A POINTER FOR PORTLAND PAPERS.

The British bark Jupiter cleared yesterday for Queenstown, with 12,327 lbs flour, valued at \$43,844. This is the vessel that the Portland papers have been making themselves more than usually ridiculous about for the past few days.

Perhaps this is as good a time as any to say that these howls in Portland about Astoria's sailor runners is foolish. Everyone knows that a man that furnishes sailors to ships is not a Sunday school superintendent, and whether he happens to ply his avocation in Portland or Astoria, he is not, as a general thing, in the business for his health.

There are two little points connected with this matter. First, a sailor shipped in Astoria is not shipped in Portland and that is indeed too bad. And right there is where the reek comes. If the sailors were all shipped in Portland it would be all right. Second, the captains of the vessels are a much abused and long suffering class of gentlemen. They don't know anything about men leaving their vessels: it always grieves an English shipmaster to know that any of his men has been taken off.

If the Oregonian or the News will follow this little pointer they will find material enough for a very interesting column. But THE ASTORIAN doesn't think they will have the sand to publish what they can easily find out in Portland. It would be a dead give away on a good many who hold their heads high in trade there and who would be shocked and piously grieved to suppose that any one in or out of a newspaper office was onto their sly and profitable little racket.

THE ASTORIAN believes in fair play, and kindly suggests to its Portland confreres that a little effort on their part to find out the facts will cause them to change their tone.

Fearful Deprivation In Portland.

This sailor stealing business has been long carried on and has about outlived itself. In many instances boarding house keepers supply sailors, steal them before their vessel leaves and reship them again and again realizing many times. In fact a system of the most fraudulent character has been carried on.

Yesterday Afternoon's Fire Alarm.

At 1:30 yesterday afternoon the fire bell tapped an alarm. The wind was blowing briskly from the west. The department was at once out, the engines having seventy pounds of steam when located. The fire was in the flue and roof of J. C. Ross' building, next to THE ASTORIAN office, the roof of which was quickly covered with men who had carried the hose up ready whenever the water came.

The Woman's Christian Temperance Union meets each Thursday at two p. m., in the Young Men's Christian Association hall. This society was organized in '84 and now numbers thirty four active members. In addition to its regular temperance work, since September, '86, the union has raised over one hundred and eighty dollars for local and other purposes, and has sent to the state legislature three hundred and thirty three names on two petitions—one asking for the prohibitory amendment, and the other coming under the head of "moral purity," entitled "protection of women."

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar bottle at W. E. Dement & Co.'s Drug Store.

Ten cents for a cup of Fabre's nice coffee. Private Rooms. At Frank Fabre's for suppers, parties, etc. The best cooked to order. Get off for oysters. Private Rooms.

TOURNAMENT TOPICS.

The finance committee think that about \$100 will be cleared from Monday night's entertainment, which will form a very handsome addition to the tournament fund.

The Capitals, of Salem, decided by a majority of two, sometime ago, to withdraw from the state firemen's association. Last Wednesday, the Tigler Engine company, of Salem, passed resolutions condemning the action of the officers of the state firemen's association in assessing Salem firemen \$150 for tournament purposes and criticizing Ben Worsley severely.

The Albany firemen are talking of giving a firemen's excursion from that city to Yaguina about May 10th. The Vancouver fire department will give a ball there next Friday, the proceeds to be applied to the reception fund. The mayor and chief engineer there are out securing subscriptions for the same purpose.

The ship Eldorado was wrecked off Cape Flattery last week, and only two persons saved. Here is another chance for THE ASTORIAN to get in its work.—Skagit News.

Oh no. Whenever wrecks pile up at the rate of two a week on that terrible north coast, all promptings of reprisal for the mean utterances of the Sound press are lost in pity for the unfortunate men who are compelled to stand so far north with their hapless vessels, only to lay their bones and the timbers of their ships in that black, tempestuous sea that stretches far north of the smooth and safe waters of the Columbia.

ASTONISHING SUCCESS.

It is the duty of every person who has used Boscche's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

Notice to Mariners.

The British barque Dumbartonshire, Charles A. Newgreen, commander, coal laden, left Sydney, N. S. W., 5th February at noon, with light variable winds, thick, rainy weather; wind hauling southerly and increasing to a strong breeze, continuing to the North Cape of New Zealand, which was passed on the 10th. Wind then hauling northerly and increasing to a heavy gale, with very high sea, lasting three days; barometer very low and to all appearance the tail end of a hurricane. Succeeded with moderate north to NW winds to the Society Islands, which was passed March 7th, with heavy squalls and much rain, accompanied by heavy thunder and lightning storms. Had no southeast trades. Variable winds to latitude 4° north. Took northeast trades, carrying them to Honolulu, which was passed April 24; from there to port light to strong northerly and N. W. winds, with frequent squalls. April 12th, at noon, during a dense fog picked up pilot (Captain Powers) of the bar, who then took charge of the ship and sailed her up to Astoria, and anchored at 10:30 p. m., after a passage of 66 days. All well.
