SOCIAL POLITICS.

The organization and working methods of the Labor party of New York city present some novel and interesting features. In every assembly and in most election districts, regular monthly business meetings are held, and in nearly half the districts permanent headquarters have been secured, many of which are open every evening. These district organizations have no pecuniary resources outside of the purses of the members. The hat is passed round to collect funds to pay rent and current expenses, and each member is assessed 10 cents a month, but the charge is not strictly enforced, and receipts from that source are meager and uncertain. Under the circumstances the maintenance of a vigorous organization indicates the zealous devotion of the party to its objects, and accounts for the confidence with which its leaders declare their ability to carry the city at the next election.

It is the social side of this political movement, says the S. F. Bulletin, which forms its most remarkable feature. Members take their wives and children with them to the business meetings of the district assemblies, and in some cases women take part in debate. The assemblies hold "entertainment" as often as business meetings, and speeches, recitations and music displace liquor and tobacco, which, by tacit consent, are forbidden at these labor meetings. A piano is almost as constant a feature of the various district headquarters as a secretary's table, and often very fair amateur concerts are given. In some districts semi-weekly debates on economic subjects are held, and the speakers often show close familiarity with the works, not only of the prophets and teachers of their own politico-economic faith, but of the leading authors on various sides of the question. No such instance of the welding of social and political affairs has ever been known in the United States, except, possibly, in the Grange movement, but there the conditions are so different that a parallel can hardly be drawn. What the ultimate effect of this feature may be on the methods and prospects of the party remains to be shown, but unprejudiced observers admit that its immediate result is good. No doubt it grows out of an enthusiastic faith that this political movement will bring about a decided change for the better in the condition of the working classes. Anticipation is apt to outrun possession in this, as in many other matters, and it would be unsafe to predict the permanence of this feature of political life in New York, or its development in our other great cities.

Losses by fire on the Pacific coast during the month of May, says the Pacific Underwriter, were \$239,119, divided as follows: California, \$218,800; Oregon, \$2,362; Washington territory, \$6,320; Montana territory, \$11,637.

Heart Disease!!!
Read the hospital reports, read the mortuary reports, read the medicine publications, read the daily newspapers, and learn how wide-spread is heart disease, how difficult of detection it is to most people, how many and how sudden are deaths it causes. Then read Dr. Flint's Treatise on Heart Disease, and learn what it is, what causes it, what diseases it gives rise to, what its symptoms are, and how it may be attacked. If you find that you have heart disease, ask your druggist for a bottle of Dr. Flint's HEART REMEDY. The treatise may be had on application to

Meeting of Fourth of July Committee

The committee met Friday evening, June 17, '87, Hon. J. H. D. Gray in the chair. On motion, Thomas Dealey was appointed temporary secretary.

A communication from Fort Canby was read, notifying the president of the committee that a firing party would be sent if transportation is furnished. The communication was received and placed on file.

It was moved and seconded that Mayor Trullinger be appointed president over the day and Col. Jas. Taylor vice-president. Dr. Garner was unanimously elected chaplain of the day. Alex. Campbell was unanimously elected marshal with power to select his aids.

It was ordered that Mr. I. Bergman be appointed a committee of one to see that a suitable barbecue be provided.

Thomas Dealey was instructed to see Collector Hobson concerning the permission to occupy the custom-house grounds.

It was ordered that the committee have power to select a suitable design for a gold medal to be awarded to the best drilled man in Company "H," as may be provided by the members of the company.

It was ordered that the committee on printing be ordered to have programs printed and distributed immediately.

It was ordered that it be requested that the programme be published until July 4th.

Adjourned to meet next Wednesday evening at 8 o'clock.

Thanks of the G. A. R.
At a regular meeting of Cushing Post held Tuesday evening, 15th inst., the following preamble and resolution were adopted:

WHEREAS, On the 30th day of May, 1857, Cushing Post No. 14, Department of Oregon, Grand Army of the Republic, having in connection with other citizens and visiting comrades observed Memorial Day in an appropriate manner, and proceeded to the cemetery, escorted by a guard of honor of the Oregon State troops, where suitable ceremonies were performed at the grave, followed in conclusion by an oration at the church; therefore, be it

Resolved, That the thanks of this Post are due and they are hereby tendered to all who assisted in paying this tribute of respect to our departed comrades.

An End to Bone Scraping.
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c. per box by W. E. Dement & Co.

Special Meeting, C. R. F. P. U.

Should Like The
Judgement of the Fishermen.
The large Furse Salmon Seines, forbid quick handling, by reason of great weight. Good Pursing, is Quick Pursing. Our Mr. Stowe has made since 1838, over 1,500 Furse seines, and their improved capacity has kept pace with their growing lightness. We purpose to supply the salmon Fishermen with Furse seines, say of 1,000 lbs. Stowe Twine against 1,000 lbs. medium patent, and both One size and Strength and Service. We save in ropes and cords, and less labor to handle, more than the excess of cost of the Stowe over the medium patent, and gain largely in Catch, giving us we trust a large net gain. Samples for examination and test will be sent on application to the undersigned.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headaches ensue; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.
As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.

To The Fisheries

The undersigned having had 15 years experience out of the port of Gloucester, in handling all kinds of seines is prepared to engage himself to handle any kind of seines, purse seines especially. And he is also able to find good seines and seines where fish are plentiful. I am also prepared to treat seines by my patent process without which no seine is fit for salt water.
