

### The Daily Astorian.

ASTORIA, OREGON:

SATURDAY, APRIL 20, 1913

Bishop Morris arrived yesterday afternoon.

Geo. W. Hume left for California yesterday.

Capt. Packard returned from Portland yesterday.

Mr. E. C. Holden will leave for England on the 9th prox.

The State arrived in yesterday morning; the Columbia sailed.

Capt. Wass, who has been shooting geese on Clatsop, reports two nets on the beach.

At the real estate sale this afternoon the terms will be half cash, and half on time.

Lieut. M. F. Harmon, of Fort Canby, is at Vancouver barracks on court martial duty.

Capt. Jas. T. Gray's new houses on LaFayette street are fast approaching completion.

A report from Clatsop says the sloop Rambler is ashore on the beach near the Seaside house.

The stockholders of the Astoria Iron Works will hold their annual meeting at 7:30 this evening.

The British bark Glenmore cleared for Queenstown yesterday, carrying 12,074 bbls. flour worth \$42,259.

At Gray's dock John Rutter is finishing up a large steam scow for M. F. Blake for general freighting business.

At Parker's dock the scaling sloop Ventura is fitting up for a summer's cruise to Behring sea and the vicinity of the Pribilof islands.

Dr. O. B. Estes had a birthday party at his residence last Thursday evening, which was a pleasant occasion to the numerous friends who were present.

At the Astoria Iron works is being fitted up two steam scows to be used at the seining grounds opposite Pillar Rock and above there in hauling in the seines.

S. B. Smith was over from Clatsop yesterday. He reports farming operations of all kinds backward in his section by reason of the long-continued cold rains.

Bishop Morris will officiate at Grace church to-morrow morning and evening. Holy communion in the morning. Service at the Chapel in upper Astoria in the afternoon.

The deep sea fishing schooner Dolphin came in yesterday afternoon with 2,753 pounds of cod, plaice, skate, sole, groupers and other fish. Capt. Harris reports rough weather outside.

At a special meeting of the city council yesterday evening, an ordinance was passed extending the time for the return of the city assessment roll for the current year from May 1st to June 1st.

Chris. Berg, who was seriously injured by falling from the net racks by George & Barker's cannery last Tuesday, regained full consciousness yesterday, and it is now thought that he will recover.

The Clatsop Mill company made a sale of fifteen carloads of railroad lumber to Kansas City parties yesterday afternoon. It's a long way from Astoria to Missouri, but Astoria has the lumber Missouri wants.

The strawberries on yesterday's steamer had considerable flavor, but were evidently lacking in the moisture that has been so overwhelmingly abundant in this latitude. With us fruit of all kinds is backward.

At Arndt & Ferchen's the new steam scow O. K., is finishing; the Quicksilver is receiving new machinery and extensive repairs, and the steamer Union is taking on her final fittings for Cape Fox, Alaska.

Capt. L. A. Bailey is superintending the refitting of the Alaskan. It is authentically stated that Messrs. Troup and Dillingham have leased and will run her this summer. In any event the former will act as captain and the latter as purser.

Scout catches of fish have been reported all through the month. A few isolated catches have been noted when 50, 75, and even 100 fish have been brought in by one boat, but the general average has not been over eight to the boat throughout April.

The salvation army are paying \$35 a month for the room corner Jefferson and Cass and have come to stay. They hold nightly service, and like everything else in this world are to be judged entirely by results. They evidently attract a good many people who don't usually go to church.

Uncertainty is being felt regarding the non-arrival of the British bark Archimedes. She sailed from Liverpool on the 27th of last November, with tin plate, etc., consigned to Meyer, Wilson & Co., and is now 154 days out. The Alahabad and other vessels have made longer voyages, but the outlook is gloomy for the safe arrival of that vessel.

Work upon the new steamer for the Canadian Pacific Navigation company at San Francisco is progressing rapidly. The frame and keel plates are set up and the engines are being put together at the Union Iron Works. She will be launched in June. An Astorian recently in San Francisco was informed that it was

### RESOURCES OF CLATSOP COUNTY.

Probably no county in the state of Oregon has been more content to depend upon the natural advantages it possesses to attract the attention of the newly arrived adventurer, without any aid from the government, than our own county of Clatsop. In the light of experience and results it is very questionable whether or no we have pursued the right policy in regard to this matter. We think not, and are pleased to learn that in accordance with a resolution passed by the chamber of commerce, the president and secretary of that useful organization, Messrs. Bowley and Holden, have composed a pamphlet of some 32 pages on the resources of Clatsop county. Negotiations are now pending for the lithographing of a correct map of the county, showing the location of its navigable streams, its belts of the finest timber in the world and its coal fields, which will accompany the pamphlet; also to secure if possible, from the publisher of the West Shore such copies of engravings of scenes in Astoria and on the lower Columbia, as can be adapted to the size of the book. The pamphlet itself will be a plain, unadorned, but true statement of the resources, agricultural and mineral resources of the county. These inducements it offers to farmers and others willing to work hard for a few years to secure a good farm, to fruit growers who understand how to raise fruit and berries, to lumbermen who know how to run a logging camp, and have foresight enough to see that here is timber enough to supply the world's markets as soon as the railroad companies have time to extend their lines this way.

The commercial importance of Astoria, its home trade, as well as its exports and imports, the capital invested in the fishing business and the magnitude of the salmon industry, will be prominently set forth. Pacific and Waukiakum counties, in Washington territory, our near neighbors, and which contribute largely toward the local trade of Astoria, receive favorable mention, besides other matters which we cannot here enumerate. It is proposed to have the pamphlet stereotyped and give it a large circulation.

LAST EVENING'S ENTERTAINMENT.

Liberty Hall was filled last evening, the occasion being an entertainment given by the Ladies' auxiliary committee of the Y. M. C. A., to aid in furnishing the association's new rooms. First on the programme was a chorus, "Sunbeams Are Glancing," by Misses Flavel, Lawrence, Goodell, Bryce, Connolly, and Messrs. Charneck, Levings, Prescott and Young. This was followed by a fine description of the combat between Roderick Dhu and the Knight of Snowdown, by Mrs. W. S. Kinney. Next came a quartette, "Wandering Down," by Messrs. Middlebrook, Thompson, Young and Prescott, and a clever recitation, "Too Late for the Train," by Miss Sherman.

A series of tableaux, "The Mistake Bought," the song by Miss Gusate Gray, the characters by Misses Flavel, Bryce, Carruthers, Joslyn; Messrs. Charneck, Prescott, Smith and Young, was followed by "L'Ardeur Waltz" by Miss Katie Flavel, who responded to a deserved encore with a Scotch ballad.

The inimitable "Peak Sisters" next appeared and gave a most enjoyable performance. They were eight in number, and where all did so well it would be impossible to discriminate, their songs and instrumental music eliciting tumultuous applause. A duet, "When Life is Brightest," by Messrs. Tarbell and Middlebrook, was followed by a pretty conceit, a large screen on which was painted five pansy blossoms, in the center of each blossom a blooming face, and from the blossoms thus animated the song "Only a Pansy Blossom." This closed the performance, which was in every way a success.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG PILLS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Catarrh to Consumption.  
Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Reciprocity remedies, such as those of ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all diversified remedies. They become resigned to a life of misery rather than torture themselves with doubtful palliatives.

But this will never do. Catarrh must be met at every stage and combated with all our might. In many cases the disease has assumed dangerous symptoms. The bones and cartilage of the nose, the organs of hearing, of seeing and of tasting so affected as to be useless, the uvula so elongated, the throat so inflamed and irritated as to produce a constant and distressing cough.

SANSFORD'S RATIONAL URINE needs every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional—instant in relieving, permanent in curing, safe, economical and never-failing.

Each package contains one bottle of the RATIONAL URINE, one box CATARRHIC SOLVENT, and an Improved ISRAELER, with treatise, price \$1.
