

**The Daily Astorian.**  
 ASTORIA, OREGON:  
 SATURDAY, JUNE 23, 1887

NEW YORK is credited with 308,000 wage workers; Philadelphia, 270,000; Chicago, 106,000; Boston, 75,000; Cincinnati, 95,100; Pittsburg, 78,100, and St. Louis, 52,500.

A TRAIN is now running on the Connecticut River railway which is lighted by electricity from a dynamo in the baggage car, run by the car wheels. This is intended to take the place, to some extent, of storage batteries, and the inventor, S. H. Barrett, is satisfied that he has made a workable contrivance.

JOHN BRIGHT, in a letter, says that the United States, under a system of protection, is burdened with a large surplus revenue, yet refuses to lessen duties, thus promoting a system of corruption unequalled in any other country. He uses this as an argument for the continuation of England's free-trade policy.

DR. HOLMES mentions the fact that he was born in the same year (1809) that witnessed the birth of Gladstone, Tennyson and Lord Houghton, and suggests that this promotes humility rather than vanity. He adds this comment: "Persons of the same year watch each other, especially as the sands of life begin to run low, as we can imagine so many damaged hour glasses to keep an eye on each other."

The late ex-vice-president Wheeler had a great reputation as a political prophet. He foretold the panic of 1873, and even went into the minute details which were afterward verified. He prophesied the nomination of Tilden and Hayes in 1876. He said to Blaine just before the Cincinnati convention: "Brother Blaine, don't set your heart upon the presidential nomination. The next candidate of the Republican party for president is now governor of Ohio."

UNCLE SAM'S assimilating apparatus is working over considerable material into Americans. The completed statistics of immigration to the United States during the year 1886 are worthy the attention of those race leaders and politicians who claim for their particular people the future of the United States. In the immigration last year Germany led with 86,301 immigrants; England came second, with 58,422, and Ireland third, with 52,912. Of Swedes, 32,222 landed on our shores, while 13,916 Scots kept them company. Italian immigration is becoming important, 30,472 arriving at all ports. Among other comers were 25,980 Russians, 13,855 Norwegians, 18,110 Hungarians and 17,593 Austrians. American nomenclature of the next century is going to be a study for philologists.

A GERMAN chemist has invented a new kind of anesthetic bullet which he urges will, if brought into general use, greatly diminish the horrors of war. The bullet is of brittle substance, breaking directly when it comes in contact with the object at which it is aimed. It contains a powerful anesthetic, producing instantaneously complete insensibility, lasting for twelve hours, which, except that the action of the heart continues, is not to be distinguished from death. While in this condition, the German chemist points out, the bodies may be packed in ambulance wagons and carried off as prisoners. War, by means of this humane invention, will be reduced to a mere pastime, and the nations may indeed beat their swords into plowshares, and their spears into pruning hooks.

**Rapid Healing of the Heart.**  
 Whenever you feel an uneasiness in the region of the heart, a slight pain in the shoulder, arm, or under the shoulder-blade, or when you find yourself short of breath when exercising, or your heart has periods of beating fast, you have heart disease, and should take DR. FLEW'S HEART REMEDY. At druggists, \$1.50. Descriptive treatises with each bottle; or address J. J. Mack & Co., S. F.

**Famous Women.**  
 Madame Trebelli, the greatest of living contraltos who has traveled extensively, in fact visited every county and city of note in the world, has just departed from the slope of the Pacific, and often expressing the greatest admiration for the beauty and grandeur of our scenery and the delightful mildness of our climate, left the following written note as a living expression of her opinion in the hands of a Portland druggist, the original of which can be seen on demand.

PORTLAND, Or., April 6, 1887.  
 Dear Mr. Wisdom:—I have tried your "Roberts," and it gives me much pleasure to say that it is excellent for the complexion, being one of the best articles of the kind I have ever used. Believe me, yours sincerely,  
 Z. TREBELL

If any further proof of the excellency of this article is required call on Messrs. W. E. Dement & Co. of Astoria, Or., who, for the small sum of fifty cents, will produce evidence that will satisfy the most skeptical and fastidious, and give you a beautiful picture card for the trouble of enquiring.

The case of Cox vs. the Governor Nevell is on trial to-day says the Telegram of the 23rd, before Judge Deady in the United States district court. Cox was captain of the *Nevelell* at the time a collision occurred at Astoria with the steamship *Oregon*, by which the smaller vessel was damaged. J. C. Trullinger who was owner of the *Nevelell*, discharged Cox immediately after the accident, for carelessness, and some wages which were due he retained as an offset to the damages claimed to have been caused by Cox's unskillful handling of the vessel. Cox, however, would not accept such settlement and brought suit in the United States court for the wages due him at the time of his dismissal, labeling the boat meanwhile, pending final decision in the case. In the evidence before the court the plaintiff endeavored to show that he was in no way responsible for the accident, and that the rudder was fouled by some means when it occurred and the vessel was unmanageable.

**Don't Experiment.**  
 You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections.

Have you ever noticed, says an exchange, that when you sit down to play a game of pedro there will nearly always be one fellow in the game who won't bid, no matter how good his hand is, but sits around hoping to save his jack or catch pedro, and scoring one or more points every time without running any risk? He seldom loses a game, but never gets out first and he is a regular wet blanket. Well, our boom has brought plenty of just such men to the surface. They refuse to buy at any price, but lay around waiting to save their jack or catch some other man's pedro, and in the mean time they wet blanket the whole thing.

What is better than a glass of liquor? A cup of delicious coffee at Fabre's. Try Fabre's celebrated pan toast. Ten cents for a cup of Fabre's nice coffee.

—All the patent medicines advertised in this paper, together with the choicest perfumery, and toilet articles, etc., can be bought at the lowest prices, at J. W. Conn's drug store, opposite Or-ident hotel, Astoria.

**TAKE**  
**SIMMONS**  
**LIVER REGULATOR**

For all Diseases of the Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the Bowels and Kidneys and corrects the action of the liver and spleen, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, dissipate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undiminished.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, will expel the poison and protect them from attack.

**A PHYSICIAN'S OPINION.**  
 I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the Liver to action, and at the same time (instead of weakening) the digestive and assimilative powers of the system. L. M. HINTON, M. D., Washington, Ark.
