THE MORMONS' PRESIDENT.
SALT LAKE, July 27.—The cause of the secrecy surrounding the sickness and death of John Taylor, head of the Mormon church, can be explained only on the theory that high church officials did not want to let the fact become generally known, for fear that the U. S. marshal would get trace of many "under-grounders" who wanted to be at the bedside of the dead man without danger of arrest.
Taylor has been in hiding since February 1, 1885, having preached that day for the last time in the tabernacle, and fleeing from justice that night. He has never since appeared in public. In March, 1885, Taylor was indicted by the grand jury of the third district court for unlawful cohabitation with four wives, and although frequent raids have been made upon places where he is supposed to have been, the attempts at arrest have always been futile. Where he has been none but a chosen few of the Mormon officials know. He has undoubtedly been in the vicinity of this city, but the place is still a mystery. Even the *Deseret News*, in its obituary notice, does not tell where he died. It does not even tell of what disease he died. It says on this subject:

"It is now some months since President Taylor was attacked by disease. It came upon him by degrees, manifesting itself in the beginning by a swelling of the limbs for want of proper exercise. He fought the disease with his characteristic pluck and determination."
No one connected with the church will tell the place of his death, for fear of disclosing to United States officials the rendezvous of violators of the law. His funeral takes place in the tabernacle Friday, July 29, at noon. The body will lie in state in that building from 7 A. M. till 11:30 A. M., when the public will be permitted to view the remains.

As to his successor, Joseph F. Smith stands the best chance. George Q. Cannon will make a strong bid for the place, but he is opposed by most of the Mormon church. Wilford Woodruff, president of the twelve apostles, is entitled to the place under the order of succession. The successorship question will probably not come up for a year or two. There was an interregnum of three years between Brigham Young's and Taylor's reigns.

Seeds That Germinate Quickly.
The human system is a fruitful soil, and among seeds that germinate most rapidly in it are those of rheumatism and neuralgia. A slight cold, brought on by sitting in a draught, wet feet or damp clothes, will develop either of those abominable painful maladies with unpleasant rapidity. The proper preventive of this agonizing vegetation is Hostetter's Stomach Bitters, a medicine which nullifies a tendency to either of the maladies named, and soothes the aches which they cause. Nor is it less effective as a remedy for rheumatism than as its preventive, a fact as amply attested as any other relating to its curative properties. Mariners, miners, frontiersmen, and others, have ever found it a faithful preservative of health in unfavorable regions, and a benign remedy for malarial disorders, and stomach, liver and bowel complaints. It is a fine promoter of appetite and a capital tonic.

The various British and Scottish associations in Massachusetts have undertaken a movement to secure the naturalization of their members, and all British subjects who may be eligible to American citizenship. Careful estimates give at least 27,000 unnaturalized British-born men in the state, a large proportion of whom are located in large cities in the eastern section.

A Surprise For The Pension Office.
WASHINGTON, July 27.—The pension office had a surprise yesterday. This was in a brief refusal of a Kansas man who has for years been in receipt of a comfortable pension to be continued on the rolls any longer. The letter declining the pension is as follows:

To Gen. J. C. Black, Commissioner of Pensions: Drop me off the pension list, for I am cured by faith in the Lord. There never was much the matter with me, so the blessed Lord hadn't much to do. Blessed be his holy name.
Yours truly,
HARVEY CUNNINGHAM.

An aged colored woman in a Georgia town recently signified her intention of joining the church. She was reputed well-to-do, and two rival churches strove to win her. One of them sent a deacon of great eloquence to employ upon her his rare arts of persuasion. In normal circumstances, it is probable that his mission might have been successful, but the aged woman recognized him as a person who had owed her five dollars for fourteen years, and she joined the other church.

The queen's jubilee cake measured eleven feet high and three and a half feet in circumference, weighed half a ton, and cost the donors and manufacturers £800 to make.

We Tell You Positively
That Simmons Liver Regulator will rid you of dyspepsia, purify your system, enable you to sleep well, prevent malarial diseases and give you a brisk and vigorous feeling. It acts directly on the liver and kidneys, cleansing, purifying, invigorating and fortifying the system against disease. It will break up chills and fever and prevent their return—entirely free from calomel or opium.

From Pendleton to Walla Walla is a rolling plain, and one vast field of grain that stands from four to five feet high and as thick as it can grow. There are no poor fields, and for almost boundless miles in all directions nothing but grain fields that are fast turning ripe are to be seen.

Many Of the good things of this life are sorrowfully let alone on account of Dyspepsia. Acker's Dyspepsia Tablets will cure Dyspepsia, Indigestion and Constipation; sold on a positive guarantee at 25 and 50 cents, by

No One Need Remain A Dyspeptic.
"I have been suffering for over two years with Dyspepsia. For the last year I could not take a drink of cold water nor eat any meat without vomiting it up. My life was a misery. I had had recommended Simmons Liver Regulator, of which I am now taking the second bottle, and the fact is that words cannot express the relief I feel. My appetite is very good, and I digest everything thoroughly. I sleep well now, and I used to be very restless. I am flushing up fast; good strong food and Simmons Liver Regulator have done it all. I write this in hopes of benefiting some one who has suffered as I did, and would take oath to these statements if desired."
