On the "last spike" excursion in September, '83, Henry Villard came out in a gorgeous car. Ever since the '84 collapse it has been standing in the Albina round house, but lately was fixed up and sent back east for him to take another trip to Portland. His memory is dear to many in Port-land, but they would be glad to see him back for all that, as what they lost in Oregon Transcontinental was only a part of what he had enabled them to make.

A Crisis in Trousers.

It is painfully evident that a crisis in trousers has arrived, and the Calumet and St. Nicholas clubs are con-sidering the propriety of a mass meeting to wrest the present fashion from its tameness. There was a time when the lum-tum trouser was like a pegtop, rich and rare. Then came the blazonry of plaids, when every dude's legs looked like a checker tournament. Prophet Poppleton, of Lafayette.

Dr. Poppleton, a wealthy old settler, who lives at Lafayette, has made a prediction. He told C. N. Scott, of this city, a few days since that in 1858 rain fell almost without intermission until July 17th. "Last fall," the doctor said, "I auticipated that in 1887 there would be a repetition of 1858 and I got in my grain as soon as possible. There is every indication that my prediction will be correct. In 1858 there was quite a big flood, fruits and crops were late, but no great damage was done to either." It looks as though Dr. Poppleton had called the turn on the weather. So far his guess holds good.—News, 6.

A CHILD'S SKIN.

Ears and Scalp Covered with Eczematous Scabs and Sores Cured by Cuticura.

MY little son, aged eight years, has been afflicted with Eczema of the scalp, and at times a great portion of the body, ever since he was two years old. It began in his cars, and extended to his scalp, which became covered with scabs and sores, and from which a sticky fluid poured out, causing intense itching and distress, and leaving his hair matted and lifeiess. Underneath these scales the skin was raw, like a piece of becisteax. Gradually the hair came out and was destroyed, until but a small patch was left at the back of the head. My friends in Peabody know how my little boy has suffered. At night he would scratch his head until his pillow was covered with blood. I used to the his hands behind him, and in many ways tried to prevent his scratching; but it was no use, he would s ratch. I took him to the hospital and to the best physicians in Peabody without success. About this time, some friends, who had been cured by the CUTICURA REMEDIES, prevailed upon me to try them. I began to use them ou the 15th of January last. In seven months every particle of the disease was removed. Not a spot or a scab remains on his scalp to tell the story of his suffering. His hair has returned, and is thick and strong, and his scalp as sweet and clean as any child's in the world. I cannot say enough to express my grailtude for this wonderful cure by the CUTICURA REMEDIES, and wish all similarly afficited to know that my statement is true and without exaggeration.
