer Press.

RECEIVED BY THE POST. ROME, April 2.—The second audience given by Pope Leo XII to Americans took place to-day. Those favored with cards include Mrs. Bowdin and daughter, Miss Streeter, Thos. Growley, Mr. Merry and family, Mr. Jennings, Major Huntington, F. McVeagh, Mr. Spooner and family, Mrs. Clark and daughter, Mrs. Bigelow and daughter, Mrs. McPherson and family, Mrs. Sanderson and Miss Parsons.

FIGHT ON THE TEXAS FRONTIER. GALVESTON, TEXAS, April 2.—A special to the News from San Augustine, east Texas, near Louisiana, says: A terrible fight occurred last Friday morning about ten miles below Hem-onhill, in Sabine county, between Capt. Scott and a little company of state rangers on one side, and old Willis Connor and sons on the other. Three of the Connor family and one ranger, named Rogers, were instantly killed. Capt. Scott and another of his men were badly if not fatally wounded, but the rangers are in pursuit. Connor brought on the fight by firing from an ambush upon the rangers who were hunting for timber thieves.

SUPPLYING THE OMISSIONS. LONDON, April 2.—Lord Cadogan omitted two important clauses in his expositions of the land bills in the house of lords Thursday: one of these provides that in future that judicial rents shall be reckoned from the date of application instead of the date of judgment of the land court. The other clause provides that the tenants arrears in asking judicial rents be fixed so that all shall have their arrears estimated on the same basis.

Salmon and Trout. In May, 1885, J. W. Welch procured 200 diminutive specimens of the fish tribe from boys who dipped them up from a little stream flowing into Young's bay near Max Wagner's. They were about an inch in length, and as they waxed fat and grew, time developed the fact that of the 200 minnows, 150 were chinook salmon, and 40 mountain trout. As they grew the difference was more plainly marked, not only in their appearance but in their characteristics. The trout were all right, and appeared as though they were growing; the salmon, as soon as they reached much size, became uneasy and were continually trying to get away through the waste pipe, jumping in endeavor to get over the sides, anywhere so that they could get to the salt water, their home.

The trout continue to grow, some of them having attained respectable size; the salmon stopped growing when about six inches in length and appear to consume themselves in fretting for salt water. Their habits form an interesting study to those interested in the matter.

Enjoy Life. What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health, but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Constiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

The Latest and Greatest Discovery. DR. J. DE PRATTS HAMBURG FIGS.—A crystallized fruit cathartic. A discovery of the greatest interest to the Medical Profession. A boon to every household. A most delicious laxative or purgative prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaints, habitual constipation, indigestion, dyspepsia and piles, they are a specific. Travelers by sea and land they will be found invaluable; they are positively unailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every Druggist throughout the world. Price, 25 cents a box. J. J. Mack & Co., Prop'rs, 9 and 11 Front street, San Francisco, Cal.

Correct Navigation Requisite. The latest kink is an mel-broad band of velvet tight about the ankle fastened by a Rhinestone, gold or fancy buckle. A pretty stocking, a pretty slipper, a pretty ankle, and a pretty hand are the requisites and the result is "fetching," provided, of course, that you navigate correctly and that they are treated somewhat as the American flag was by the breeze—"half concealed, half disclosing." —Portland New Northwest, 31.

Greatly Excited.
