How Rain Is Produced.

The American Inventor asks, did it ever occur to the reader that there is just as much water in the air above him on a clear, bright day as on a cloudy or rainy one? Rain does not come from somewhere else, or if it is wafted over you by the wind from elsewhere the water that was over you is simply wafted on to some other place. What is said above explains this. Water is absorbed in the air above us, at a certain temperature, and it becomes insensible. Cool that air by a wind draft of cooler atmosphere, or by electrical or chemical influences, and the moment the air becomes cooler it gives up some of the watery particles that were insensible or invisible at the higher temperature. These small particles thus given unite, and when enough of them coalesce, obstruct the light and show as clouds. When enough of them unite to be too heavy to float in the air, they begin to descend; pair after pair of them come together until a rain drop is formed. One of these minute

raindrops is made up of millions North Pacific of infinitely small watery particles. Air passing over the cold tops of mountains is cooled down so that it gives up a good deal of the concealed watery vapor, and hence little rain falls in the region along the lee side of such mountains. Patronize Home Industry! This is why so little rain falls in

Colorado and in other places north and south of that state. The prevailing winds blow from the west, and the cool tops of the Rocky mountains lower their temperature and thus take out the moisture that would otherwise fall in rain.

GOOD NEWS FOR THE AFFLICTED. A Remarkable Cure

of Rhoumatism and Catarrh.

Baldwinsville, N. Y.

Pardee Medicine Co.
GENTLEMEN: —About one year ago
I chilled my blood and was under the Doctor's care for about six months when I had a counsel of eight physi-cians and was given up to die. Soon after, a lady friend came to see me and told me about your great Remedy. She said she had been cured by it after having the rheumatism seven years, and that her rheumatism was first brought on by a cold. At this time I was suffering severe pain all through my body and near my heart. The doctors called it only "frozen blood." Through the persuasion of my friend I procured a bottle. I found some relief. Seeing this I procured more and was entirely cured by its use; and what was my surprise and pleasure at finding that I was not

only cured of my rheumatism, but the catarrh, which had been troubling me for years, and had become very offensive, had entirely left me.
Wishing your remedy every success, and thanking you very much for my double cure, I remain,

Truly yours,

MRS. LUCY BRONSON.

Rochester, N. Y. GENTS :-- I was confined to my bed with Inflammatory Rheumatism for over a week; was very badly afflicted, suffering from severe pains in my chest, it was going to my heart. On Thursday the 15th I commenced us-ing Dr. Pardee's Rheumatic Remedy at 9 o'clock, P. M., and on Saturday the 17th, was able to walk all over the house, and have since continued to improve and take pleasure in to improve, and take pleasure in recommending it to all who are afflic-

sore on my cheek, and the doctors pronou it cancer. I have tried a number of physicians. but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappear ing. I would advise every one with cancer to give S. S. S. a fair trial.
