The Northern Pac. Co.'s Rival.
Nothing in railroad building heretofore in the northwest has approached the rapidity and army like system with which the Manitoba company is sending forward material for the construction of the Montana line. For the past three months there have gone through this place daily, on an average, 175 cars laden with all kinds of construction material. At Minot, the present terminus of the track, 137 miles west of Devil's lake, the company has laid something like ten miles of sidings to receive this material, and along both sides of these numerous tracks are piled great quantities of ties, bridge material, piling and thousands of the best quality of steel rails. Said an old railroad contractor after visiting Minot: "It's worth a day's travel to see these mountains of costly material!" And still it goes forward in increasing quantities. For the past twenty-four hours the train has averaged one in every two hours. And it is estimated that it will require two hundred cars daily the entire summer, of this material to be sent forward that there may be no delay in the building of this great line of road. All engines do not wait at the terminus for the unloading of trains, but hasten back for more cars, and it is not an uncommon sight to see ten of these monster iron horses on their return with a single caboose car attached to each, speeding along the track only a few hundred yards apart. In all this gigantic work there is no confusion, not an accident of any kind has occurred, and all material is separated and placed where it can be reloaded at the minimum cost. The road-bed for a hundred miles west of Minot is ready for the rails, and all bridges (one of which is 1,800 feet long) and water tanks are completed for a distance of 35 miles beyond that point. Several engineer corps are already in the field many miles in advance of last year's work making ready for the army of over 15,000 graders that will soon follow.—*Helena Independent.*

CURE OF PNEUMONIA.
HESS ROAD, NIAGARA CO., N. Y., March 24, 1886.
About a year ago I was taken with a severe pain in both lungs. I was first attacked with a violent chill, then a dreadful pain and then a cough accompanied by a considerable fever. It looked very much like a bad attack of pneumonia. A friend of mine procured five ALCOCK'S PLASTERS. One he put under each arm, one under each shoulder blade, and one on my chest close around my throat. In a few hours the cough ceased, the pain gradually abated and I broke out in a profuse perspiration. I fell into a profound sleep, and the next day was almost well. I wore the PLASTERS eight days afterwards, and have never had any trouble since.

That Terrible North Coast.
VICTORIA, B. C., April 21.—News of a terrible ship wreck, thirty miles north of Cape Flattery on the Washington territory coast was received here this morning through four Indians who came overland, having spent ten days in the journey. For sometime past great anxiety had been felt regarding the schooner *Active*, which was over due. The schooner was owned by Guttman & Co., of Victoria, and was registered at four hundred and twenty tons. Last week Mr. Frank, one of the owners, went up the west coast on the government steamer, *Sir James Douglas*, in search of news of the missing vessel, but has not yet returned. The *Active* was engaged in a general coast trade and had a valuable cargo of assorted merchandise on board, which, however, was not insured. The schooner appears to have been caught in a storm which raged during the early part of the month and to have been dashed on the shore where she speedily went to pieces, all hands undoubtedly perishing as far as known. No one witnessed the disaster, the Indians having their attention first attracted by a large quantity of whisky washed ashore. Bunks, Indian mats, bedding, etc., were all washed up, but nothing actually bearing the name of the vessel. The general description, however, with the nature of the articles reported to have been received leaves no doubt that the vessel was the *Active*.
Among those who have perished are: Mr. Jake Guttman, one of the owners, Captain Gotelamel, Ofia Jackson, Charles Frederick and Billy Lessing, besides twenty-eight Indians. The latter named belong to chief Kilsormat's tribe. Chief Elso Kilsormat himself was on board, the other Indians being hunters. The death of the chief is tantamount to the extermination of the tribes and the Kilsormat tribe will soon be extinct. According to the custom of his tribe all the huts of the unfortunate men have been burned.

Horses, Cattle and Chickens.
For colic and grubs, for lung fever, or hide-bound, I give Simmons' Liver Regulator in a mash twice a day. You can recommend it to every one having stock as the best medicine known for the above complaints. In using it with my chickens, for cholera and gapes, I mix it with the dough and feed it to them once a day. By this treatment I have lost none where the Regulator was given promptly and regularly.
E. T. TAYLOR, Agt. for Grangers of Ga.

The Indian river in Florida is said to be the straightest body of water in the world. A straight line can be drawn through seventy-five miles of its course without touching either shore. It is on the eastern coast of Florida, and is a wide arm of the sea, which is separated from the Atlantic by a narrow strip of land from half a mile to three miles in width.
