

The Daily Astorian. ASTORIA, OREGON: SATURDAY, JULY 23, 1911.

Council meeting to-night. A bunch of keys awaits ownership at this office. The A. B. Field came in from Tillamook last Thursday. Smallpox and diphtheria are epidemic in San Francisco and Oakland. There will be 10,000 cases of salmon on board the Yarkand this evening. The State arrived from San Francisco yesterday; the Columbia sailed. A free lecture to young men will be given to-morrow evening at the Baptist church. The Mistletoe Social club had a very pleasant party at Pythian hall yesterday evening. "The Devil's Auction," a fine spectacular play, will be at Ross' opera house next Saturday night.

A Methodist camp meeting is in progress at Ocean View. Several are in attendance from this city. No better reports are heard from the salmon run—four to the boat is the unsatisfactory aggregate reported. A party of government surveyors is surveying Tillamook bay and Cape Mearns, where a \$80,000 light is to be erected. The Telephone comes down this afternoon, making a through trip to Fort Clatsop and returning to Portland at 2 P. M. The market price of salmon is higher to-day than it has been for the last six years, being now quoted at six dollars a case. The state fish commissioners expect to begin the work of hatching salmon at the Clackamas hatchery about the first of September. The Wide West has been condemned by the government inspectors and will not be put on the route again till she has a new hull. To-morrow the Clatsop ferry boat will leave Smith's Point at 8 and 11 A. M., and 3 and 6 P. M., and will leave Clatsop landing at 10 A. M., and 2 and 7 P. M. The Tacoma papers are kicking nine feet high because the Tacoma city council excludes newspaper reporters and won't let the people know what is being done. Services in the Methodist church Saturday at 2:30 P. M. Love feast at 10 A. M. Sunday, preaching at 11 A. M. and 7:30 P. M., communion following evening services. There will be a boat race about the 10th of next month, open to all Whitehall boats on the river: the entrance fee to be \$10 and the fastest boat to take the pot. On Miller's sands they fish and fight; on Miller's sands at dead of night; on Miller's sands where seines they pull; on Miller's sands where scows are full—To be continued in our next. The sealing schooner Alpha, aboard of which are Jas. Tatton, H. Olsen and others, has been heard from. She made the run from Astoria to the Aleutian Islands in twenty-three days. There will be an excursion to-morrow to Young's River Falls on the new steamer Walluski, leaving Gray's dock at nine o'clock. The Western Amateur Brass Band will accompany the excursion. The barges have pooled their issues and the late cut in rates is a thing of the past. Each boat gets what it can and the price is the same all around, which is more in accordance with usual business principles. The corner stone of a new Norwegian Danish M. E. church was laid last Sunday. The building will cost about fifteen hundred dollars, and be built after church extension plans. Rev. C. J. Larson and Rev. C. Hague assisted in the service. In the police court yesterday, Erickson, for firing guns in the streets, was fined \$20; "Long Henry," for being drunk; Chas. Sellers was fined \$20 for the same complaint; Andrew Anderson was taxed \$10 for being drunk. The Mist hears that the O. R. & N. Co. is going to build two new boats, especially designed for speed, to compete with the Telephone. This, certainly, would be a new departure. It is a long time since the O. R. & N. Co. built a new boat designed for speed or anything else. The German bark F. H. Dreuss, 624, 55 days from Hong Kong, arrived in yesterday morning. She has about 300 tons general cargo, nineteen Chinese passengers and six Chinese in the crew. She will go to Portland to discharge cargo, and from there to Burrard's Inlet to load lumber. On the 3d of next month the senators and congressmen, the governor and other state dignitaries, representatives from the boards of trade from different cities, and leading citizens from various communities are expected here to take part in the deliberations of the waterway convention. The meeting will be held in the spacious hall of Beaver Lodge No. 35, I. O. O. F. Girl Wanted. To sew in tailor shop. Apply to Thos. Mairs.

FROM OVER LAND AND SEA.

A Strike Ended That Cost Millions. Unsatisfactory Test of the New Cruiser.

St. Louis, July 22.—Train men on the Vandalia & St. Louis train due here last night, but which did not arrive until between 12 and 1 A. M. report that at Long Point, this side of Indianapolis, the conductor discovered four rough-looking men on the rear platform of the baggage car. He ordered them off, but as the train started to go they got on the rear platform of the tender, where they were all again found when the train reached Green-Crossing, where they were forcibly ejected from the train and moved away, but as the train was passing a clump of bushes near the crossing they opened fire from revolver and sent some twenty bullets whistling through the baggage and express cars and passenger coaches. Luckily nobody was shot but there were several narrow escapes. The train was brought to a halt, and a posse of citizens organized at once and immediate search was begun. It is thought the object was to rob the train.

WASHINGTON, July 22.—In his report to secretary Whitney of the trial of the guns of the cruiser Atlanta Capt. Bruce says not only were the gun carriages disabled, as heretofore reported, but also the arrangement of the battery is bad, as some of the guns have to be abandoned by the crews that other guns may be fired at the target. Commenting on the results of the battery trial, secretary Whitney said: "The reports are not very favorable as to the first trial of guns—but as yet no matters of great moment have turned up. The trouble in my mind is this: If two rounds of her battery give this result, what would a dozen do? And it is this that we are called upon to accept. She is meant to be a fighting ship, and must be further tested. She should have a cruise at sea sufficient to subject her to a trial of all weathers. Her battery should be tested by actual firing until its working characteristics are determined and its defects are discovered. For these purposes the board should be appointed and the matter settled at the earliest practicable day."

A STUBBORN CONTEST. PITTSBURGH, July 22.—The coke strike just ended was one of the most stubbornly contested battles ever fought between capital and labor. For eleven weeks and four days the fight went on. The amount of money lost by such enforced idleness cannot be calculated, but it reaches millions. When the strike began four-fifths of the 11,000 men in the region had money of their own, but few of them now have money enough to take them out of the district if they wanted to go. The operators are also very heavy losers; the pumps have been kept running at all pits; the pit and yard bosses, superintendents and clerks have been drawing salaries and men getting fat on ones and bays that they did not earn. At West Leisenring, where the Pinkerton men have been stationed, the expense has been over \$1,000 a day since the strike began. Besides this the ovens have become badly out of repair; fully one-third of them all over the region have to be overhauled before coal can again be put into them. Then, too, the coke trade has fallen off, and it will take time and money to build it up. The estimated actual expense to operators has been from \$700,000 to \$1,000,000, while their loss entire will foot up over \$2,000,000.

SALISBURY'S RESPONSE. LONDON, July 22.—The marquis of Salisbury, replying to a deputation which called on him to urge the government to take some action to protect British trade from the effect of foreign competition assisted by bounties, said it was impossible to speak too strongly of the injustice which the foreign bounty system inflicted upon British workmen. The European conference, he said, would soon consider the matter, and in the meantime he could only say that there were two ways for Englishmen to deal with their assailants in this contest: if reasoning failed, Englishmen might return blows.

WANT TO SECURE. LONDON, Ont. July 22.—At the annual session of the district assembly, K. of L., held last night, after a lengthy discussion on the subject of the separation of Canadian Knights from the American body in the matter of jurisdiction, a resolution was passed urging the secession of the body from the United States general assembly and the formation of a general assembly for Canada, the latter body to have complete and unrestricted powers to adjudicate on all questions and business connected with the order.

A BAD STATE OF AFFAIRS. OTTAWA, July 22.—Chief McKerty of the Ottawa police force is authority for the statement that the condition of affairs similar to that exposed in London by the Pall Mall Gazette two years ago now exists in Ottawa. Professional men, civil servants, tradesmen, and all sorts of people being implicated.

THE CAUSE OF THE DISASTER. ST. THOMAS, July 22.—At the inquest in connection with the late railway disaster at this place, witnesses swore that the engineer was under the influence of liquor and unfit to control the train. Also that the conductor had been drinking though not intoxicated.

SERVED HIM RIGHT. NEBRASKA CITY, Neb., July 22.—David Hoffman was hanged here today at 11 A. M., for wrecking the Missouri Pacific passenger train on the 11th of January last at Dunbar, at which time engineer DeWitt was instantly killed and a number of passengers injured.

NO NEWS FROM STANLEY. LONDON, July 22.—Neither the church missionary society nor the Baptist missionary society have received any news in regard to Stanley, notwithstanding the fact that there is an American Baptist mission at Metali.

BEAT THE RECORD. LONDON, July 22.—Woodside, of Philadelphia, to-day beat the best English bicycle record for ten miles, covering the distance in 28 minutes and 34 seconds.

A MICHIGAN TORNADO. SHERBOGAN, Mich., July 22.—Land hunters from the woods to-day report a tornado passing through the southern part of the country in the vicinity of the Rainy river district, and townships of Allis and Presque, Isle county, doing immense damage to all pines. On one forty-acre lot not a tree is left standing; the roads in all directions are completely blocked by timber.

A FINAL EFFORT. NEW YORK, July 22.—The argument to have a permanent stay of proceedings in the case of Jake Sharpe, which was to have been heard to-day, has been adjourned until Tuesday. Burke Cochrane has been retained by Sharpe to make the argument.
