

The Daily Astorian.

ASTORIA, OREGON: WEDNESDAY, JUNE 15, 1887

Of the two hundred thousand working women in New York, the highest average earning is \$7 a week. Numbers earn but \$5 a week. Thousands are unable, with sixteen hours' work every day, to reach the lower amount.

GRAVE charges against a state senator were recently investigated by a committee of the Connecticut legislature, who returned the following report: "While we believe every charge to be true, we don't want the fact published to the world, and we therefore exonerate him."

GENERAL ANSON S. MCCOOK, as secretary of the United States senate, has a very pleasant berth. His salary is four thousand dollars a year; he is allowed five hundred dollars a year for a horse and wagon, and five hundred or one thousand dollars as disbursing officer. He is not obliged to be in Washington more than half the year.

COLONEL FRED GRANT, the eldest son of the late General, is said to be developing into a man very much like his father, and, in proof of this, it is told that he is never seen without a cigar in his mouth. He is a dull-looking young man. His eyes have no brightness, his features no characteristics, his complexion no color, and he seems to be simply fat and dull.

JULIO CARRILLO, who once owned the land on which the whole city of Santa Rosa, Cal., is built, who gave the plaza on which the court house now stands, and who gave the ground upon which every church in that city now stands, still lives there, his only resources being the money he receives for performing odd chores for his neighbors.

GENERAL GEORGE A. SHERIDAN says he got more money for less actual service than any other man who ever served in congress. He was not admitted to his seat until about three hours before the expiration of his term, and he drew salary, mileage, etc., amounting to about fourteen thousand dollars. In that respect he thinks his congressional fame will be immortal.

Among curious suggestions made for the celebration of the Queen's Jubilee is the proposal that precisely at noon on June 21st, private individuals should play on pianos and other instruments, "God Save the Queen," and that all the bands of the kingdom should publicly produce the national anthem. It would probably be the greatest chorus ever known of that particular song.

The editor of the Tyler, Texas, Tribune, thus welcomes a boom which he sees approaching: "Flap thy wings and sail on, proud bird of prosperity. No city in Texas has received thee with a more welcome halloo of delight than Tyler. Tyler will feed thee on angel food, and thy bed shall be thy bed, and thy bed shall be her bed, and the gentle wave of appreciation shall furnish thee an everlasting home."

The \$494,600 which Mrs. Grant has received from the sale of her husband's work, represents 70 per cent of the gross profits on the publication, which have thus amounted to about \$706,600. The gross receipts from the sale of the work have amounted to not far from \$3,000,000. There have been sold 312,000 sets, at an average of probably \$9 a set, which foots up \$2,808,000 as a fair estimate of what the public has paid for this work. The skins of 7000 goats and 20,000 sheep have been used for the covers of these volumes.

"There is nothing intrinsically impossible in these statements," said Capt. Clarence E. Dutton, U. S. A., chief of the bureau of volcanic geology, to an associated press representative, who called his attention to the despatches announcing a volcanic eruption in Sonora. "On the contrary, it is a matter of surprise that we have not had some volcanic eruptions in our own territory within the historic period; or, rather, that we have not had more, for it is now known that Mount St. Helens, in Washington Territory, was in a state of activity and sent out large quantities of lava and ashes as late as 1843. I can specify from memory a remarkable evidence of recent occurrence in several localities where violent eruptions have taken place. One is near Fillmore, in Utah; another at the base of Mount Trumbull, on the border of Grand Canon; the third near Fort Stanton, New Mexico, close to the Texas line, and another at Grant station, on the Atlantic and Pacific railroad, 60 or 70 miles from New Albuquerque. There are many others in southern Arizona. I have myself seen lava in which was imbedded a fragment of Indian pottery, showing that the outflow was subsequent to the occupation of the country by the Indians; and two years ago I visited an extinct volcano in northern California which was so recent that some of the trees killed by the heat had not entirely rotted away. We have been gathering data of the Sonora earthquake of May 3d, which gave birth to this new volcano, and we have received from all the affected parts of the country about two hundred reports on the subject—enough, we hope, to establish the comparative magnitude of the occurrence and give us knowledge of the indications and violence of the quakes. Its center seems to have been about sixty or sixty-five miles south of our Arizona line in Old Mexico. Its limits comprehended about two-thirds each of the territories of New Mexico and Arizona. It was not comparable in violence or extent to the Charleston earthquake."

How's Your Liver?
Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.
NEVER BEEN DISAPPOINTED.
As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

An End to Bone Scraping.
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."
Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by W. E. Dement & Co.

In Consequence of a Boom.
"Has this town ever had a boom?" inquired a Boston man of a native who was loafing around a railroad depot in Nebraska.
"I should remark!" was the ready reply.
"Help things much?"
"Well, that's a question. We boomed in two groceries, a mile of sidewalk, three eastern widows, a drug-store and five saloons in one year, and real estate went up 30 per cent."
"Then it must have helped."
"Yes; but we all got so infernally stuck up that me and another feller are the only two men in town what speaks to each other, and seventeen persons backlid from one church alone."

Is Consumption Incurable?
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."
Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at W. E. Dement & Co.'s Drug Store.
