TRIED IN THE CRUCIBLE.

About twenty years ago I discovered a little secret on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent benefit.

Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up.

My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.
