

The Daily Astorian.

ASTORIA, OREGON:

SUNDAY, MAY 29, 1887

Straw hats.
Dusters, too.
And light clothes.
Salmon still scarce.
Dry roofs; look out for fire.

All the banks and principal business houses will be closed to-morrow in honor of Memorial Day.

In April, '86, there were 48 cases in the police court; in April, '87, 29; in May, '86, 32 cases; thus far this month, 21.

There will be a big house to greet Baird's minstrels next Tuesday. Reserved seats may be procured at the New York Novelty Store.

The *New Thorney Craft*, a torpedo boat launched last Monday at London, attained a speed on her trial trip, of thirty-three miles an hour.

Messrs. Doig and Harriman have gone to Clatsop beach to bring the McGowan sloop, which is ashore there, to Fort Stevens to be repaired.

The *Gen. Canby* leaves Gray's dock this morning at nine o'clock on the first excursion of the season to Fort Canby and Ilwaco. Tickets for the round trip one dollar.

Postmaster Bell states that the postoffice will be open to-morrow morning from eight o'clock till ten, when it will be closed until the Portland mail is distributed and then will be open until half past six.

In the justice court yesterday, Chas. Woods was under examination, charged with outraging the peace and dignity of the state of Oregon by assaulting with intent to kill, one Jas. Jones. The row grows out of trouble at the seining grounds at Miller's sands, opposite Elliott's landing.

Various newspapers throughout the state are advertising the lottery. It is illegal, and that should cause the press to refrain from setting an example of illegality. Unless the law is enforced it will result in other journals advertising the business and then the law will go on the shelves along with the other sleeping statutes.

The attempt of the Canadians to stock their lakes and rivers with salmon, the *Toronto Globe* says, may be pronounced a total failure. It is suggested that salmon do not return to the place where the fry has been deposited, but return, if it is possible, to the river from which the parent fish had been taken. This is the opinion of so competent an observer as Frank Buckland, and, if correct, it may account for failure in some instances.

Decorations Day, says the *Omaha Republican*, will outlive the gray-haired veterans who now, by common consent, conduct its beautiful ceremonies—it will die only when love of country dies, and the fabric of the republic crumbles. To scatter flowers upon their graves, and care for their loved ones, is all that we can do for the men who have done so much more than that for us. When we shall cease to do that out of the warm gratitude of our hearts, the republic will not deserve to exist as a nation.

The bark *Helen W. Almy*, arrived in Astoria yesterday evening from San Francisco. Among her cargo are 135 tons of giant powder. Upon her arrival harbor master Curran notified the captain that he would not be allowed to lie alongside the dock till the powder cargo was discharged. The captain said that he considered that was reasonable, and would take steps to have the combustible part of his cargo put on a steamer for Portland. He is anchored in the stream opposite the city and will move this morning farther up toward Tongue point.

The Astor House.

This morning the Astor House opens its doors to the traveling public under the experienced management of J. G. Ross, late of the Pioneer Restaurant, who, finding that place too small for his increasing business, has been compelled to seek more commodious quarters. Over \$2,500 has been spent in the last six weeks in refitting the house and it is with pleasure that Mr. Ross invites his old friends to visit him in his new establishment. To the traveling public he offers clean, well furnished rooms and an abundance of well cooked food at very reasonable rates. A free coach will be run to and from the house and no pains spared to suit the patrons of the Astor House.

KISSANE WANTED IN ARKANSAS.

Fires—Railroad Disaster—Hot Weather

NEW ORLEANS, May 28.—Advises received last night from Little Rock, show that the requisition for papers has been issued on Gov. Stoneman, of California, for Wm. Kissane. The object in taking Kissane there is to compel him to repay the amount of his forfeited bail bond, which was paid by Col. Thomas Pearce and Judge Thomas Hawley. It is proposed to put him on trial for the *Martha Washington* case, but it was found that all the material witnesses are dead. The previous decision of the supreme court had deprived the Phillips county court of jurisdiction in the matter. It is thought Kissane has fled to British Columbia.

TO LOCATE DEFENCES.

OTTAWA, Ontario, May 28.—It is understood that Sir Adolphe Caron and Major General Sir Frederick Middleton will start for British Columbia via the Canadian Pacific railway, about the end of August. The trip will be undertaken for the purpose of locating the site of the proposed defences which are intended to be very complete. The armament will include several eighteen-ton guns which were shipped from Halifax about six months ago.

Eight lives are positively known to be lost. Great destitution prevails throughout the burnt district.

LOS ANGELES, Cal., May 28.—A letter received here from ex-director Olvin D. Owen, the originator of the scheme, and Wheeler, the man who represents him in Tobolobampo, as frauds and liars.

TERRIBLE MINING DISASTER.

Devastating Cyclone in the East Indies.

GLASGOW, May 28.—A terrible explosion occurred to-day in the Udston coal pit at Blantyre village, in Lanarkshire, eight miles from this city. Two hundred and twenty miners are entombed in the pit and it is feared all have perished. The shaft is blocked with debris caused by the explosion. Further particulars show that the number of men entombed is less than first reported: Forty-five of the miners who were imprisoned in the upper seam of the pit were rescued, but one died after being brought to the surface; the others are suffering, however, from the effects of the shock. All access to the lowest seam where seventy-five men are confined is found to be blocked by debris tumbled down by the explosion. It was in this seam that the explosion occurred, and it is not believed that any of the men down there can be rescued alive. It is even thought that they are all dead now. There are seventy-five men still imprisoned in the middle seam; hopes are entertained of saving the most of these. Volunteers working for their rescue can hear them calling for help. The pit's head has been surrounded by a large crowd of weeping women and children. Five dead bodies have already been taken out.

DESTRUCTIVE CYCLONE.
CALCUTTA, May 28.—The cyclone which visited this section yesterday was very destructive. A local steamer with seven hundred and fifty persons aboard was caught by the cyclone and is missing. It is feared that she is lost with all on board. The district of Arissa was completely devastated by the cyclone.

BELOIAN SOCIALISTS.
BRUSSELS, May 28.—The socialists have taken advantage of the strikes in Belgium to make demonstrations at various places. They have held several meetings at which violent speeches were made and the red flag displayed and "The Marseillaise" sung.

THE THEATER VICTIMS.
PARIS, May 28.—It is officially announced this afternoon that seventy-five corpses have been so far recovered from the ruins of the Opera Comique. It is expected that 100 more will be found.

RETURNING TO NEW YORK.
DUBLIN, May 28.—Cardinal Gibbins will sail for New York on the steamer *Umbria* to-morrow.

Famous Women.
Madame Trebelli, the greatest of living contractors who has traveled extensively, in fact visited every county and city of note in the world, has just departed from the slope of the Pacific, and often expressing the greatest admiration for the beauty and grandeur of our scenery and the delightful mildness of our climate, left the following written note as a living expression of her opinion in the hands of a Portland druggist, the original of which can be seen on demand.

PORTLAND, OR., April 6, 1887.
Dear Mr. Wilson:—I have tried your "Lobeline" and it gives me much pleasure to say that it is excellent for the complexion, being one of the best articles of the kind I have ever used. Believe me, yours sincerely,
Z. TREBELL.

If any further proof of the excellence of this article is required call on Messrs. W. E. Dement & Co. of Astoria, Or., who, for the small sum of fifty cents, will produce evidence that will satisfy the most skeptical and fastidious and give you a beautiful picture card for the trouble of enquiring.

Their Business Booming.
Probably no one thing has caused such a general revival of trade at W. E. Dement & Co.'s Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

What! Do You Think Jeff of the U. S. gives you a meal for nothing and a glass of something to drink? Not much; but he gives the best meal and more of it than any other restaurant in Astoria.

JEFF'S United States Restaurant is the best and cheapest in Astoria.

FIRST HE WOULD AND THEN HE WOULDN'T

And Then He Cried and Said He Couldn't.

He was clothed in care and a casimere suit and wabbling weakly into W. W. Wherry's wailed wildly for a revolver. From there to J. W. Conroy's, thence to Caraban & Co.'s, and so on to Theo. Bracker's where he bought one, fang down a twenty, invested some of the change in a box of cartridges, and in front of Ober's was challenged by a boot black for a "shine." "Yes, said he, "I am going to kill myself with this revolver, and will die with shiny boots. Shine 'em up." They were shined up and he announced that he was about to kill himself. No serious objection was made but as he was being dusted, Officer Linville slipped the revolver out of the would-be suicide's pocket into his own. The man who still breathed self-slaughter, started round the corner, but soon came back, and going into Spexarth's, swore that he had just bought a revolver and "forgot to take it away." While arguing his case, Linville transferred the box of cartridges to another pocket, and coaxed the man in haste to seek the other shore to a place where the job could be done with no interference from jeering bystanders. This proved to be the city jail, and after a few hours he wept maudlin tears and said he hadn't the nerve to do the dreadful deed. Then he was kindly advised, and wringing his protector's hand, inquired the road to Portland. All this last Friday.

FROM THE ATLANTIC SLOPE.

BOSTON, May 21st, 1887.
The shad catch has been extraordinarily large, and it curtails the sale of other fresh fish; the mackerel fleet have found but few fish—the look is not encouraging. Salmon from the northeastern border begin to come in, iced. The salmon area on the Atlantic coast extends from the Penobscot river in Maine to the extreme northern Labrador, and all around the island of Newfoundland. The inshore question, on these northern fisheries, is a serious one, involving France as well as the United States in complicated conditions. The growth of population and commerce on the continent, demand a new deal as to shore privileges. Queen Elizabeth claimed as the privilege of Britain, the Grand Banks. The claim faded with the enlargement of ideas about sovereignty. The shore rights of fish, to meet the changed conditions of the age, must be enlarged. Merchandise trade dull, stock operations large and gainful, preparing the way for a smash.

Astonishing Success.
It is the duty of every person who has used *Boehme's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

To Illustrate Astoria.
In June, 1883, L. Samuels, of the *West Shore*, devoted the entire number of his issue of that magazine for that month to a well written and superbly illustrated article on Astoria. There were numerous fine views of different parts of the city, public buildings, etc., and the article was such a one as would attract attention. It was circulated extensively.

It is the intention of the enterprising publisher of that magazine to devote his July number to Astoria. The value of writings and fine illustrations in a publication like the *West Shore*, is obvious, and needs no more than allusion for all to see its benefits. Mr. Samuels will be down on the *Telephone* this afternoon. He brings with him a corps of writers and artists, and intends in the *West Shore* for July, to surpass his former best efforts, being now better prepared for adequate representation of the city, its surroundings, its resources, and its advantages. The *West Shore* has a good circulation, and the enterprise will aid grandly in bringing Astoria and vicinity into public notice.
