

The Daily Astorian.

ASTORIA, OREGON: WEDNESDAY, JULY 27, 1887.

The town is full of book agents; they all seem to prosper.

New houses going up in every direction. Carpenters and builders all busy.

And now they are wondering up in Portland if Ben Holladay left a will. So far none has been found.

The Tacoma Ledger has a neat new head, with a good picture of Mount Rainier in the middle of it.

"Fried cucumbers" are the latest. A man or woman that would fry cucumbers would put pepper on a watermelon.

The flags on the vessels in the stream were at half mast yesterday in respect to the memory of the late Capt. A. D. Wass.

At the state fair at Salem in September two prizes, one of \$250 and one of \$150 will be awarded for a competitive military drill.

Sailors are said to be so scarce at Port Townsend and elsewhere that ship owners are contemplating having their vessels towed on account of the lack.

The Young's river falls pulp mill is going right ahead, and the machinery will soon be in position. In another month, it is expected, regular shipments of pulp will be begun.

"Col." Dell, editor of the Democrat, had another row last Monday with a former employee named Goodkind, who claimed that Dell owed him for work. He hit Dell on the nose and Dell pushed him into the gutter.

Messrs. Ryrie, Worsley and Dunbar got back safely from the headwaters of the Lewis & Clarke, with 300 fish. Two other fishing parties also returned with an equal number. They didn't use gill nets; just hook and line.

The Oregon Sittings thinks that it isn't right to publish divorce summons in an obscure newspaper of no circulation. But, my dear boy, don't you know that obscurity is oftentimes one of the necessary elements of success in those cases.

There is probably no city in the United States that is freer from the annoyances of flies, bugs, mosquitoes and other insects than Astoria. Their presence is almost unknown, and occasionally for a day or so, come a few troublesome flies, as if to show our usual immunity from those pests of the house and office.

The State, bound to San Francisco, took 200 cases salmon yesterday morning. The San Francisco salmon shipments this year have been very meager. Lumber, in the shape of shooks, box material, 1st, etc., is the principal shipment at present. Our Astoria mills are supplying a fine article in that line to the San Francisco market.

In the police court yesterday a Mongolian damsel, a daughter of Ah Gunn, was convicted of keeping a bawdy house and fined \$50. Kate Armstrong, an unfortunate woman who appeared to be demented was arraigned, charged with disorderly conduct on the streets, and was dismissed by the judge with a reprimand, and a caution to "go slow."

Several Chinese afflicted with the horrible disease of leprosy have been confined of late in the Multnomah county pest house, and the Sittings is informed that these loathsome creatures are now engaged in picking wild blackberries between there and the Washington county line. That lets out the juicy blackberry from that section for this season if we know ourself.

Funeral of Capt. A. D. Wass.

The funeral of Capt. A. D. Wass took place from coroner Ross's undertaking rooms at two o'clock yesterday afternoon. Messrs. Fulton, Reed, McVicar, Trenchard, Fox and Ross were pall bearers. The funeral cortege was made up of personal friends of the deceased, and if every one who had kindly feeling for Capt. Wass were in the procession it would have been the longest ever seen in this state. Arrived at the Episcopal church, the ritual for the dead was gone through with by the rector, Rev. W. S. Short, and from there the body was conveyed to the hillside cemetery. Many old residents and pioneers in this section were present, testifying their regard for the genial spirit that had passed away.

THE WIDE WORLD'S WIRINGS.

No Papal Interference with the K. of L.

GREAT BARRINGTON, July 26.—A careful inspection of the flooded area shows that the devastation had been considerably more wide spread than was at first reported. When the cloud burst the air seemed filled with water and in an incredibly short time the entire valley became transformed into a white-capped lake; nearly all the crops in the valley are destroyed and it will take years of labor to put the land in its former fertile condition so deeply is it covered with stones and sand brought down by the numerous land slides. Reports regarding the loss of life have been exaggerated, only one body having been found.

TO BE FOUGHT IN SPAIN. LONDON, July 26.—Articles for a prize fight between Jacob Kilean, of America, and Jen Smith, of England were signed to-day. According to the agreement the encounter is to take place in Spain on the third day of January next, within one hundred miles of Madrid. Both men paid the forfeit and the dates were fixed for future payment. Malton will train Kilean and Jenny House will train Smith. Each will appoint an umpire who in turn will settle upon the referee. Only fifty spectators to the fight will be allowed. The battle ground will be selected by mutual consent.

OTTAWA, July 26.—Dr. Davidson, who is in charge of the parties sent out last spring to survey the boundary between Alaska and the northwest territory, writes from Yukon district to the customs department strongly advising the establishment of a customs house and district, as the territory is likely to become thickly settled on account of its mineral deposits. Settlers of both sides of the boundaries are enjoying unrestricted free trade.

SMITH GOT TIRED. TORONTO, July 26.—Professor Goldwin Smith has resigned his editorial position on The Week. Hereafter he will devote himself to magazine work.

WILL NOT INTERFERE. ROME, July 26.—The pope has decided that there is no ground for papal interference with the Knights of Labor question. He has conveyed the announcement of this decision to cardinal Gibbons.

SARCASM FROM "THE TIMES." LONDON, July 26.—The Times, commenting on attorney-general Garland's opinion in reference to the alien's act, says: "Our chief surprise at this recent law is mistrust. It evinces a lack of acclimating power in America which might be supposed to be too sure of her ability to absorb foreign elements to compel them to begin offering reluctant allegiance."

GOOD FOR THE LATTER. LONDON, July 26.—In the first inning of the cricket match yesterday between the Durham team and the Canadians, the score of the latter was 134 for seven wickets.

A New Lodge in Astoria.

Clatsop Lodge No. 113, United Order of Honor was instituted on Monday evening in the Pythian building lodge room, by past supreme president Alex. Rothenstein, with fifty-two charter members. The following officers were elected and installed: President, A. A. Cleveland; vice-president, C. B. Watson; secretary, Alex. Sutton; treasurer, Mark Schlussei; chaplain, Mrs. Sarah J. Ross; conductor, Jno. H. Johansen; inside guardian, Frank H. Surprenant; outside guard, Martin Olsen; past president, Junior, Thomas Dealey; past president and representative to the Grand Lodge of California, Julius Strauss; past president and representative to the Grand Lodge of California, and district deputy, J. C. Ross; trustees, Wm. A. Pohl, Wm. Allen, and Herman Wise.

This is the sixth lodge that has been instituted in this state in five weeks by Mr. Rothenstein, with a membership of 360. It is Mr. Rothenstein's intention to organize a grand lodge in the northwest within a year. It requires 2,000 members to form a grand lodge, or jurisdiction. The jurisdiction of California has over 4,000 members. Mr. Rothenstein goes from here to Tacoma and Seattle, to institute lodges there.

Salmon in Alaska.

Capt. J. C. Hunter, of the Ancon, talking of the salmon industry in Alaska to a Press reporter, says:

"The salmon run is immense, and the packing and canning companies are doing a large business. The Cutting company at Loring, while we anchored there, made one draw and secured 2,800 fish. This occupied them the entire day."

"At Tongas Narrows the Cape Fox packing company made a haul of 3,000. These hauls are made early in the morning, and it takes all day to clean up and pack them."

"At Salmon Bay there is a salting establishment which is running to its utmost."

"The Chiclet packing company at Chiclet is getting all the salmon it can handle. The Chiclet Indians, who are fishing for the company, objected to the wholesale catching of fish with traps in the river, and demanded toll of the company, but the matter has been adjusted."

"One of the prettiest sights I know of was the shoals of salmon which were visible from the steamship deck at night. Millions of the finny tribe would go darting and dancing through the water, leaving a phosphorescent wake of the greatest brilliancy."

Drowned At Snag Island.

Yesterday afternoon, at Snag Island, near Miller's Sands, about ten miles up the river, John Rossen saw his boat go adrift and went out to save it. While in the water he appeared to be suddenly taken with cramp, and sank. He came to the surface almost immediately and again sank, this time finally. Up to last evening the body had not been recovered. He was a native of Finland, unmarried, aged 27, and a member of the Columbia River Fishermen's Protective union and the Pacific Coast Seamen's union.

In Brief, And to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

New York Salmon Market.

Salmon continues to advance, owing to an active demand and unfavorable information from the Pacific coast. There have been sales here of 3,000 cases, spot and to arrive, at \$1.65@1.70. On Friday there were buyers of good brands at \$1.70, but sellers were unwilling to entertain bids below \$1.75@1.80. The advance in price of Columbia river fish has naturally strengthened the market for outside river stock, and advanced prices have been met by buyers.

Catarrh to Consumption. Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Desperate remedies resorted to by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all advertised remedies. They become resigned to a life of misery rather than torture themselves with doubtful palliatives.

But this will never do. Catarrh must be met at every stage and combated with all our might. In many cases the disease has assumed dangerous symptoms. The bones and cartilage of the nose, the organs of hearing, of seeing and of tasting so affected as to render the urinal so elongated, the throat so inflamed and irritated as to produce a constant and distressing cough.

SARROU'S RADICAL CURE, meets every phase of Catarrh from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never-failing.

Each package contains one bottle of the RADICAL CURE, one box CATARRHAL SALVE, and an IMPROVED INHALER, with treatment; price \$1.
