SHIPPING NOTES.

The pilot schooner *Gov. Moody* came in yesterday afternoon.

The *Telephone* makes a through trip to-day, leaving for Portland at 2 P. M.

The schooner *Excelstor* is in the stream, lumber laden for San Francisco.

The barkentine *Katie Flickinger*, lumber laden at Knappton, goes to sea to-day.

The *Gen. Miles* is taking on supplies for Samuel Benn's cannery at Aberdeen.

The Washington territory pilot's schooner is expected here the first week in August.

The Canadian Pacific Co.'s steamer *Sardonyx*, is expected to-day with coal for Astoria.

The *Columbia* is due from San Francisco this morning with a very large passenger list.

The *Rosie Olsen* is loading tin and cannery supplies at Flavel's wharf for Elmore, Sanborn & Co.'s Sinaloa cannery.

Capt. Mitchell, of the *Sailor Boy*, will build a schooner at Gray's harbor to have a capacity of 600 M feet of lumber.

The barkentine *Tam O'Shanter* came in yesterday. Among her cargo is 125 tons California hay. She is discharging cargo at the Man street wharf.

Astoria appears to be the present depot and base supplies for all the outside canneries. Every coast-bound vessel is carrying away freight and passengers for canneries from the Umpqua to Behring's sea.

The *Ancon* will load for Alaska at the Main street wharf to-day. She will take a big load from Astoria of all kinds of cannery supplies; prominent among the Astoria freight is thousands of cans that will not be filled with Columbia salmon this year.

The Post-Townsend correspondent of the *Port-Intelligence* says: Seamen are very scarce at present, much more so than usual. The ship *Enoch Soudie* has been detained in the harbor for over two weeks in the so far fruitless endeavor to secure a crew, although a bonus is freely offered.

The bark *Professor Johnson* is also in port awaiting a crew. Several vessels have left port short-handed. The prevailing wages are \$40 per month. The sailors who are in port want \$45, and are not particular about shipping at that rate.

Deserved Reward of Heroism. On the 6th of March, 1883, the American ship *Wm. H. Starbuck*, now at Portland, picked up the shipwrecked crew of the Italian brigantine *Chiara* off Cape Horn, for which the Italian government had medals struck for the rescuers, one of whom, Michael Galvin, is now here. On arrival here Captain Reed, of the *Starbuck*, met him and immediately had the proper authorities at Washington informed of his whereabouts, so that the medal might be sent out. It has just been received here and presented to Galvin, who is now fishing for George & Barker. It is always pleasant to record any worthy action, and the recipient is to be congratulated on this acknowledgment by a foreign government of his bravery in helping to save the life of his ill-fated fellow sailors. The medal is a handsome silver one bearing the portrait of King Humbert and on the reverse an inscription with the bearer's name and an account of the circumstances.

Give Them a Chance! That is to say, your lungs. Also your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boscbee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Advertising Will Fetch It. Omaha reporter—Had a big drought down in Texas, I hear.

Texas man—Worst kind. Why, at one time it got so bad that our local paper actually printed a regular church prayer for rain in the editorial page.

"Did it rain?" "Well, we had a sort of shower a week or so ago."

"Yes, nothing like advertising."—*Omaha World*.

A COMPLETE CURE. I have suffered all my life with skin diseases of different kinds and have never found permanent relief, until, by the advice of a lady friend, I used your valuable CUTICURA REMEDIES. BELLE WADE, Richmond, Va. Reference, G. W. Latimer, Druggist, Richmond, Va.

SALT RHEUM CURED. I was troubled with Salt Rheum for a number of years, so that the skin entirely came off one of my hands from the finger tips to the wrist. I tried remedies and doctors' prescriptions to no purpose until I commenced taking CUTICURA REMEDIES, and now I am entirely cured.

E. T. PARKER, 307 Northampton St., Boston.

Catarrh to Consumption. Catarrh in its destructive force stands next to and undoubtedly leads on to consumption. It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concocted by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all advertised remedies. They become resigned to a life of misery rather than torture themselves with local applications.

But this will never do. Catarrh must be met at every stage and combated with all our might. In the disease the disease has assumed dangerous symptoms. The bones and cartilage of the nose, the organs of hearing, of seeing and of tasting so affected as to be useless. The eyes so elongated, the throat so inflamed and irritated as to produce a constant and distressing cough.

SAVOR'S RADICAL CURE meets every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. BACILLI CURE, one box CATARRHAL SOLVENT, and an IMPROVED INHALEUR, with treatment; price \$1.

POTTER DRUG & CHEMICAL CO., BOSTON.

At all druggists, 25 cents; five for \$1.00; or of Potter Drug and Chemical Co., Boston.

The "Kate & Anna" Boarded in Behring Sea. On the 25th of June Captain Shepard, of the revenue cutter *Rush*, boarded and examined the steam schooner *Kate & Anna*, Captain Lutjens master, ten miles NNE off St. George island in Behring sea.

The vessel was furnished with a number of small boats and all necessary implements for taking seal, and the master admitted that the vessel was on a sealing voyage and had on board six seal skins, which he said were taken before he entered Behring sea.

Captain Shepard informed him that in taking seal in the ports of Behring sea, claimed by the United States, or in Alaskan waters, he was violating the laws of the United States, and if he were caught doing so he would be arrested. The vessel was not seized, but he promised to obey the law, and the vessels parted company.

The Salmon Run. "Is there any improvement in the salmon run?" asked an ASTORIAN reporter yesterday morning of a man who has been fishing since '74.

"No," said he, "there really is no fish to speak of. What surprises me is that there has been no run of salmon in July, but there will be a run yet."

"What makes you think so?" "Well, the dogfish always come in with the last of the spring salmon. Every year since I've been on the river there is a big lot of dogfish comes in about the time the big salmon run in July is over. This year there are scarcely any dogfish at all showed in the river yet, which makes me think that there will yet be a big run this season."

Renews Her Youth. Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain."
