

The Daily Astorian. ASTORIA, OREGON: THURSDAY, JUNE 9, 1910

At nine this morning—reserved seat sale at New York Novelty Store for Wards performance.

Albany Engine Co. No. 1, has elected J. B. Murray and A. E. Ketchum, delegates to the firemen's convention.

Maj. Brockenbrough, special agent of the interior department, is in the city on an official tour of inspection of land matters, etc.

A brisk little shower yesterday afternoon laid the dust nicely. A little more of the same medicine would be good for growing turnips.

The Oregon arrived in yesterday morning; the State sailed. She took on 725 ca. salmon; 400 Eureka; 325 Scandinavian Packing Co.

The pilot schooner Gov. Moody is alongside the Warwick Castle. She has been painted and overhauled, and will have her masts put in to-day.

The Manzanita goes to Tillamook rock this morning with supplies. A large part of the cargo consists of mineral oil, which will hereafter be used on the rock instead of lard oil.

The closing exercises of the school in district No. 18 will take place tomorrow afternoon commencing at half past one o'clock p. m. The parents and friends of the school are invited to be present.

Rescue No. 2 at their last regular meeting elected C. W. Fulton and J. W. Hare to represent the company in the coming convention at Vancouver. A. H. L. No. 1, elected P. W. Weeks and L. W. Holt.

At a special term of the county court held on Tuesday for the purpose of considering the John Day's road, was read first time; on yesterday it was read second time and allowed and ordered recorded.

There will be a lawn party at Mrs. Dr. Trenchard's spacious grounds this evening, under the auspices of the ladies of Grace church. The party is complimentary to the members of the Western Amateur band, and a general invitation is extended.

The dykes throughout the country have suffered considerably of late from high water. Every year the dykes that are built are made wider, stronger and higher, as experience shows that it is cheaper to build a strong one at the start than to try to keep in repair one built in a less substantial manner.

Murdoch McAllister, a native of Canada, aged 37, was yesterday examined before a commission in insanity and adjudged insane. His particular hallucination seems to be a belief that other people are trying to force their minds into his and control his mental faculties. He will be taken to Salem this morning in care of Martin Poard and G. G. Smith.

Frederick Wards, the eminent tragedian, supported by a talented company, will appear at Ross' opera house next Monday evening, the 13th inst., in his great play "Galba, the Gladiator." The appearance of such an actor as he, is an event in theatrical annals, and the mere announcement is of itself sufficient to fill the house. Reserved seats may be had at the New York Novelty Store. The box sheet opens at nine o'clock this morning.

To-morrow evening the upper Astoria public school will have an entertainment at the church. The programme is an interesting one, and the friends and patrons of the school look for a large attendance. Besides much of merit that the programme contains, the object of the entertainment—the relief of the orphan children of the Nazianon sufferers—is one that appeals forcibly to public charity and popular approval. The tickets of admission are only 25 cents; children under twelve, 10 cents.

A Narrow Escape From Death.

Nils Hansen, of the West Coast Packing Co., drifted out through the south channel last Tuesday morning, about three o'clock, and into the breakers, where the boat upset and the net went adrift. He clambered onto the capsized boat, drifting to sea, and at three o'clock that afternoon was picked up twenty miles out to sea, by the government steamer McArthur, and carried to Shoalwater bay, from whence he arrived in safety yesterday afternoon. He bewails the loss of his boat and net, but is thankful that he escaped with his life. It is no unusual experience for Columbia river fishermen to thus drift out on the trackless ocean, out of sight of land or seeming hope of rescue, and it is only by the fortunate passing of a vessel that the rescue is made.

Special Meeting, C. R. F. U.

There will be a special meeting of the Columbia River Fishermen's Protective Union, at Ross' Opera House, Wednesday, June 15th, at 9 o'clock p. m. Business of importance to be transacted.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that *Green's August Flower*, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of *August Flower* will prove its wonderful effect. Sample bottles, 10 cents. Try it.

Col. Jno. Adair, Jr., it is reported, has a project which will soon be put in operation by which travel to the seaside will be more expeditious. A wharf or landing will be built on the other side of Smith's point, near the oil works and from there the ferry will run to Lewis and Clarke's, a distance of about two miles. From there will be a direct road to the beach, about two miles more. There is a good plank road from Trullinger's mill westward toward the point, and the ultimate idea is to modernize the remainder from the end of the planks to the ferry landing. This will be a considerable convenience and will aid materially in the matter of communication between here and Clatsop. The intention is to have the boat running by the 1st of next month.

Cutting Affray Last Night.

About eleven o'clock last night Officer Whalen in front of the St. Louis saloon, told Dick Dealey, who was intoxicated to go home. Dealey replied in an abusive manner when Whalen put his hand on Dealey's shoulder and said: "Go on home now." Dealey drew a knife and stabbed Whalen in the right side, below the floating rib. Whalen though wounded took Dealey to jail, and with him one Sausstrom, who had interfered. The wound bled profusely. A subsequent examination by Dr. Estes showed that the point of the knife had penetrated the abdominal cavity, and internal hemorrhage was feared. Whalen said he felt no pain, but was relieved from further duty and told to lie as quietly as possible and await further developments in the case.

The sword is a very handsome one, and with the showy belt forms a gift of which he may well be proud.

Wherefore suit is brought to recover the balance due.—*News*, 8.
