Pleasant music was discoursed by the Western Amateur band at the lawn party at Mrs. John Hobson's last Thursday evening, and the ladies and gentlemen present had an enjoyable time, though the cool weather tends to interfere with the giving of those pleasant parties.

At The Dalles the Columbia rose two and one-half feet in twenty-four hours ending at 5 o'clock last Thursday morning, and is still raising rapidly, being within two and one-half feet of the June 1st high water of 1876. The river there is about forty-two feet above low water mark.

Miss Warren's school room was filled yesterday afternoon, the occasion being the closing exercises of the school. The pupils acquitted themselves very creditably in their various exercises, and at the close the teacher distributed certificates of standing to those who had successfully passed the required examination.

The M. E. congregation of this city intend to have an excursion to Vancouver on the 15th, the idea being that on the occasion of the visit of a Portland congregation to this city, the boat on which they come will carry the Astoria excursion party to Vancouver, and on their return, the Portland excursionists will be carried home.

Villainous Attempt to Destroy Police Officials in New York.

New York, June 3.—Police captain Williams received an infernal machine by express to-day, and barely escaped the results of its explosion by dropping it into a bucket of water when the machinery in it began to work. Another dynamite machine, intricate in construction, was given by an unknown man to an expressman in Jersey City to deliver to inspector Byrnes, but the expressman took it to police headquarters where it was carefully opened without causing an explosion. It is not known whether both machines came from the same source or not.

NO REASON FOR THE ACCIDENT.

CHIHUAHUA, Mexico, June 3.—Great consternation prevails in this city on account of the panic last Wednesday in the cathedral in which three children and two women were killed and sixty persons injured. That such a calamity could occur is astounding, as the cathedral is a massive stone structure with three broad exits and no chairs or benches to impede egress. The building is absolutely fireproof and the fire so insignificant that had the inmates not lost presence of mind, they could all have made their escape easily.

BURNING IT OUT.

NEW YORK, June 3.—The dairy commissioner visited the dairy farm of Edward Brady in Westchester county and found his herd suffering from pneumonia. They made appraisal of the animals and awarded Brady \$12,000 for 200 head of cows, all of which were killed and their carcasses burned. The barns and stables where the animals had been housed, were also ordered to be burned.

OUR SARCASTIC EXECUTIVE.

NEW YORK, June 3.—A special to the Herald from Saranac lake, says: "Your correspondent yesterday asked the president about the story that he intended to make an extended western tour this summer. Cleveland said that he was glad to learn that he is contemplating a transcontinental trip with a possible visit to Alaska. He has never heard of it before, but presumes it must be true if the newspapers say so."

A TERRIBLE HOLOCAUST.

PARIS, June 3.—La France says: "The police authorities are keeping from the public the actual number of deaths resulting from the Opera Comique fire." "Many bodies," it says, "have been taken from the ruins at various times and removed to the morgue unknown to the people." La France estimates the real number of lives lost by the fire as over two hundred.

WANT NO SUNDAY MAILS.

NEWBURGH, N. Y., June 3.—The synod of the reformed Presbyterian church of America in session here has adopted a resolution declaring the violation of the Sabbath by the post office department one of the greatest sins of the government as well as one of the greatest causes of Sabbath desecration throughout the whole commonwealth, and calling upon the organizations of all evangelical bodies in the United States to combine in order to secure the entire abolition of whatever in the post office department is in violation of the Sabbath law.

THE PRESIDENT'S ORDER.

SANTA FE, N. M., June 3.—To-day the president's order was officially promulgated clearing all trespassers off the reservation in northern New Mexico to which the Jicarilla Apaches have just returned. The order does not affect settlers who have acquired title under the land laws of the United States. The herding or grazing of stock is not forbidden if belonging to the Indians. This will require the removal of large herds now on the reservation belonging chiefly to Colorado cattle men.

GENOA SHAKEN UP.

GENOA, Nevada, June 3.—An earthquake shock was felt here to-day so severe as to throw bricks from chimneys while the plastering fell from the walls of the houses and a number of brick buildings were shattered. A second shock of like force would have destroyed every brick building in town.

THE LIFE OF A LIFECREWS-MAN.

Last Sunday afternoon, that unusually warm afternoon among the throng of visitors to Ft. Canby was one, a seafaring man in days of yore, whose vision was yet keen and ideas alert, who noticed the bravery, activity and eagerness of the life crew at the cape to save life. It was about 1 P. M., when the signal gun on the hill was discharged and its report echoed and re-echoed among the hills. It was the signal to call the life crew to work. A boat had been seen, by the vigilant lookout, to capsize in the breakers four miles away in a straight line S. S. E. from Cape Hancock. The crew mustered immediately, all hands stripping to their undershirts and pants, prepared for a ducking and a hard pull, it being one of the worst days this spring for breakers owing to a heavy blow off shore. At 1:10 the life boat left the station. Half a mile out they were in the breakers and watched by many anxious eyes from the hill. A huge sea was seen to strike the boat filling it fore and aft, up to the thwarts, but she soon cleared herself and the crew still pulled head on trying to weather Sulphur spit, when another sea broke over the boat washing the bow oarsmen among the crew aft. In a few moments every man was in his proper place and headway made again with the boat, and she was getting in deeper water when another sea broke over her lifting some of the men from their seats, filling the boat and wresting the tiller from the captain's hand, driving the boat, stern first, one hundred and fifty yards. A steering oar was put out as soon as possible, the boat kept head on to the sea, the rudder was broken and useless, and some more headway was made to smooth water in the south channel where fishing boats were spoken, who reported that the wreck had been secured by fishing boats, and towed into Fort Stevens. Then the life boat dropped anchor; afterwards pulled to the northeast end of Sand island. A heavy northwest wind made it advisable to remain there until 6:45 P. M., when the Puritan came along and gave the life boat, with its chilled and dripping occupants, a friendly tow to the cape. Examination proved that everything about the lifeboat was all right except rudder and rudder fastenings, which have since been repaired by a competent mechanic from Astoria.

This is a leaf from the life of a life-crewman at the cape. Every sea that struck and swept the boat that afternoon was thought by the crowd of people on the hill to be the last of her and the crew. Capt. J. W. Walker commenced young to be a sailor, served his time, learned it thoroughly and is clear headed and cool on duty.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, plains and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

Their Business Booming.

THROUGH the medium of one of your books received through Mr. Frank T. Wray, Druggist, Apollo, Pa., I became acquainted with your CUTICURA REMEDIES, and by this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in our country. I have great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your CUTICURA REMEDIES a trial.

SCROFULOUS ULCERS.

James E. Richardson, Custom House, New Orleans, on 24th Sept. 1876, scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain, and looked upon life as a curse. No relief or cure in ten years. In 1881 I heard of the CUTICURA REMEDIES, used them, and was perfectly cured." SWORN to before U. S. Com. J. D. CRAWFORD.

ONE OF THE WORST CASES.

We have been selling your CUTICURA REMEDIES for years, and have the first complaint yet received from a purchaser. One of the worst cases of Scrofula I ever saw was cured by the use of five bottles of CUTICURA RESOLVENT, CUTICURA, and CUTICURA SOAP. The soap takes the "cake" here as a medicinal soap. TAYLOR & TA. Choking Catarrh.

Have you awakened from a disturbed sleep with all the horrible sensations of an assassin clutching your throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the throat with mucus and strange noises! How difficult it is to rid the nasal passages, head and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure.

The remarkable curative powers, when all other remedies utterly fail, of SANBORN'S RADICAL CURE, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references.

Each packet contains one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and an Elixir for Inhalation, with treatise and directions, and is sold by all druggists for \$1.00. POTTER DRUG & CHEMICAL CO., Boston.
