

### The Daily Astorian.

ASTORIA, OREGON:  
SATURDAY, APRIL 16, 1907

Lieut. Sebree is in the city.

The *Jupiter* sailed yesterday.

E. A. Noyes returned from Portland yesterday.

R. T. Humphreys has Shonwater bay oysters for sale.

Prof. Francis is in the city and will remain for a few days.

P. G. Eastwick, of Fort Stevens, was in the city yesterday.

Mr. Corward, late proprietor of the East Portland *Star*, is in the city.

Very scant catch of fish is reported so far; comparatively few boats being out.

Judge Taylor goes to Oregon City to-day, where he holds court on the 18th.

Carol Crouse is worth \$3,000, "but for goodness sake don't say I told you."

Painters, carpenters, boat builders, and mechanics of every trade are all busy.

With the exception of a China man juggled for smoking opium, the county jail is empty.

The bright sunshine of the past two days gave place last evening to the gentle patter of the rain.

The *Columbia* leaves Portland at nine o'clock to-night. The *State* is due from San Francisco to-morrow.

W. J. Barry has put range lights on Sand Island, an appreciated convenience to voyagers in that vicinity.

Messrs. Noland, Worsley and Parker left for Vancouver on business, connected with fire matters, yesterday.

There was about a ton of pig-iron and pig lead on board the sloop *Rambler*, when she was lost last Sunday.

Capt. Clough, a former Astorian, is about to go into the mercantile business at Wynocchie, Chehalis county, W. T.

The select knights A. O. U. W., hold their drill on the evenings of the first and third Thursdays of each month.

Visitors say we have the finest post-office in the state, outside of Portland. Yes, indeed; or inside either. Why not?

A solitary vag was engaged in cleaning the streets yesterday. He has a long contract unless he gets considerable help.

Subject at the Methodist church to-morrow at 11 a. m., "The Transfiguration of Christ," at 7:30 p. m., "That Dog."

Robt Carruthers has a fine brown two-year old colt that he will match against any two-year old colt in the state for looks.

The seals are reported to have left Sand Island. They have the interstate commerce law under present consideration, probably.

John B. Sherlock, of Tillamook, has master's papers to run A. B. Hullock's little steamer, the *Delphine*, on Tillamook river and bay.

The signal for opening the draw of the Morrison street bridge, at Portland, to steam boats is four short blasts of the steam whistle.

The county treasurer's office is a matter of interest to a good many at present. The interest is on the county warrants now being paid.

Dr. O. B. Estes has received fresh vaccine matter and is prepared to vaccinate any one desiring an effective guard against small pox.

Geo. H. Ward, representing the *Sunday*, is in the city. "There's a chiel among ye, takin' notes, and faith he'll prent'em."

The re-election of G. W. Lounsbury as secretary of the Oregon board of pilot commissioners, was a merited endorsement of efficiency.

Rev. J. B. N. Bell, editor of the *Roseburg Review*, was appointed clerk of the railroad commission last week, and this week he joined the Presbyterian church.

The estimated cost of repairing the ship *America*, recently stranded at San Pedro, Cal., will be about \$20,000. She was bought by Millen Griffiths, of Port Townsend, last week for \$10,400.

Cooks and waiters are scarce on the ocean steamers. The force on the *Columbia* is short, and the *Olympian* is trying to get the required number to cook and set out the food aboard that craft.

The Chehalis *Vidette* is "authoritatively" informed that the tug *Donat* will go over to Gray's harbor and work for the Cosmopolis and Aberdeen mills. The matter is not yet definitely decided upon.

County assessor Sorensen will soon begin issuing his annual little reminders to those of our citizens who are unwisely out of debt, that the time has arrived for a statement of assessable property.

Talking of moss on roofs and the danger of fire, a man who has tried it, says that a little lime sprinkled on the moss just before a shower will effectually remove it. Wonder how

that lime business would work on the moss backs.

Increased Efficiency of the Service at the Cape.

Major T. J. Blakeny, superintendent of the life saving service on the coast, who is up here on his semi-annual tour of inspection of the various stations, returned from North Cove last evening. He found the station at that place satisfactorily conducted, and likewise at Cape Hancock.

Major Blakeny fully appreciates the importance of the stations, and is indefatigable in his efforts to increase their efficiency. By persevering effort he has secured an improvement in the service at Cape Hancock, which will be of inestimable value to the fishermen this summer, in lessening the number on the fateful roll who every year find a watery grave at the gates of the Columbia, and who, in eager pursuit of their avocation, are caught by a southwester or the turn of the tide. By an increase of \$10 a month in the pay of the life crew, the men now enlist for the entire twelve months; they are paid \$50 a month, \$10 of which is held back till the close of the year when \$120 back pay is coming to each one of them.

Beginning at once two lookouts will be stationed on the point, an additional surf-boat brought around to McKenzie's head, and the usual one kept in readiness at the boat house; a gun will be stationed on the point, and a constant patrol kept. Should the lookout note a disaster to fishing boats or other craft, he will at once fire the gun, and remaining at his post indicate by signs to the life crews in the surf-boats, where their help and aid are required. It is thought that in this way the probabilities of disaster and loss of life will be greatly lowered, though, of course, no amount of precaution of this nature will stand instead of required caution on the part of the fishermen in venturing too far out.

Regarding the new life station at the south side of the entrance to the river, Major Blakeny thinks that the best interests of the service suggest no attempt at active work till the jetty is sufficiently advanced in construction to afford a site for the buildings, etc., the idea being to locate the station well out toward the bar, and as close as possible to the end of the jetty.

Major Blakeny has now finished his tour of inspection of the northern posts and will return to San Francisco on to-morrow's steamer.

The Sentence of Marple.

In reference to the reported error in the sentence of R. E. Marple by Judge Boise, says the *Albany Herald*, district attorney Belt is of the opinion that the hanging can take place on the date named. The law on this subject is that when judgment of death is pronounced, a warrant of execution shall be delivered from the judge to the sheriff setting the date of the execution on some day not less than thirty days nor more than sixty days after judgment. The judgment of death was pronounced on Saturday April 9th, and sixty days after would be June 8th. It is claimed by district attorney Belt that the warrant of execution can be issued any time after the sentence, and that as the warrant fixes the time of the execution, it can be issued at such a late date that June 29th will come within the required sixty days, and that no grounds, at least on that point, for ordering a new trial by the supreme court will be found.

The *Yamhill Reporter* says when the warrant is issued to the sheriff to carry out the judgment, imposing the death penalty, it will be fixed that the murderer be hanged June 2nd, 1887.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, gleams and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that *Green's August Flower*, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of *August Flower* will prove its wonderful effect. Sample bottles, 10 cents. Try it.

WASHINGTON, April 15.—Private secretary Lambert says although importuned by politicians of both parties to call an extra session in October the president will not agree to it; so there is no probability of any such call.

**A STRONG APPEAL FROM SAN FRANCISCO.**  
A communication has been received addressed to the commissioners, from San Francisco, about the interstate law as follows: "All the productive and monetary relations of this coast are threatened with disorder and much loss. Nothing but quick and wise action on your part can save this coast from tremendous losses that will be sure to follow any illiberal or narrow interpretation of the fourth section of the bill. We ask a suspension of the long haul clause, temporarily, at least, until our position can be placed before your honorable body." This is signed by eight of the principal banking institutions of San Francisco.

**A DENIAL.**  
The department of state denies that Commodore Greene forbade the English man-of-war to fire on Port-au-Prince.

**PROTECTION ENDORSED.**  
HARTFORD, Conn., April 15.—In the state senate to-day a resolution to form a protective tariff was taken up and passed by a vote of 12 to 7.

**A STORMY COAST.**  
ST. JOHN, N. B., April 15.—A terrible gale prevailed along the coast Tuesday and Wednesday, occasioning much loss of life and property. Two barkers are sunk near Rosebland and five sailors drowned.

Officer Linville arrested a man last night who had a wad of stuff in his blankets that was sixteen sizes too small for him, and evidently stolen. Among the goods are a pair of English make trousers, and a coat, a suit of black diagonal goods, two suits of red flannel underwear, a moleskin shirt, pair gray blankets with blue stripes, and two packs "Perfection" smoking tobacco. The goods await identification at the city jail.

The proceeds of the M. E. social at Mrs. Rucker's last Thursday night were in the neighborhood of \$35. Yesterday afternoon the ladies of the church had a novel entertainment at the same place in the shape of a children's social, nearly one hundred delighted little folks being in attendance and all enjoying themselves to their hearts' content.

A Prineville poet stalks forth with this: "The sun comes forth, the goose flies north, the wind blows long and drear. The kid with his kite, the frequent dog fight, all prove that spring is here."

**Rapid Beating of the Heart.**  
Whenever you feel an uneasiness in the region of the heart, a slight pain in the shoulder, arm, or under the shoulder-blade, or when you find yourself short of breath when exercising, or your heart has periods of beating fast, you have heart disease, and should take DR. Increased Efficiency of the Service at the Cape.

Major T. J. Blakeny, superintendent of the life saving service on the coast, who is up here on his semi-annual tour of inspection of the various stations, returned from North Cove last evening. He found the station at that place satisfactorily conducted, and likewise at Cape Hancock.

Major Blakeny fully appreciates the importance of the stations, and is indefatigable in his efforts to increase their efficiency. By persevering effort he has secured an improvement in the service at Cape Hancock, which will be of inestimable value to the fishermen this summer, in lessening the number on the fateful roll who every year find a watery grave at the gates of the Columbia, and who, in eager pursuit of their avocation, are caught by a southwester or the turn of the tide. By an increase of \$10 a month in the pay of the life crew, the men now enlist for the entire twelve months; they are paid \$50 a month, \$10 of which is held back till the close of the year when \$120 back pay is coming to each one of them.

Beginning at once two lookouts will be stationed on the point, an additional surf-boat brought around to McKenzie's head, and the usual one kept in readiness at the boat house; a gun will be stationed on the point, and a constant patrol kept. Should the lookout note a disaster to fishing boats or other craft, he will at once fire the gun, and remaining at his post indicate by signs to the life crews in the surf-boats, where their help and aid are required. It is thought that in this way the probabilities of disaster and loss of life will be greatly lowered, though, of course, no amount of precaution of this nature will stand instead of required caution on the part of the fishermen in venturing too far out.

Regarding the new life station at the south side of the entrance to the river, Major Blakeny thinks that the best interests of the service suggest no attempt at active work till the jetty is sufficiently advanced in construction to afford a site for the buildings, etc., the idea being to locate the station well out toward the bar, and as close as possible to the end of the jetty.

Major Blakeny has now finished his tour of inspection of the northern posts and will return to San Francisco on to-morrow's steamer.

The Sentence of Marple.

In reference to the reported error in the sentence of R. E. Marple by Judge Boise, says the *Albany Herald*, district attorney Belt is of the opinion that the hanging can take place on the date named. The law on this subject is that when judgment of death is pronounced, a warrant of execution shall be delivered from the judge to the sheriff setting the date of the execution on some day not less than thirty days nor more than sixty days after judgment. The judgment of death was pronounced on Saturday April 9th, and sixty days after would be June 8th. It is claimed by district attorney Belt that the warrant of execution can be issued any time after the sentence, and that as the warrant fixes the time of the execution, it can be issued at such a late date that June 29th will come within the required sixty days, and that no grounds, at least on that point, for ordering a new trial by the supreme court will be found.

The *Yamhill Reporter* says when the warrant is issued to the sheriff to carry out the judgment, imposing the death penalty, it will be fixed that the murderer be hanged June 2nd, 1887.
