

The Daily Astorian. ASTORIA, OREGON: FRIDAY, JUNE 21, 1887

The canneries report a light catch this week.

Lines down again; something's happening, sure.

Jos. Spranzen has returned from the North beach.

The Columbia is due from San Francisco this morning; the Oregon sails.

There will be a special meeting of Co. "H." at the armory, at 8:30 this evening.

Jas. M. Ward came down from Portland on a flying visit yesterday afternoon.

A new roof and other improvements are being put on Astoria No. One's engine house.

Judge Stephen J. Field, of the United States supreme court, is on the incoming steamer.

As soon as the Walluski receives her necessary papers from the inspector she will go on the Walluski and Young's river routes.

The Gen. Canby will leave Gray's wharf at 9 o'clock next Sunday on an excursion to Fort Canby and Ilwaco, returning at 4 p. m. See advt.

Capt. Flavel is having a large and commodious stable built on the southwest corner of the block on which his residence is situated.

County school superintendent Page is in receipt of eighty-eight copies of the new school law, one for each school officer in the county.

Plans are now in preparation by competent architects for \$100,000 to be put into bricks and mortar and private residences in this city this season.

The great across, Mlle. Rhea, and a talented company appear at Ross's opera house next Monday evening. Reserved seats at the New York Novelty store.

Col. Jno. Adair, Jr., leaves this morning to bring down the steam ferry recently purchased and which is to ply between Smith's Point and the mouth of Lewis & Clarke's.

Mrs. Nancy Welch is having plans drawn for a fine private residence to be erected on the pleasant site near her house, and to be occupied upon completion by George W. Sanborn and family.

The O. R. & N. Co. is going to begin building a bridge across the Willamette at Portland about the first of the month. The bridge will be 600 feet long and the draw span 340 feet; it will cost about \$375,000.

The fact that the Amoskeag engine and the old engine brought from Portland for use while the other was having a new boiler put in are both out of service, makes extra vigilance necessary in the matter of fire.

The steamer Alaskan will be down to-morrow, leaving Portland about 3 p. m., arriving here about 8 p. m. She will lie here Saturday night and go to Ilwaco Sunday, 26th, giving an excursion and leaving here at ten a. m.

Henry Sherman and B. L. Ward are about to build a livery stable 28x30 feet on the vacant lot between Coroner Ross and Spranzen & Ferguson's shop, an enterprise which with increased summer travel cannot fail to be profitable.

The arrangements as announced promise a fine celebration of the ensuing fourth of July. Every organization in the city has been invited to participate in the parade, and there is no reason why the parade on that day should not be the most imposing ever seen in northwestern Oregon.

Rev. W. S. Short and wife arrived yesterday from Hartford, Conn. Mr. Short will hold divine services for the first time in Grace church next Sunday. On that occasion, for the first time in over three years, there will be religious services in all the churches of the city, each one being now supplied with a pastor.

Capt. H. M. Gregory, lately in command of the steamship Palatka, running between Yaquina bay and San Francisco. Capt. Gregory has many friends on the Columbia who will be glad to hear of his being called to the command of so fine a vessel.

Smallpox is reported in San Francisco. Discussing the unwelcome presence the Bulletin sensibly says: "The course to be pursued on the part of the authorities is plain enough—thorough isolation and disinfection. But for the people at large there is only one safety—the immediate vaccination of all unprotected persons."

At a school meeting held at the school house in district No. 9 last Monday evening, it was decided that the increasing population of the district made necessary improved school facilities, and the directors were authorized to advertise for proposals to loan the district \$4,000 to be applied to the purpose of making the proposed improvements.

Strawberries better in flavor than in the earlier part of the month are still plenty and at low figures—as cheap as they probably will be this summer. Green apples and greener cucumbers are ready to wup. Blackberries and raspberries are hinted at and cherries are so plenty as to be no longer sought for. Hard green peaches are offered for sale, and, strange to say, find ready buyers.

Writing of France in antediluvian times Cosar said: "All Gaul is divided into three parts." In these times gall is all in one, as is evinced by Tacoma asking Astoria firemen to loan them their hose cart, hose and nozzle in the Fourth of July contests in that city, while refusing to admit the Astoria boys in friendly competition on an occasion in which they have been invited by the committee to participate.

The lumber interests of the lower Columbia are yearly assuming more importance. As the valuable timber area of other sections decreases and disappears, ours becomes of proportionate greater value, and among the many causes that should hasten a sale of two into Astoria is the possession by this vicinity of large tracts of most valuable timber, thousands of acres of which are untouched.

Mrs. F. O. Adams, well known to many Astoria residents, died at her son's residence yesterday morning, in Beaverton, Washington county, after a brief illness of thirty-six hours. Deceased was in the 69th year of her age and was widely known and respected. She was the mother of Mrs. W. W. Parker and Misses Amy and Clarabell Adams of this city, Mrs. Johnson of Eugene City, Judge W. H. Adams of Portland, and Gaines Adams. The funeral will take place at Portland to-morrow afternoon.

The southwest corner of Main and Chenamus streets is to be graced by a brick building to be erected there by Capt. George Flavel. It will front fifty feet on Chenamus street, running south one hundred feet on Main street, and will be three stories high and will, when completed, be an ornament to the city. The architect is now at work upon the plans of the building. To-morrow the frame building on the south end of the proposed site will be moved next the bakery fronting on Chenamus street and work will be begun on the foundation.

Capt. George Flavel has returned from Clatsop. His new wharf at Tansy Point is about finished, all but the fender piles. It is about 900 feet long, a T on the end of it being 150 feet up and down by 60 feet in width. It extends out to a depth of twenty-three feet at low water, has a warehouse on it, and has cost \$6,000 to build. Dredging goes on on the tract of which Capt. Flavel owns 600 acres. Mr. Kindred 400, Mrs. Brallier 100 and D. K. Wret 150, which, when completed, will have reclaimed between 1,200 and 1,300 acres of fine tide land.

Messrs. Warren & Satherland are doing some good work in dyking their places on the other side. Taking it altogether there will be over 2,000 acres of good land dyked in that vicinity this summer. Some of it is land that must be redyked, experience showing that the more slenderly built dykes of former years will not stand. On this side Hugh McCormick and others are fast reclaiming by means of dykes an area of land that will be of great value in the future. Visitors from Pacific and Wahkiakum counties may find considerable is being done in the way of dyking in their localities also.

The Port Townsend Argus of Monday says: The little steamer San Juan, built on the Columbia river for the San Juan Packing Co., arrived yesterday, after a somewhat eventful trip. The captain, Herman Kopperholdt, who it seems had recently lost his wife and daughter, indulged to excess in liquor so that on the way he lost his reason, and when nearly to Cape Flattery headed the steamer for Gray's Harbor. The crew lashed him down, and engineer Rowland Davis brought the steamer safely into port. The captain was taken to the marine hospital on arrival here, where he is being treated for alcoholism. The steamer is a trim little craft of seven tons measurement, with schooner rig to aid her engines and to supply power if steam gives out. She will be used among the San Juan islands as a tender for the cannery which is located near Friday Harbor.

All members of Rescue Engine Co. No. 2 are requested to leave their uniforms at the engine house of said company before the first day of July, 1887. By order W. J. BARR, Secretary. E. Z. FERGUSON, Foreman.

A meeting of the Board of Foremen will be held at the Council Chamber this evening at 7:30 o'clock. Business of importance will be transacted. By order B. S. WORSLEY, Chief Engineer. E. Z. FERGUSON, Secretary.

Of Alert Hook and Ladder Company to-night at 8 o'clock. Important business. F. I. DUNBAR, Secretary.

Of Company "H," O. N. G. to-night at armory at 8:30. Business of importance. A. E. SHAW, Captain.

Lost. Soon after May 8, secretary's book containing minutes and constitution of W. C. T. U. Finder will confer a favor by leaving at this office.

AN ENORMOUS FISH. Terrific Combat With a Penobscot Salmon.

A good story regarding the great run of salmon in the Penobscot has been the topic here. Many sportsmen from New York, and even further south, are here with the most seductive devices for fish killing, and thin flies lash the river above and below the city from sunrise to sunset. Among the native sportsmen who have rivaled the visitors are two small boys, 11 and 13 years old, who are now the heroes of the town. They have an old boat in which they spend all their spare hours on the river. For fishing tackle they secured a long, straight stick, like a bean pole, a cord nearly as large as a lead pencil and strong enough to hold a whale, and a small ordinary hook. They paddled around on the river, dangling the worm-baited hook at the end of the rope until they got a bite. The elder lad had the pole, and the fish with a rush almost hauled him out of the boat. The boy was equal to the emergency, and he hung on like an Alabama claim.

He yelled to the other boy to pull for shore. The little fellow worked away at the oars like a Trojan, while the fish pulled almost as hard as he did. The struggle was a long one, but the boat finally reached shoal water near the bank. The boys rushed about frantically and the fish could not land him. Finally the boy at the pole, getting the fish near the boat, handed the line to the other and jumped overboard for a hand-to-hand tussle with the game.

The water reached to his waist. The little fellow tugged with all his might at the line, and the other made a grab for the fish. He succeeded in getting hold of it just back of the gills, and he hung on. It was a monster and the boy was almost overwhelmed. The fish was almost as long as he was, but he managed to get his arms around it, partly underneath the gills, and he hugged it frantically. In a few moments he waded ashore and dropped his prey triumphantly on the bank. Then he and his companion had a war dance. They lugged the fish home and found it weighed twenty-one pounds.—Bangor, Me., Letter.

Rapid Beating of the Heart. Whenever you feel an uneasiness in the region of the heart, a slight pain in the shoulder, arm, or under the shoulder-blade, or when you find yourself short of breath when exercising, or your heart has periods of beating fast, you have heart disease, and should take Dr. FLEMING'S HEART REMEDY. Why Not a Terminus at Astoria? We cannot doubt that in the end the level route down the Columbia river will win; but in any event the business of the country must come here. In order to compete with rival the Northern Pacific will find it necessary to drop its speculative schemes at Puget sound and come for business where there is business to be had. In other words, it will have to make its terminus at Portland as a business necessity.—Oregonian, 23.

Seven North American bulls led through the streets yesterday afternoon after the arrival of the Telephone gave rise to various surmises, one being that the Fourth of July committee had leased the court house yard on that day; another, that the aforesaid animals were to be slaughtered for the barbecue. Investigation, however, exploded these theories and showed that they were the property of Wm. McIntyre and would be taken on the Clara Parker to his logging camp on the Nasel this morning.

Don't Experiment. You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial Bottles free at W. E. Dement & Co.'s Drug Store.

FOURTH OF JULY CELEBRATION. At a meeting of the Fourth of July celebration committee last Wednesday evening the financial committee reported that there was \$1,005.50 collected, and some still to collect.

In the fishing boat race A. D. Wess, H. G. Smith and J. E. Campbell were appointed judges, they to appoint time keepers. In the Whitehall boat race S. Harris, J. W. Gage and A. Sutton were appointed judges, the judges in this and other contests to appoint the time keepers. Bicycle race, S. Harris and C. S. Wright, judges. Sack race, C. H. Stockton and J. C. Ross, judges. Throwing the hammer, D. J. McVicar and J. E. Ross, judges. Greased pig, I. Bergman and P. O'Hara, judges. Three hundred yard foot race, Geo. Noland, Pete Grant and H. Wierthy, judges; 300 yard foot race, same judges. Horse race, wet test: F. J. Taylor, S. Elmore and W. L. Robb, judges, they to appoint time keepers. Horse race, dry test, same judges. Hook and ladder race, same judges. Tender race, same judges.

A committee of three, consisting of C. H. Stockton, B. S. Worsley and L. E. Selig, was appointed on Duphuns.

The first prize in the fishing boat race was increased to \$65, and the prize in the hook and ladder contest to \$25.

The sum of \$50 was appropriated to Company "H." for the purpose of defraying the expense of an exhibition drill. It was decided to withdraw the prize of badge for best drilled member in competitive drill, in lieu of the above.

C. J. Trenchard was appointed committee on exercises, with power to appoint aids, etc.

It was directed that the boat races start from Flavel's wharf; that the foot races be on Chenamus street from Wilson & Fisher's west; that all firemen's races be on Water street from the hydrant.

The secretary was instructed to invite the firemen of the Northwest, and especially those of Washington territory. Adjourned.

Enjoy Life. What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment.

We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

A Conundrum for Free Traders. Coffee, on which there is no duty, was never as high as now; while sugar, on which there is a duty, was never so cheap as now. Why is this the case? Will some of the free traders arise and answer the conundrum?—Macomb Journal.

A Sound Legal Opinion. E. Bainbridge Munday Esq., County Atty., Clay Co., Tex. says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. An satisfied Electric Bitters saved his life."

Mr. D. L. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters. This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50c. and \$1. at W. E. Dement & Co's."

A Good Word That Works Both Ways. When the irreligious man goes to the telephone he usually says "Hello!" When he comes away from the telephone he is very apt to turn the expression around the other way.—Somerville Journal.

Unnecessary Misery. Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicine usually prescribed. HAMBURG PILLS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

A New and Enlarged Stock of Choice Brands of Cigars. Imported Key West and domestic. All tastes can be satisfied and all pockets suited as to price. Tansill's Pure and Junior's in full supply as usual at D. L. Beck & Sons.
