Glass Eyes.

A German paper makes the statement that more than two million glass eyes are made every year in Germany and Switzerland, while one French house manufactures three hundred thousand of them annually. The pupil is made of colored glass, and sometimes red lines are painted on the inner surface to simulate the veins. The largest number of these eyes are bought by laborers who are exposed to fire and consequently liable to lose an eye. The expression of the eyes is almost solely due to the movements of the upper eyelids; and this is the reason that we may see a man with a glass eye a hundred times before we discover his infirmity.

HAMBURG FIGS.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure for the reason that no one likes to take the medicine that is usually prescribed. Hamburg Figs were prepared to obriste this difficulty, and they will be found effective as well as pleasant to the taste of woman and children. 25 cents.

TRIED

CRUCIBLE

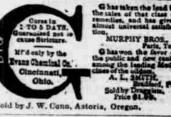

About twenty years ago I discovered a His

sore on my cheek, and the doctors pro it cancer. I have tried a number of physicis but without receiving any permanent benefit Among the number were one or two specialists The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been had for two or three years-I had a backing cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.
