

The Daily Astorian.

ASTORIA, OREGON: TUESDAY, JULY 19, 1887. Council meeting to-night.

The funeral of the late Mrs. Boehm will be at two o'clock this afternoon.

P. S. Katsenys has received letters patent on an improved roller attachment for a boat.

The Columbia arrived in yesterday noon: the Oregon sailed; the bark Julia Ford sailed lumber laden.

A large number of Astorians visited the other side of Lewis & Clarke's last Sunday by way of the steam ferry.

Dan'l Sully in "Daddy Nolan" at Ross' opera house to-morrow night; reserved seats at the New York Novelty store.

School district No. One holds a meeting to-night at 8 o'clock to levy taxes for the next school year and transact other business.

Messrs. Utzinger & Liddicoat have improved the construction of their newly invented beer and water cooler and received letters patent thereon.

Saturday evening the run of salmon on a live better and yesterday some of the canneries reported a few. The average boat was not, however, over eight.

It does seem as though a patent seaside hammock with a reversible umbrella attachment, expressly for flirtation purposes, would make a fortune for its inventor.

The ladies of the Congregational church of this city are planning for a picnic to Bear creek on Friday next, 22nd inst. Sandwiches, coffee, ice-cream, lemonade, cake, etc., will be served at reasonable prices.

On the sixth page of the Sunday Oregonian is a piece of poetry the first lines of which make a surprising statement. Most any newspaper man is likely to be killed by a deadly acrostic. Another case of "didn't know it was loaded."

On Friday last a logger named Julian Luark, while loading logs at Silver creek, Chelalis county, W. T., either slipped or was accidentally thrown into the pond and drowned. Up to last accounts his body had not been recovered.

Six accomplished musicians and a very sweet voiced young lady gave a fine musical entertainment at Liberty Hall last evening, and one that was fully appreciated by those present. Such strains of music and such delicate rendition of delightful melody form pleasant memories and thus constitute a double enjoyment.

There is considerable aggregate travel over the different routes within this district. For the quarter ending June 30, 1887, 420,000 passengers have been carried on the steamers included in this district. This comprises steamers of all classes. During that time no accident has been recorded, resulting in loss of life or limb, which is a most creditable showing.

YESTERDAY'S FOOT RACE.

Considerable interest had been taken in the 200 yard foot race between Pete Grant and Ed. Bea, and considerable coin was up on the result. A large crowd assembled in the vicinity of the O. B. & N. dock at three o'clock yesterday afternoon, the track measured off and all made ready for the sport which should decide who wins the thousand dollars.

By half-past three there were 2,000 people lining the street. E. Z. Ferguson, the referee, got them off in good shape, Grant leading, and both doing their level best to get first to the outcome. When they got to the 150-yard distance it was evident the race would be very close, and when they touched the string they were so close together that the judges, I. Bergman and Wm. Beck, decided the race was a tie. There was about \$3,000 up on the race altogether; the result was a surprise, though, under the circumstances, it was the only decision that could be given. Some wanted the race run over again last evening, but that was manifestly impossible.

Grant's backers issue a challenge to run him against Bea, for anywhere from \$1,000 to \$1,400 a side, 200 yds., at City View Park, Portland, within one month or six weeks from this date, as mutually agreed upon. Arrangements can be made and entered into on application at THE ASTORIAN office.

Wanted. Place as house keeper or chambermaid by a capable woman, or will accept situation as seamstress. Address "G." care Astor House.

Girl Wanted. To do general housework. Apply at residence of Dr. Jay Tuttle.

C. R. F. P. U. Notice. All members in good standing of the C. R. F. P. Union, who are engaged or going fall fishing on the rivers of this coast, are hereby notified to meet at Ross' Opera House on Wednesday, July 27th, at 2 P. M. sharp. By order Executive Board. A. SUTTON, Sec'y.

A New And Enlarged Stock of Choice Brands of Cigars. Imported Key West and domestic. All tastes can be satisfied and all pockets suited as to price. Tansill's Punch and Junior's in full supply as usual at D. L. Beck & Sons.

Do You Want Your Fine Cleaned? If you do, J. Lafale will do the job neatly and cheap. Leave orders at THE ASTORIAN office.

LATEST NEWS BY TELEGRAPH.

NEW YORK, July 18.—A Washington special says the tender of the United States vessel as a convoy to the queen of the Hawaiian Islands was more than a mere courtesy. Our government will send trusted officers with the ship and undoubtedly with new instructions to the commanders of our naval vessels which should be at Honolulu if there is any need for immediate communication with our authorities. The coast survey steamer Hassler, which is to act as a convoy, will at once return to the United States as the bearer of news, and if the government feels the need of more speedy information than can be obtained by regular steamers and if thought wise the best sailing vessel will be placed at the disposal of our representatives on the Islands. The absence of telegraphic communication at this juncture will undoubtedly result in a movement to secure cable connection with Hawaii at an early day.

HOT IN PITTSBURG. PITTSBURG, Pa., July 18.—There is a good breeze, and a slight drop in the temperature made life more endurable to-day, although the death rate is the largest known in years. The mercury at 1 P. M. rose to 94 in the shade; at the same hour yesterday it was 100. Seventeen deaths from heat repeated up to noon, and nearly twice as many prostrated. Nearly all factories and mills temporarily suspended during the heat of the day.

IN CINCINNATI, TOO. CINCINNATI, July 18.—The heat continues almost unabated. At noon the signal service observer reported that the thermometer registered 97. There have been sixteen prostrations to-day already, and six deaths.

TERRIBLE RESULTS IN CHICAGO. CHICAGO, July 18.—One hundred and thirty-five deaths, mostly caused by sunstroke, are already on the coroner's book and new cases are coming in every few minutes. The thermometer to-day ranged from 85 to 90, and the weather is close and sultry.

GOING BACKWARD. PORTLAND, Me., July 18.—The marshal having ordered the druggists not to sell soda and cigars; all druggists except one proprietor of a small shop closed entirely yesterday, not even putting up prescriptions. This action is not approved by the citizens, who do not sustain the marshal in an attempt to enforce the blue laws. The druggists will take further concerted action.

SUDDENLY INSANE. SARATOGA, July 18.—Mr. and Mrs. Wm. Williams of Southern California arrived Thursday last and stopped at a sanitarium a few hours after reaching here. Mrs. Williams was taken violently insane and her husband took her to New York for treatment yesterday.

A POSTPONEMENT. NEW YORK, July 18.—Argument to show cause why stay of execution of sentence on Jacob Sharp should not be granted has been postponed to next Friday.

TO DRUM UP TRADE. OTTAWA, Ont., July 18.—The dominion government will send a commission to Asia for the purpose of promoting trade between Canada and China and Japan. All efforts up to the present to extend Canada's foreign trade have been utterly barren of results. Canada's foreign trade is still on the decline and it is held that it is impossible to extend Canada's foreign trade on a profitable basis until the dominion government obtains the right to negotiate commercial treaties on her own account.

MORE FISHERY TROUBLE. ST. JOHNS, N. B., July 18.—A special says information from points along the French shore indicate that a misunderstanding exists between the French and the New Foundland fishermen. The commander of the French war ship Driac has driven New foundland fishermen from certain points on the coast at the point of the bayonet. The French encroach upon the fishermen and upon grounds hitherto used by English fishermen.

GOING TO CARRY WOOL. OTTAWA, Ont., July 18.—The Canadian Pacific officials have contracted to carry carloads of Australian wool from Victoria, B. C., to Boston and other points on the Atlantic seaboard. This wool was, until this season, brought in vessels to American ports on the Pacific and shipped over the Northern Pacific railway to Boston and other ports.

A HOPELESS TASK. DUBLIN, July 18.—Archbishop Walsh of Dublin is endeavoring to induce the government to suspend further evictions in Ireland until the land bill has been passed by parliament. He suggests that a conference on the subject be held by the leaders of the various parties.

A LONG AND EVENTFUL LIFE.

Hon. Philo Callender yesterday celebrated his 85th birthday, and received the cordial congratulations of hundreds of his fellow citizens and many hearty wishes for many happy returns of the day. Born in New York state July 18th, 1802, and coming here in 1849, he has during these years been a resident of this vicinity, and now at the great age of 85 his only regret is that so many of his old friends and former associates have parted from him on life's pathway.

The span of such a life as that of Mr. Callender is surprising when one reckons all that has been crowded into the years that he has lived.

When he was born, Thos. Jefferson, the third president of the United States, was in office; Napoleon Bonaparte had just been elected consul in France; George I. was still on his British throne bawling the loss of the American colonies; there were only sixteen states in the American Union; what is now Ohio and Illinois and Indiana was "the northwest territory"; Clark was two years old; Lewis & Clark were leaving St. Louis for the mouth of the Columbia; the "Louisiana territory" was formed; and when he was ten years old came the war of 1812; in his early youth there were no matches, gas, railroads, steamships, street cars, Indian agents and other improvements, and many things that seem old and antiquated to most of us were hailed with wonder long after he attained manhood.

He was 35 years of age when the first attempt was made to run a little railroad from Baltimore; he was nearly 40 years of age in the "Tippecanoe and Tyler too" campaign, and 44 years old when the electric telegraph was invented and California captured from the Mexicans.

He has lived through 85 of the most eventful years in the history of mankind, and it is the wish of his many friends that he may live to round to completion a century of existence.

YESTERDAY'S BOAT RACE.

After the foot race yesterday afternoon a good part of the crowd adjourned to Flavel's dock, where the attraction was a Whitehall boat race for \$100 a side; the contestants were James Turk, who entered his boat Young Turk, sailed by Joe Baker, and Jas. Williams, who entered Curran and Nelson's boat, Parole, and sailed her himself. Each boat carried jib and mainsail, and a very good start was made at 4:30, the course being the same as previously sailed over in races of like nature. The Parole rounded the upper buoy at 5:01 1/2; the Turk at 5:02; the Turk rounded the lower buoy at 5:44; the Parole at 5:50; the Turk coming in easy winner at 6:05; time of race, 1 hour and 16 minutes.

Immediately after the race, another race open to all Whitehall boats was made up to be sailed over the same course for the combined entrance money at three this afternoon. So far as heard from there are the two boats that sailed yesterday afternoon in to-day's race.

A Letter From District Attorney McBride.

OREGON CITY, OR., July 15, 1887. TO THE EDITOR OF THE ASTORIAN: I am in receipt of several letters asking whether the fishing laws would be enforced, in case the canneries up on the Columbia river should continue business into August. For the information of all concerned I will say that so far as the district attorney has power to do anything the law will be strictly enforced, and all persons fishing or canning salmon during the close season will be vigorously prosecuted; and in this course I shall expect to receive the assistance of all good citizens who desire to see the great fishing interests of the Columbia river preserved and protected. T. A. McBRIDE, District Attorney.

Their Business Booming. Probably no one thing has caused such a general revival of trade at W. E. Dement & Co.'s Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Getting a Precedent From "Way Back."

Those who complain of commissioner Sparks' rulings should remember that way back in the very morning of the world before Jubal had shaped the flute or Tubal-Cain had forged the ploughshare for the virgin soil of Asia's plains, Adam and Eve were ejected from their homestead for taking government fruit from an adjoining tree claim without permission from the land office.—Duluth Telegraph.

Mr. Ford, of Astoria, is putting up a new salmon cannery at Peterson Bros' fishery above Pershbaker's mill on this river.—Coquille City Herald, 12.

PERSONAL.

Capt. Flavel arrived in Portland yesterday, overland from California.

W. T. Bell and wife are in the city visiting W. T.'s father, postmaster Bell.

Dr. Sackett, of Mansfield, Ohio, arrived in the city last evening on a visit to parents and friends.

Major W. A. Jones has gone to California and his visit here to make a government report is still a thing of the future.

Wad-el-Ward held services at Liberty Hall last Sunday evening. He will return here next month and give an illustrated lecture on Palestine.

Complimentary Resolutions. Ed. Ferguson, secretary Rescue Engine Co. No. 2, received the following last evening, which is self-explanatory:

HALL OF OUR BOYS ENGINE CO. No. 3, WALLA WALLA, W. T., July 15, 1887. To the Officers and Members of Rescue Engine Co. No. 2, Astoria, Oregon:

At the last meeting of Our Boys Engine Co. No. 3, the following resolutions were unanimously adopted: WHEREAS, During the meeting of the Northwestern Fireman's Association and tournament, held in Vancouver June 15, 16, 17, 1887, certain parties, not in the least connected with the hose team of this company, made certain remarks, censuring Rescue hose team for their treatment of Our Boys hose team; therefore be it Resolved, That it is the desire of Our Boys hose team to state that they have no complaint to make in regard to their treatment by Rescues; and be it further Resolved, That the thanks of this company are hereby tendered to Rescue hose team for the use of their racing cart and many courtesies extended to Our Boys hose team. By order of company, THOS. D. HART, Secretary.

Give Them a Chance! That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them, that is to take Boscchee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

"Read me for my cause, and be patient that ye may read."—SHAKESPEARE.

The Greatest Study of Mankind is Man. The greatest study of mankind is man, and who ere his wondrous fame doth scan, Ponder and devise to cure an ill, Whether by device, fruit or pill, An equal benefactor is he; and we haste, The inventor of a cathartic of delicious taste, To do him honor. Who remembers not how the distressed mother, Her child's entreaties tries to smother, That she insist not the horrid dose be taken. The remembrance e'en now does nausea awaken, And fond father, To be witness of his child's torture, Would rather pay high price, If money could purchase Cathartic nice.

We have it now! and great DE PRATI'S name Appears upon the scroll of Esculapian fame. For after long study what would suit, Has hit upon DELICIOUS FRUIT To cure our ill.

Away at once with draughts and pills; For whether it be indigestion, liver complaint or constipation, Or any disease to which flesh is heir, He here with pride does boldly declare, And on the assertion will wager big, That it can be cured by a HAMBURG FIG.

The Well-Known Mr. Hennessy. F. P. Hennessy of this city, well known at one time as engineer and superintendent of the Golden Gate Park, has returned from his European trip and will spend a few days with his family before going to Mexico, where he has bonded property for an English syndicate to the amount of £1,000,000.—S. F. Chronicle, 13.

Mr. Hennessy is well known to Astoria as engineer and superintendent of the Astoria Street Railway Co., and well remembered by many who will doubtless rejoice to hear of his prosperity.
