

# The Daily Astorian.

ASTORIA, OREGON: WEDNESDAY, JULY 13, 1887

The national federation of labor has an enrolled membership of 660,000.

The cotton crop of Texas this year is estimated to reach 1,500,000 bales.

The value of the coal produced last year in the United States was worth \$147,112,755.

During the first two weeks of June 6,000 men struck, nearly all for an advance of wages.

The state department has received no information in regard to the reported massacre of Chinamen in Idaho territory. The Chinese legation is equally ignorant.

The shipments of wheat from this country to Europe during the year just ended amounted to 154,000,000 bushels—being the largest amount exported in any one year on record, with the single exception of 1881.

It is expected that a conference of leaders in the Democratic party will be held in Washington soon, when an effort will be made to harmonize the party on the tariff question. Randall is not expected to be present.

There is some talk in southern California of establishing a new state. The claim is made that the people voted for state division in 1860 and by a two-thirds vote consented to a separation, and that there is no need of an election now.

The canvass for the New York city directory for 1887, has just been completed. It will contain the names and residences of about 320,000 persons, an increase over last year of 7,000, and from which the publishing company estimates a population of about 1,600,000.

England is wholly dependent upon foreign sources for her supply of cotton, buying 1,050,000,000 pounds of the 1,490,000,000 pounds she consumes from the United States. Her raw cotton consumed costs her \$185,000,000, and she sells the goods manufactured therefrom at \$420,000,000.

The press in the east is strongly opposed to the admission of Utah as a state until the people have shown by their acts that their expressed opinion against polygamy in the constitutional convention is more than words. The states are only willing to recognize Utah's right to an equal position among them after a long probation.

A WASHINGTON correspondent says that in the navy department "Commodore Walker has practically usurped about all the powers that ought to belong to secretary Whitney and admiral Porter." Walker has great influence as head of the bureau of navigation. He has not been at sea since 1881. The last time he had command of a ship (the *Powhatan*) he ran her ashore, and since then he has boycotted the raging main.

The tender of the Canadian Pacific railway for the English mail service is as follows: It has offered to contract for the ocean service at a speed of fifteen instead of eleven knots, and to build its boats under the admiralty's supervision, so that they may be readily converted into armed cruisers, for a subsidy of £10,000 per annum; in addition to this it also offers to carry the China and Japanese mails for 3,500 miles across the continent of America free of charge; also to carry troops and government stores over the same distance of land over the ocean at cost price, thus making the route an imperial highway.

**Terrible Pains.**  
DR. FLINT'S HEART REMEDY banishes sickheadaches, and will prevent the return of this most terrible of pains, if taken when the warning symptoms give notice of the return of an attack. At druggists \$1.50. Descriptive treatise with each bottle; or address J. J. Mack & Co., 37.

## A Long Way Up the River.

The following is from the Baker City Democrat, which declares that it is as "true as gospel." A few days since James Holcomb, proprietor of Sturgill bar on Snake river, was riding along the bank of the river, when he saw a large sturgeon lying in two and a half or three feet of water, apparently asleep. The fish's head would bob up and the tail down, then the tail would up and the head down. Jim looked a long time at the fish, and finally the thought struck him that he wanted that fish, but the only thing he had to kill or capture it with was a lasso and plenty of rocks. So he took his rope and walked quietly into the water and up behind his fish and dropped the rope over his tail. He did not dare light on the rope until he had disabled the fish; so he took up a large rock and when the head came up he let the stone go; and he made a splendid shot and hit it square on the head and stunned the fish. Then he drew the fish to the bank, tied it to a tree and finished it with a pocket knife. The fish was nine feet seven inches long and weighed over 500 pounds.

## Believed to Be True.

The Chinese herabouts are apprehensive that all the Chinese mining camps on Snake river have been wiped out, says the Idaho Free Press. They say there are fifty or sixty Chinese mining on the Oregon side of Snake river about forty miles above Lewiston, and from the mutilated remains of Chinamen that have floated down they expect that either Indians or whites have raided the camp and killed off the entire bunch. The Chinese in Lewiston are strongly exercised over the matter and have sent up four scouts to look around, and are also corresponding with the Chinese Minister at Washington to investigate the matter.

## The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at W. E. Dement & Co.'s Drug Store.
