Considerable complaint is heard from steamboatmen who have to often wait for official action in the way of licenses, inspection, etc., from Portland. It looks as though the requisite thing is to have a district and officials here: here is the headquarters of the business and here should be a district. The creation of a new district would save Astorians considerable time and money.

The O. R. & N. Company has leased the steamboat Bonita and two barges to the Northern Pacific railroad company to transfer passengers and freight from Columbia City across the river to their Tacoma line. In building the inclines for the transfer boat at Kalama and Hunter's point not enough allowance was made for higher water and this year the great rise is likely to put a stop to the running of trains on and off the transfer boat.

Astonishing Success.

It is the duty of every person who has used Boscho's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Freumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

THE BREAK IS REPAIRED

And The Astorian's Specials Come Again.

CHIHUAHUA, Mex., June 2.—A terrible panic prevailed here yesterday afternoon in the Catholic cathedral caused by the falling of a candle and setting fire to one of the altars. The day being a religious holiday the church was crowded to overflowing, principally with women and children. At the sight of the smoke the crowd became frantic, and the usual scenes of horror stricken, struggling humanity followed. Several children were killed and quite a number of women injured.

COMPLAIN OF BAD TREATMENT.

SAN FRANCISCO, June 2.—When the steerage passengers on the quarantined ship Gaelic were transferred to the ship W. H. Macy, the Japanese on board were given the option of remaining with the 1,200 Chinese on board, or going between decks. As all the Japanese were required by law to be vaccinated there was no danger of an outbreak of small pox among them. The Japanese succeeded in sending a letter to the Japanese mission in this city in which they complain bitterly of their treatment on board, of the poor food given them and even of insults to the Japanese married women on board by the customs officials, and complaints have been made by the Japanese consul of the alleged bad treatment by government officials and the steamship company toward the Japanese passengers.

THEIR WEDDING ANNIVERSARY.

SARANAC INN, N. Y., June 2.—The anniversary of the wedding day of President and Mrs. Cleveland dawned beautifully at Saranac Inn. When Mrs. Cleveland sat down to breakfast she found a little cluster of four-leave clover at her place. Early this morning the men fought for nearly three hours in a dancing pavilion thirty miles up the Hudson river. Reagan won by a knockout blow on Files' jaw in forty-four rounds. About 100 spectators were present. Both men fought coolly and carefully.

LOST FROM THEIR BOATS.

The Daily Perils of a Fisherman's Life.

The fishing season of '87 is no exception on the lower Columbia to that of other years in the dismal record of loss of life, it being a matter of almost daily occurrence to chronicle the loss of one or more lives. Since the boats got to going down to the bar, and even outside, the danger has increased. At the present time when the great volume of the Columbia in the June rise makes an almost perpetual ebb as it discharges to the sea, the danger is still greater, as, under the circumstances, there is practically no flood tide and the boats have hard work to get back.

Yesterday the funeral of the late J. J. Kumela took place from Coroner Ross' rooms. He had been here a week, having just arrived from the old country, where he leaves a wife and child. On his first trip he was lost.

The body of Felix Mattson, boat puller for Ang. Mattson, was found yesterday on Clatsop spit. They were lost about two weeks ago. The body of the latter was found the next day after drowning; the former will be buried this morning at Clatsop from the spot where the body was found.

The body of Jno. Reid, who was found entangled in his net at the south side of the break water, will also be given interment this morning. He was from Skamokawa, and was fishing for the Ocean Cannery Co., of Bayview. He is thought to have been a member of Beaver Lodge No. 35, I. O. O. F., but of this nothing definite could be ascertained yesterday evening. He will probably be buried by the fishermen's union, of which organization he was a member in good standing.
