Queen Victoria Jubilee.
LONDON, June 20.—The queen this afternoon accorded United States Minister Phelps a private audience at Buckingham palace for the purpose of allowing him to present President Cleveland's compliments. The queen's demeanor towards him was most cordial. She expressed the warmest thanks for the president's congratulations.

Minister Phelps delivered to the queen an autograph letter from the president, which was sealed. The queen received Phelps in a small room, and not in one of the state departments. Only the Duke of Connaught and Lord Salisbury were present. Her majesty expressed her sense of the kind feeling always manifested toward her by the American people. Other diplomats carrying congratulations were received after the customary form.

VIENNA, June 20.—The Official Gazette to-morrow will contain an article on the jubilee of Queen Victoria, which will say: "Millions of voices throughout her world-wide empire will extol the queenly, womanly, virtuous Victoria. The day marks a long epoch in the political welfare of her realm. The whole world sympathizes with the festival, for the fame of the queen's blessed rule reaches every quarter of the globe. This sympathy is most cordially shared in by the Austrian sovereign. The virtues of Victoria throughout the whole of her life recall those of our own great empress, Maria Theresa. Both went through life showering blessings around, and both were revered by their people. The memory of Victoria, like that of Maria Theresa, will be blest as long as history exists."

St. Petersburg, June 20.—Russian newspapers, commenting on Queen Victoria's jubilee, say that the British people's love for their queen is merited by the internal reforms and improvements in the condition of the masses, which have been effected in England during the fifty years of her rule. Some of the papers take occasion to express regret that the relations between Russia and England are not better, and hope they will improve, and the two nations become sincerely friendly.

CORK, June 20.—Some houses in this city were illuminated and decorated this evening in honor of the queen's jubilee. A crowd smashed all the windows, shouting "To h—l with the queen!" and cheering for Parnell. The police, who were pelted with stones, charged and dispersed the mob.

A new reporter had joined the staff. He was writing up his first assignment, which was the resuscitation of a half-drowned woman. The city editor looked over the scribbler's shoulder, and this is what he read: "The fair form lay on the dock, and her short pants—" "Tut, tut, young man," said the city editor, "none of your Zola realism; not on this great religious daily; drop that pants business." The new reporter smiled softly and wrote on: "And her short pants for breath showed that consciousness was returning."

Though Shaken Life a Leaf
By the most trivial cause, weak nerves are easily susceptible of invigoration, a term which also imports, in this instance, quietude. The nervous have but to use Hostetter's Stomach Bitters systematically to overcome that super-sensitiveness of the human sensorium, which is subversive of all bodily comfort and mental tranquility, and which reacts most hurtfully upon the system. The difficulty underlying this, as well as many other ailments, is imperfect assimilation, no less than incomplete digestion of the food. In the discharge of both the digestive and assimilative functions, the Bitters are the most potent, the most reliable auxiliary. As the body regains vigor and regularity by itself, the brain and nervous system are also benefited. Persons subject to the influence of malaria, dyspeptic and rheumatic invalids, and persons whose kidneys are inactive, should, also, use the Bitters.

The income of the government of late has been about \$1,000,000 per day, including Sundays; expenses, a little less.

For cleansing and healing foul and indolent Ulcers, Sores and Abscesses and removing the bad odors arising therefrom, and for sloughing, contused and lacerated wounds, Darby's Prophylactic Fluid is unequalled.

"I have used Darby's Prophylactic Fluid in hospital and private practice for ten years and know of nothing better for sloughing, contused and lacerated wounds, foul and indolent ulcers and as a disinfectant."—J. F. HENRY, M.D., Professor Mobile Med. College.

Around the World.
SAN FRANCISCO, June 20.—It is stated now as a fact that the contract has been signed by the Spanish government and the Marquis de Campo, whereby a steamship line around the world is promised at once. The home port is to be Santandor, Spain. The contract is for twenty years, two years' notice of cancellation by either party being necessary. The steamers are to be of the best quality of iron or steel, and of 4,500 tons burden. A subsidy is promised by the Spanish government, which also agrees to pay tolls when the Panama canal is used. Thirty-six trips a year are contracted for from Santandor to New York and Vera Cruz. There will be two routes from Panama—one to Valparaiso and one to San Francisco. There will be a line between New York, New Orleans and Aspinwall. There will also be a line from Havana to Savannah, Ga., Baltimore and Philadelphia, and will compete with lines running between New York, Boston and Quebec. There are also lines to be run to China, Japan, Australia, the east coast of Africa and Buenos Ayres in South America.
