The Daily Astorian.

ASTORIA, OREGON:

RAILBOAD whispers are fre-

quently heard in these parts nowadays, but whether or not they emanate from railroad authorities is something "no fellow can find out." There is always a certain degree of mystery about the anonymous whispers, however, and perhaps the preblem will not admit of further solution at present.

THE Omaha Herald of June 5 claims the largest single edition issued by any newspaper in the United States. It is filled with facts and statistics about Nebraska, Omaha and cities near by. The paper comprises 48 pages, with more than one-half covered by advertisements. One copy of the paper weighs 124 ounces.

Some one has asked the Baker City Democrat what is the salary of the governor of Oregon, together with the fees of the office. The salary of the governor of Oregon is \$1,500 per year, and besides this he is paid \$200 per year as chairman of the board of visitors to the penitentiary, and \$100 per year as chairman of the board of asylum commissioners. This makes \$1,800 in all, and this is the full amount the governor is allowed from the state. There are a number of men in Oregon who receive larger salaries than the governor of the state.

THE American is the name of a The American is the name of a living expression of her opinion in new publication at San Francisco the hands of a Portland druggist, the which takes for its text the idea that "the Democratic and Republican parties are dead; that both factions are incorrigibly corrupt, and that the hope of the nation is articles of the kind on the complexion, being one of the best articles of the kind of the kind of the kind. in a broad American party, which shall include the best elements alike of our native-born and foreign population." In our opinion the hope of this nation is in education, clear perception of public and private rights, and upon the perception of a rollicy of the perception of a rollicy of the round of the roun the perpetuation of a policy of protection to our best principles

A London journal recently offered a prize of £2 2s. for a rea sonable solution of "What becomes of the pins?" The following reply captured the prize: "A surface of ten miles square contains 310,000,000 square yards. Assume this as the area of London. To include the area of floor surface in houses, it may safely be trebled,-say 1,000,000,000 square yards. If every five square yards contained one stray pin, who would be aware of it? Here, then, we have in London alone a receptacle for 200,000,000 of stray pins unperceived by anybody. The answer, therefore, is that thousands of millions of lost pins can be, and are, scattered about the land unnoticed. Half of these, being out of doors, are gradually destroyed by rust; the other half pass out of doors by degrees."

THERE are indications that in the next general election the smaller parties will act in such a way as to worry the managers of SIGNPAINTING, AND the two great political parties. This is particularly the case in New York, which is still a pivotal state, and the most important factor in all political calculations. The prohibitionists are thoroughly of the great parties in that state in reference to the liquor question. They are fully determined to run candidates of their own, and they believe that they will poll a much larger vote than at the last election in the state. Still more important than the attitude of the prohibitionists is that of the labor party. There is some probability that the labor men will run a presidential candidate of their own next year. They are greatly encouraged by the large vote polled for George in the mayoralty canvass last year, and Candies. Smokers' Articles, Etc. they may take the step of present-

ng a presidential candidate as a means of consolidating the labor vote. The entrance of this factor in the political field would complicate very much the calculations of the older political managers. The prohibitionist vote may be approximately estimated upon the basis of the votes of the last few years, and the managers of the older parties have learned to make allowances for it. With the labor vote the case is different. Nobody knows what its size will be, and it is not known with any approach to definiteness what proportion of it will be drawn from each of the old parties. It is probable, however, that if the labor men decide to show their strength the vote polled will be a large one-large enough, perhaps, to determine the result of the election, at least in New York

A Sound Legal Opinion.

A Sound Legal Opinion.

E. Bainbridge Munday Esq., County Atty., Clay Co., Tex. says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his

life."
Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: He positively believes he would have died, had it not been for Electric Bitters.
This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequaled. Price 50c. and \$1. at W. E. Dement & Co.'s

Madame Trebelli, the greatest of living contraltos who has traveled extensively, in fact visited every county and city of note in the world, has just departed from the slope of the Pacific, and often expressing the greatest admiration for the beauty and grandeur of our scenery and the delightful mildness of our climate, left the following written note as a original of which can be seen on de-

lieve me, yours sincerely.

AKE= SIMMONS

Liver, Kidneys, Stomach and Spleen. This purely vegetable pre-paration, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the Liver, and is, there-fore, the best preparatory medicine, whatever the sick-ness may prove to be. In all common diseases it will, un-assisted by any other medi-cine, effect a speedy cure. Segulator is safe to administer

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headanche, and generally tone up the system. The dose is small not unpleasant, and its virtues undoubted.

No loss of time, no inter-ruption or stoppage of business while taking the Regulator.

Children complaining of Colle, Headache, or Sick Stomach, a teaspoonful or more will give relief. If taken occasionally by pa-tients exposed to MALARIA, will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION. Thave been practicing medicine for twenty years, and have never been able to put up, a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weak-ening) the digestive and assimiliative powers of the system. L. M. Hinton, M. D., Washington, Ark. SEE THAT YOU GET THE GENUINE.
