

The Daily Astorian.

ASTORIA, OREGON:

WEDNESDAY, JUNE 22, 1887

There will be a long roll call service at the M. E. church next Sunday.

Lines still down; worked about ten minutes yesterday, then parted again.

The sheriff's sale of delinquent real estate is postponed until Saturday, the 25th inst.

H. Wise is back from San Francisco with a big stock of clothing. He invites the public to call, see the goods and note the prices.

The city election in Portland and East Portland on Monday resulted in a clean sweep for the Republican candidates, the entire ticket being elected.

During the east wind and hot weather Monday and yesterday a stiff nor'wester was blowing outside, and rough water is reported by pilots in from outside.

A hot east wind and blazing sun made yesterday morning a warm one. In the afternoon the wind swung around to the southwest, bringing grateful coolness and relief.

The six-year-old daughter of Mrs. Paulson, residing on Water street, met with a serious accident last Monday afternoon, by falling down a steep flight of stairs and breaking her right arm at the wrist.

Great fires are burning across the river and on the south side of the hill back of town; also on the other side of Young's river. For an hour yesterday afternoon the city streets were filled with smoke.

The Oregon came in yesterday morning. Passengers say that just outside San Francisco she struck a strong headwind and a very rough sea, and not till six o'clock Monday evening did the wind let up.

Reports from the upper river are to the effect that the fish wheels are scooping up thousands of young salmon. It is a shame that such contrivances should be allowed to deplete the river of its valuable tribute.

A brother of E. E. Shaw's is building a dyke on his place at Deep river, W. T., that is sixteen feet at the bottom, and four feet on top. It costs five dollars a rod, and will be a mile long, enclosing a tract of fine tide land.

Eben Parker is building a fine dwelling house on his lot west of the Court street school house. Eugene Brock is also building a neat dwelling house on his property. F. A. Fisher's new residence is approaching completion.

John Wilmer, fishing for the Occident Packing Co., while in his boat with his partner on the river yesterday morning, got his left leg entangled in the net, and while trying to get it out had the misfortune to break it in two places.

The surface of the river is covered with snags and tree trunks and floating timber. It is met far out to sea, carried out by the great flow, that now admits of little in the way of flood tide, the sweep of the current being constantly seaward.

It was reported yesterday that some boys bathing in Young's Bay had thoughtlessly set the brush afire in the vicinity, and that a barn belonging to John Wirt and thirty cords of wood belonging to a neighbor of his, had been totally consumed.

While drunk in Portland last Sunday night, Fred Roder, mate of the S. G. Reed, fell off the boat at the foot of Ash street, and was drowned. The body was recovered on Monday. He was unmarried and was not known to have any relatives in this section.

The Fourth of July programme appears on the second page. There will be a good time, an attractive order of exercises and Astoria extends a cordial welcome to all to come and enjoy themselves on that day and aid in the fitting celebration of the nation's birthday.

Last Sunday night nine fishing boats - anchored at Sand island, dragged their anchors and went adrift. They were sighted by tugs outside yesterday morning and towed in, the men aboard having been without food for over thirty hours. Seven out of the nine lost their nets.

The English vessels were bright with bunting yesterday, and from Vice-Consul Cherry's office floated "the flag that for a thousand years has battled in the breeze" in honor of the jubilee of the queen. The jubilee anniversary of Queen Victoria's accession to the throne is something that nobody ever saw before and nobody will ever see again.

It is learned at the San Francisco office of the coast survey that Assistant J. P. Pratt and Assistant Fremont Morse have finished the topographical reconnaissance of the coast line from Gray's harbor to Cape Flattery, including all the outlying dangers and unknown stretches of coast along the Pacific coast seaboard. The difficulties encountered by the party have been very great. Within a month or two a preliminary report giving to shipmasters, running north of the Columbia river, valuable information of the exact position of Flattery rocks and other notable dangers, may be expected.

The treasury department has sent out a new circular stating that the president has decided to establish a national patrol of the coast of the United States with the vessels of the revenue marine. The collectors are instructed to keep the steamers under their direction constantly stationed along the outer cruising lines, and to exercise special vigilance in speaking vessels arriving from foreign ports. The port from which the vessel sailed and the state of health of those on board is to be learned, and when contagion is found the infected vessel must be taken to the quarantine station by the revenue steamer.

The Chicago Tribune says: "Rhea, with her lustrous beauty, her conspicuous sincerity, her captivating ways, her tender, womanly smile, her French notes and broken English, whose barbarous harshness becomes almost musical on her lips, her grace of action, her pathos, her genius—Rhea comes the embodiment of all that is poetical and refined, full of a gracious sweetness and manifest delight in the exercise of her art for its own sake that is very pleasant to think of and look upon." Reserved seats for Monday night's performance to-morrow at the New York Novelty store.

In the course of his daily rounds a newspaper reporter meets with many different phases of life, some ludicrous, others pathetic, occasionally tragic, some of great importance, more, the veriest trifles.

One of the saddest circumstances that has of late come to the writer's knowledge transpired yesterday afternoon. Two neighbors, Mrs. Ecklund and Mrs. Anderson, whose husbands are fishing for the White Star Packing company, came down on the steamer Favorite yesterday morning, each carrying a sick infant, the one a girl aged nine months, the other a boy aged twelve months. Full of apprehension for the condition of their little ones, who appeared to be suffering from cholera infantum, they hastened to a physician, but it was too late. One of the children breathed its last in the doctor's office, and the other a few minutes after being conveyed to the hospital.

Two tiny coffins were procured, and the grief-stricken parents mingled their tears over the graves of their loved ones who, doubtless, were as dear to them as any little household darling of any one who reads this brief chronicle.

CITY COUNCIL PROCEEDINGS.

Danger Signals Ordered at One End and a Locked Gate at the Other.

The city council met in adjourned session last evening, Councilman Bergman, president of the council, in the chair.

A petition from the committee of arrangements of the Fourth of July celebration, asking the council to have the streets cleaned, was, on motion, referred to the committee on health and police, with power to vet.

A petition from the same committee asking the council to appropriate \$250 for the Fourth of July celebration fund, was, on motion, referred to the committee on ways and means.

A communication from Coroner Ross offering \$30 for six lots in block B, sec. M, in the Clatsop cemetery, was read, and, on motion, the offer was accepted.

A petition from property owners asking for the improvement of Cushing Court street, was read, and, on motion granted.

A remonstrance from property owners on Cedar street against the proposed improvement of that street, was read, and, on motion, referred to the committee on streets.

A remonstrance from property owners on Concomly street against the proposed improvement of that street, was read, and, on motion, referred to the committee on streets.

The reports of police judge and sexton for the month of May, '87, and of street superintendent for June, were read and referred.

A communication signed by numerous citizens, complaining of the present pest of caterpillars, in certain parts of the city, and asking that the police be authorized to cause the removal or suppression of said caterpillars, was read, and, on motion, referred to the committee on health and police with power to kill the aforesaid caterpillars.

The committee to whom was referred the ordinance authorizing H. B. Parker to erect a wharf, reported, recommending the granting of the request: report adopted.

An ordinance providing for the repair of Cedar street from W. Sixth to Salmon was passed under suspension of the rules.

An ordinance authorizing H. B. Parker to construct a wharf, was read third time and passed.

An ordinance accepting the custody of the street running across the property leased from the Cutting Packing Co., was passed under suspension of the rules.

On motion, a warrant was ordered drawn for \$1, in favor of Mr. Tallant, as consideration for said lease.

An ordinance providing time and manner of improving Cushing Court street, from Eighth to W. Ninth street, was passed under suspension of the rules.

Numerous applications were received and filed, asking for change and abatement in their individual city assessments, and, on motion, referred to the committee on ways and means.

The following bills were ordered paid: T. N. Coe, \$10; J. F. Halloran & Co., \$51.35; B. S. Worsley, \$10; Silaby Manufacturing Co., \$59.

The matter of getting the city charter and city ordinances revised, indexed and printed, was, on motion, referred to the committee on rules and regulations, to report at the next regular meeting.

The fact that there was only one fire engine fit for service was brought to the attention of the council.

The roadway west of Trullinger's mill was the next subject of discussion, and the statement made that the city was now shut out from the road built toward Smith's Point. The upper Astoria roadway was also discussed and the suggestion made that the roadway be marked "dangerous" and closed up. The idea was favorably entertained that the city should maintain that important road and keep it in repair, because of the constant travel on it and the necessity of keeping open a safe roadway between the city and upper town. After considerable interchange of opinion, the street superintendent was, on motion, instructed to have two large notices posted conspicuously on each end of the roadway notifying the American public that there was no thoroughfare, and that it was "dangerous," and that the council is not responsible for damages resulting from any accident in that vicinity.

On motion, the street superintendent was also instructed to place a gate securely locked across the roadway at the west end of the Cutting Packing company's premises. After this, council adjourned.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but now often do the majority of people feel like giving it up, disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory relief, that Green's August Flower will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy five per cent of such maladies as Bileousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

What Should They Do With Them?

It was rumored during the week that Goodall, Perkins & Co., of San Francisco, had made an offer for all the ocean and river steamers of the O. R. & N. Co.—Welcome.

VITIATED BLOOD

Scrofulous, Inherited and Contagious Humors Cured by Cuticura.

THROUGH the medium of one of your books received through Mr. Frank T. Wray, Druggist, Apollo, Pa., I became acquainted with your CUTICURA Remedies, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in our county. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your CUTICURA Remedies a trial. P. S. WHITTINGER, Leeburg, Pa. Reference: FRANK T. WRAY, Druggist, Apollo, Pa.

SCROFULOUS ULCERS.

James E. Richardson, Custom House, New Orleans, on Oct. 28, 1870, writes: "In 1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain, and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the CUTICURA Remedies, used them, and was perfectly cured." Sworn to before U. S. Com. J. D. CRATFORD.

ONE OF THE WORST CASES.

We have been selling your CUTICURA Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of Scrofula I ever saw was cured by the use of five bottles of CUTICURA. The soap takes the "cake" here as a medicinal soap. TAYLOR & TAYLOR, Druggists, San Francisco, Cal.

SCROFULOUS, INHERITED AND CONTAGIOUS HUMORS, WITH LOSS OF HAIR, AND ERUPTIONS OF THE SKIN, ARE PERMANENTLY CURED BY CUTICURA AND CUTICURA SOAP EXTERNALLY, AND CUTICURA RESOLVENT INTERNALLY, WHEN ALL OTHER MEDICINES FAIL. SEND FOR PAMPHLET.

DRUGGISTS USE THEM.

We have obtained satisfactory results from the use of the Cuticura Remedies in our own family, and recommend them beyond any other remedies for diseases of the skin and blood. The demand for them grows as their merits become known. MACMILLAN & CO, Druggists, Latrobe, Pa.

CUTICURA REMEDIES

Choking Catarrh.

Have you awakened from a disturbed sleep with all the horrible sensations of an assassin clutching your throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises! How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult it is to rid the system of this further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure.

DOUBLE EXTRACT OF Moxie Nerve Food.

Contains Not a Drop of Medicine, Poison, Stimulant or Alcohol.

But is a simple sugar-cane like plant, grown near the Equator and farther south, was lately accidentally discovered by Lieut. Moxie, and has proved itself to be the only harmless and effective nerve food known that can recover brain and nervous exhaustion; loss of manhood; imbecility and helplessness. It has recovered paralysis, softening of the brain, locomotor ataxia, and insanity when caused by nervous exhaustion. It gives a durable, solid strength, and makes you eat voraciously, takes away tired, sleepy, lifeless feeling like magic, removes the fatigue from mental and physical overwork, at once, will not interfere with the action of vegetable medicines.

Dose, One Small Wineglassful Every Four Hours.

The loss of gas from the bottle does not weaken or injure the Moxie. Look out for Counterfeits.
