ASTORIA, OREGON:

FRIDAY, MAY 27, 1887.

Reserved seats for Baird's Minstrels at the New York Novelty Store.

Capt. David Williams, of Ilwaco, goes in command of the Venture.

The Gen. Miles came in from Seattle yesterday with 100 tons coal.

The Oregon is due from San Francisco this morning; the State sails.

To night Prof. Aulgaire will deliver another free lecture at upper Astoria hall. All are invited.

Road tax in district No. 7 is being collected. It is a good sized district and holds a good many large tax payers.

The funeral of the late Wm. Wilson took place yesterday afternoon, conducted by Seaside Lodge No. 12, A. O. U. W.

The first excursion of the season will be on Sunday, The Gen. Canby going to Fort Canby and Ilwaco, leaving Gray's dock at nine A. M.

Rev. Mr. Hall will deliver a Memorial Day address at the Congregational church next Sunday evening, the text being "What mean ye by this service?"

Two shad, a male and a female, the latter with roe, each weighing about four pounds, were caught the other day near Clifton, further up the river than is usual for these toothsome fish to go.

Stockholders in the Astoria building and loan association can get their stock certificates, by-laws, receipt books, etc., on application to A. S. Reed, the secretary, at Griffin & Reed's.

Rev. Mr. Hall, pastor of the Congregational church, will deliver a short oration at the Memorial services held by Cushing Post No. 1, G. A. R., next Monday, Memorial Day, the 30th inst.

A force of men under direction of the Oregon Paving and Contract company is busy opening a quarry at Tongue Point, above the buoy depot, with a view of using the rock at the mouth of the river.

No marriage license has been issued from the county clerk's office this month—an unprecedented occurrence. However, if all tales be true there will be several of these documents asked for before long.

While playing in the rear of the premises, last Wednesday, L. W. Holt's four-year-old son fell off into the water below, but was promptly rescued by his father without sustaining any material injury.

Dr. Jay Tuttle, grand chancellor of the K. of P. of this state, starts this morning on an official visit to the several lodges throughout the state. There are 25 K. of P. lodges in Oregon and it will take him about a month to complete the circuit.

The matter of celebrating the coming Fourth of July is in the hands of a general committee, consisting of J. H. D. Gray, C. J. Trenchard, I. Bergman, C. B. Watson, J. W. Welch, C. W. Fulton, C. H. Cooper, Thos. Dealy, B. S. Worsley. When they meet again it will be to hear the report of the finance committee, composed of C. H. Cooper, A. V. Allen, M. Ford.

The volume of laws passed at the last session of the legislature has about as few mistakes as appear impossible to avoid in a work of that nature. In the title to the act creating the office of recorder in certain counties the names of Linn, Marion, Washington and Yamhill are the only ones mentioned, while in the body of the act are mentioned Umatilla, Union, Clatsop and Olackamas. Of course the law will be construed to apply only to the counties specified by name in the title.

Regarding the bark Helen Atmy, due from San Francisco with combustibles aboard, the city council will this morning convey instructions to harbor master Curran to order the vessel upon arrival in the river to lie a mile away from the city; it will be optional with the master of the vessel whether he lies below Smith's point or above Tongue point; the point is to have the vessel far enough away from the city so that, should she blow up, there would be somebody left to see and hear it and report the calamity.

A brand new species of ghost has been unearthed in northern California. It is the spook of an alleged girl, and when the family has gone to bed it comes and fires the fire all ready to start in the kitchen stove in the morning, and splits kindling in the woodshed, and puts some bread to raise, and cleans up shelves, etc. There is some style about a ghost like that. Instead of kicking and getting scared about it, that northern California family ought to silently rejoice over their great good luck. Some folks never know when they have struck a good thing. A ghost like that is a handy thing to have around so long as it behaves itself and doesn't break the dishes and remains invisible to the juvenile members of the family.

The captain of the River Indus, now lying at the foot of K street, East Portland, is a much distinguished man. "I was sent out here to get a cargo of wheat and salmon," he said to a reporter, "but when I got here and asked for my cargo, I was told that the wheat would be harvested this fall, unless the crop failed, and that the salmon were out in the ocean, but they were expected to run up the river soon, when they would be caught and cooked and canned;

and some time during the summer there would be enough for a cargo. This is the charming state of expectancy in which I am to lie around here all summer." The doughty captain was assured by a Telegram reporter that crops never fail in Oregon and that time alone was necessary to complete his cargo.

The wreckage reported to have been picked up on the beach, says the Aberdeen Herald, is undoubtedly that of the brig North Star, as the letters R. T. H. S. T. A. would indicate. She sailed from the Sound two months ago, and is among the missing. Captain William Traenor, who was in command of the Trustee when that vessel was lost on the spit off Peterson's Point one year ago, had been in the North Star since that time, but just before sailing on what proved to be her final trip, he was called to San Francisco by the death of his wife, and gave the brig over to Capt. Williams, who has been to Gray's harbor a number of times as master of the brig Orient, and later as mate on the Novelty. The North Star undoubtedly foundered in the gale of April 1st, in which the ships Saint Stephens and Eldorado were lost.

A new departure in the way of carrying lumber coastwise, says the Post, is about to be made by the Fort Bragg Redwood Company. This corporation has had the tug Sea Lion under charter for a month, and has employed her in towing the schooner Nora Harkins between Fort Bragg and southern California ports. Although the schooner can carry but 275,000 feet of lumber, the experiment was successful far beyond expectation. The company is now having a steam schooner with a capacity of 325,000 feet built at White's shipyard at North Beach. She will be launched about June 1st. It is the intention to begin the construction of two or three sea-going barges with a capacity of 800,000 to 1,000,000 feet, and to have the steam schooner tow them up and down the coast. The barges will not be flat bottomed, and they will be fitted out with small masts. They will cost about \$40,000.

OREGON NATIONAL GUARD,  
ADJUTANT-GENERAL'S DEPARTMENT,  
PORTLAND, May 21, 1887.

General Orders No. 1.  
I. In compliance with Section 40, Article II, of the Militia Law of the State of Oregon, passed at the 14th regular session of the legislative assembly, 1887, all organized companies of the Oregon State Militia who avail themselves of the provisions of the said law will hold an election for company commissioned officers on June 1, 1887, or as soon thereafter as practicable.

II. The election of said officers in conformity with the said law will be by ballot, written or printed.

III. The names of all officers thus elected will be forwarded, properly certified by the presiding officer and clerk of the meeting for such election, to these headquarters.

IV. Commanding officers of regiments or battalions are hereby authorized to make transfers from companies having more than sixty non-commissioned officers, musicians and privates, to companies having less than sixty, which is the maximum number allowed by law. By order of the commander-in-chief.

J. C. SNODGRASS,  
Adjutant-General.

**Excitement in Texas.**

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

Trial bottles of this Great Discovery for Consumption free at W. E. Dement & Co.

## A SORROWFUL MISTAKE.

The Ilwaco Shooting the Result of a Misunderstanding.

Further statement from Ilwaco yesterday afternoon confirms the fact that the killing of Ross and the wounding of King at Ilwaco last Tuesday night were the result of an unfortunate encounter between men that had nothing but the same purpose in view, viz: to guard some web that was drying near the town. It appears that an Indian named "Tillamook Tom" had been placed on guard and it was he that excited the suspicions of the party of three and they, demanding to know who he was and what he was doing there, received death dealing shots in response. It is further said that it was only after being fired at and chased till almost run down that the Indian turned and fired on his pursuers.

Bad as the result is, it is with relief it is learned that there was no hostile meeting as at first feared, and the instance serves as a sad illustration of caution whenever fire arms are in the hands of excited and excitable men.

It is learned from a reliable source that Major W. A. Jones, of the U. S. engineer corps is expected down here shortly to make personal examination of the position and location of the traps in Baker's bay, their effect upon the channels, their relation to navigation, etc., and will make a report to the government thereon.

None but the general government can assume requisite control or direction of this much vexed matter, and if some definite conclusion or order concerning it can be arrived at, it will tend to settle a matter over which there has been years of dispute and contention.

Since the above was in type the following was received from THE ASTORIAN'S Ilwaco correspondent:

ILWACO, May 26, 1887.

At the coroner's inquest held yesterday, the jury decided that "Tillamook Tom," the man who was guarding Collier's net, and who shot Ross and King, was justified in doing so, and exonerated him from all blame.

Sheriff Turner searched the house from which those bloody rags were reported to be thrown and found nothing that would lead to substantiate such a report. It started from a gossip neighbor.

Archie Ross' funeral took place at 2 p. m. Services conducted by Judge Dalton, who read the Episcopal burial service in an impressive manner. The Heath family formed the choir, and the school house was not large enough to accommodate the many friends and sympathizers. The remains were buried in a beautiful spot across the Wheldon lake.

King is doing well and will be out soon.

The name of the Indian that killed Ross is Thomas Dalzan. He is the man who killed Duncan at Clatsop plains about three years ago.

**Astonishing Success.**

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

**Important If True.**

A physician maintains that one person out of every five is insane. The other four are cranks.—*Phila. Press.*

**The Verdict Unanimous.**

W. D. Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Harris, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. E. Dement & Co's Drug Store.

Our boys' hose team has definitely decided to participate in the fireman's tournament at Vancouver next month, to which end they are training daily.—*Walla Walla Union, 23.*

**Unnecessary Misery.**

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that it is not like to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

**Private Rooms.**

At Frank Fabre's for suppers, parties, etc. The best cooked to order.
