TACOMA, April 14. To the Editor of the Oregonian: Having passed considerable time this spring in the Sound country and having read and seen considerable of the so called building boom in Tacoma, I will herewith endeavor to give you an impartial account as far as my judgment in building goes. I find that they are putting or going to put up three one-story bricks, four two-story and one three story brick building, all of the very poorest kind, except the three-story brick, which will be a pretty fair building. In the new addition there are plenty of dry goods cases, called houses, going up. In fact, I don't think, bricks and all, that there will be improvements to exceed \$60,000. They have incorporated, in the last two or three days, the Tacoma Dock and Warehouse company, and talk of putting up a 450 foot dock, to handle all the wheat of the inland empire. When the switchback is finished they are going to knock Portland and Seattle off of the map. In fact they claim Seattle now as a new addition to Tacoma but I am afraid that some one will

get badly fooled. My judgment tells me that Seattle is now and will be the queen city of Puget sound when Tacoma will have decayed like Ka-lama, another terminus of the Northern Pacific. The papers claim that the men in business here are whole souled and full of enterprise, but they appear to me as very mossbacked, and want the whole earth fenced with barbed wire to themselves. The whole place appears to be for sale, and you can't step around the corner without tumbling over a real estate agent or town boomer. To hear them talk, a person would think this was going to turn into a paradise. I think when the railroad company gets rid of all the land it owns in this town they will drop it like a streak of light-

everybody is complaining, money being hard to get.
I find that in this place there is no wholesale house of any kind, and don't think a wholesale business could make salt here. In fact, don't see how the people in this place live. It looks to me as if they were living on expectations of the future, when the town is to be as large as Chicago. If you talk to one of the l'acoma boomers (and there are plenty of them) about Portland, the first thing he will say is: "So you come from the little village on the creek.

ning.

do you?" Then he gives you a fill about the Columbia bar. Since I have been in this part of the country there have been more shipwrecks at the entrance to Puget sound than on the much abused Co lumbia bar for five years. I will say no more at present, but shall write you again in the future. JUSTICE.

sore on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians but without receiving any permanent benefit. Among the number were one or two specialists The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a backing cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.
