DO NOT POISON YOUR SYSTEM with medicines you know nothing about. Nearly every so-called remedy for Rheumatism and Neuralgia now offered to the public contains powerful and poisonous medicines that injure the stomach and leave the patient worse off than before.
 Do not use them, but take "the old reliable" one that has stood the test for twenty-five years. One that is free from anything injurious to the system, composed wholly of roots and herbs, the medical properties of which are particularly adapted to blood diseases.
 Dr. Pardee's Remedy is safe and effective. Can be used by both old and young with beneficial results. Five hundred dollars will be paid for any case where the use of Dr. Pardee's Remedy has in any way injured the patient.

Free Masons in Guise.
 When the cooler breath set in from the direction of the river, we set out once more to complete the circuit of the city of Abeokuta, on the gold coast of Africa. Outchic was sent to gather up our baggage, while our guide proposed to lead us where we could find lodging with a "tribe," as he termed it, of very "quiere" people. He described them as "having motions." This seemed very definite. We had already imagined that motions were incident to all animated beings. He persisted, however, in his statement, and added that they were motions different from those of other people. He also positively asserted that they could fly, and although no one could see them when they were in the act, yet they must fly, for they took messages down to the coast and brought back the answers, doing the whole business in a few hours—always in the night.
 He also declared that there was a tribe of these "motion" men upon the cannibal coast of Apollonia, to the west of the gold coast. Now we would give no space to recording this gabble if subsequent developments had not made it worthy of note. To my question if they had no other name, he said: "Oh, yes, they are Free Masons." Now we admit that this confession caused some perturbation in our hair. We had supposed that our experience with the mystic brotherhood had been a bona fide business, but we had never been initiated into this rite. Here was an opportunity to take another degree. The dividing distance was soon passed over, and the colony of "motion" men was reached. They proved to be an industrious tribe, rather above the standard in intelligence, and were as a matter of fact accepted Masons. Various trials proved this, and an exhibition of work showed them well up in the craft. They claimed kinship under a dispensation from the East, dating back beyond their remembrance. But they were working an unmaasonic scheme by practicing on the superstitious notions of the uninitiated, and quietly pocketing no small gains thereby.
 They had some means of rapid communication with the coast, and when an order was given to carry a message, they would put off the time of carrying ostensibly, but would set in motion their secret agents at once, and on the day when they declared the omens all right would "fly by night"—so thought the ignorant native—and in one night bring back an answer. They were acknowledged to be honest and faithful in carrying money and valuables, and were the expressmen for the residents in all money transactions with the coast. We did not give them away, but very much astonished our interpreter when he saw us received by them as a brother. He ever after regarded his employer as a mystery.—(Guinea Correspondence Boston Commercial Bulletin.)

HAMBURG FIGS.
 Probably as much misery comes from indigestion as from any derangement of the functions of the body, and it is difficult to cure for the reason that no one likes to take the medicine that is usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found effective as well as pleasant to the taste of women and children.
