All Business promptly and accurately transacted.  
Flavel's Wharf, Astoria, Oregon.  
**THIS PAPER** may be found on file at Geo. P. Heustis, Professor Mobile Med. College.

### OF INTEREST TO LUMBERMEN.

Timber owners on the Pacific coast, in the operation of developing their possessions and turning them into money, will no doubt in a great measure repeat the experience of eastern men, but they will, also, in some very important respects, work under much more advantageous circumstances than those the pioneers in the business of lumber making have been compelled to meet and many times overcome. The early work of the sawmills, even in the west, was crude to a degree. Lumber was not cut—it was butchered; and while out of the slaughter there came such choice lots of stock as are hard to equal in these latter days, the waste and useless destruction were enormous. Indeed, economy in sawing is of very recent introduction as a practical measure. It is only within a couple of years or so—since the timber supply was acknowledged to be perceptibly waning—that band saws have obtained a foothold, and the practicability of thin blades and narrow kerfs has been fully recognized. With the Pacific coast operators, who have, as yet, cut but a little way into their immense reserve of timber, all the advantages of recent achievements in the science of lumber making are theirs to realize. They are fortunate in finding economical machinery already perfected, and the millions of dollars which it will save over older devices, will remain to bless the owners of timber with gains, instead of going to everlasting waste in sawdust, of no value or benefit to any one. It is worthy of note that the makers of lumber on the coast are becoming aroused to the necessity of using economical apparatus for sawing, and experiments with band mills have been going on for some time. It has been a theory with some that of the older lumbermen of that section that the timber growing there, and especially that in the Puget Sound region, required a heavier and stronger cutting instrument than the modern band, and the prediction has been freely made that the latter would utterly fail in making those huge giants into merchantable stock. But it appears from the result of recent experiments that these apprehensions of failure are not to be justified, and it is now asserted on the proof of actual trial that the band-sawing of the timber of Oregon and Washington territory is as feasible as the manufacture by the same means of any other wood harder than pine. There is a promising field for the band saw in that country, where the largest double circulars are often unequal to the immense logs presented to them, and it will no doubt be furnished in size and capacity adequate to meet the peculiar demands of that region. When it is remembered that the adoption of the improved and economical sawing machinery in use now in the east will be equivalent to adding a very considerable percentage to the total of the timber supply, the movement in this direction becomes of significant interest to the entire lumber trade of the country.—*Timberman.*

**FILES CAN BE CURED.**  
WESTFIELD, N. Y., May 18, 1886.  
For thirty-two years I suffered from piles, both internal and external, with all their attendant agonies, and like many another suffered from hemorrhoids. All those thirty-two years I had to cramp myself to pay doctors and druggists for stuff that was doing me little or no good. Finally I was urged by one who had had the same complaint, but had been cured by BRANDERETH'S PILLS, to try his cure. I did so, and began to improve, and for the past two years I have had no inconvenience from that terrible ailment.  
RICHARD BENNETT.

SAN FRANCISCO, June 19.—A New York special to the *Chronicle* says: In the line of canned goods the consuming demand is liberal. Columbia river salmon in fair demand at \$1.57½ to \$1.61½.  
For cleansing and healing foul and indolent Ulcers, Sores and Abscesses, and removing the bad odors arising therefrom, and for sloughing, contused and incised wounds, Darby's Prophylactic Fluid is unequalled.  
"I have used Darby's Prophylactic Fluid in hospital and private practice for ten years and know of nothing better for sloughing, contused and incised wounds, foul and indolent ulcers; and as a disinfectant."—J. F. HEUSTIS, Professor Mobile Med. College.

### Across the Cascades.

ALBANY, June 18.—It is learned that about July 1 a government party, accompanied by several hundred United States troops from Vancouver, under command of Capt. Davis, will be started across the Cascade mountains to Camp Polk. The party will go via Albany, or the Cascade & Willamette Valley or Lebanon wagon road. The train will contain eighty or ninety pack horses, and several heavily laden wagons. It is proposed to investigate the glaciers and geological formation in the vicinity of the Three Sisters, and obtain a topographical survey of that region for scientific purposes, as well as to give drill to the men. W. G. Steel, of Portland, who was engaged in the Crater lake survey and who will be one of the leaders of the party, has already written to ascertain information concerning the feasibility of the route. Snow on the pass in the Cascades has about disappeared, and the party will find no difficulty in crossing.

**Don't** Trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.  
J. W. Conn.

SALEM, June 19.—Dr. G. H. Davis, a physician of Champeog, eighteen miles below Salem, was arrested last night for abortion, alleged to have been committed some days since on the person of the daughter of Wm. Yergen, a prominent farmer living near Champeog. The doctor himself is alleged to be the seducer of the victim of the abortion. The young woman is in a very precarious condition, and it is doubtful if she recovers. Dr. Davis is now in jail here. The grand jury is in session, and if the facts warrant, an indictment against him will be found.

**OLD** And reliable Medicines are the best to depend upon. Acker's Blood Elixir has been prescribed for years for all Impurities of the Blood. In every form of Scrofulous, Syphilitic or Mercurial Diseases it is invaluable. For Rheumatism, it has no equal.  
J. W. Conn.

NEW YORK, June 19.—With reference to the proposition to surrender the rebel battle-flags, Gov. Penneyer, of Oregon, telegraphed to the *World* as follows: "If it was a handsome thing to do for Gen. Grant on April 7, 1865, upon the surrender of Lee, to allow him to retain his sword, it certainly would be a handsome thing to allow the flags captured to be returned. In my judgment it would have been magnanimous on the part of the Grand Army organization to have first suggested such action."

**Bucklen's Arnica Salve.**  
THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by W. E. Dement & Co.

It is rumored, says a Weston paper, that Chief Homely, of the Umatillas, has sold his ranch for \$750, and with the \$1,000 that was paid him for having the reservation lines placed where they are, has skipped for parts unknown, leaving several Pendleton merchants in the lurch. Verily the Indians are becoming more civilized each year.

**If you** Would enjoy your dinner and are prevented by Dyspepsia, use Acker's Dyspepsia Tablets. They are a positive cure for Dyspepsia, Indigestion, Flatulency and Constipation. We guarantee them. 25 and 50 cents.  
J. W. Conn.

ANDERSON, Cal., June 19.—Fire broke out in a grain field here this afternoon and destroyed over 1,000 acres of valuable wheat. The fire was started by a spark from a neighboring house. Although hundreds of men came to the scene they could not stop the flames. A hot north wind was blowing.

**The reason** Why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.  
J. W. Conn.
